LOCAL BREVITIES.

Pacific Lodge No. 822, A. F. and A. M., will meet in Masonic Temple at half-past seven this evening.

There will be a regular meeting of Harmony Lodge No. 3, I. O. O. F., in Odd Fellows' Hall at half-past seven this evening.

P. Mahoe believes that jags, like charity, should begin at home, and launched a choice specimen of its kind yesterday among his admiring relatives. After most of the furniture and a few heads had been broken, his jag went where most good jags go, and he will tell Judge Andrade today how it got there.

DENIES STORY.

Theodore Bowman, in a statement made yesterday, denies the published account of the accident he figured in last Monday, when his machine found an ability in the curb of Thomas Square. An afternoon paper painted him as "seeing double," and ascribed the accident to too free indulgence in the cup that cheers.

Bowman brands the statement as maliciously false, and points to a broken wheel which was the cause of the accident. While turning out of the way of a car and a slow wagon which he was passing, the speedometer wheel cut through the spokes of his front wheel, which promptly detached itself from the machine and dumped it on its side in the gutter.

SUNDAYS AT THE BOYS' FIELD.

At five o'clock on Sunday afternoon R. S. Gault, secretary of the boys' work in the Y. M. C. A., and superintendent of the boys' clubs of this city, has been holding meetings in the grandstand at the Boys' Field. When he began about six boys came out, and people hooted at the idea of the meetings ever being a success. Yesterday afternoon sixty-nine boys and young men of that district were present. The workers were Mr. Gault, G. J. Day, J. M. Marin and Frank Lee. Different business men and religious workers of the city have gone from time to time to these meetings to address the boys. Those who have gone recently have pronounced the meetings more than a success, and wondered at the good attention the boys gave and their response. The boys are principally Chinese and Hawaiians of that neighborhood. Mr. Gault is a very busy man; works every night of the week but one, in addition to his day classes. The boys love him and appreciate his work for them.

WHAT THE PRESS AGENTS SAY

The Park Theater.

The appearance of Harney and Haynes at the Park is like a ray of sunshine in a storm. Harney belongs to a school of artists in black face that has few students wandering into this section of the world, for the reason that they are always in demand on the mainland. His eccentric dance is different from anything seen here since the days of the visit of the World's Entertainers. Those who saw that attraction in Honolulu, ten years or more ago, say there was nothing quite as good even there. He is a wonder, and while he may think he is giving the audience all it pays for, there is a sure enough desire for more. When the people leave the Park after the show it is with a pleasant recollection. Miss Haynes does a cakewalk as it has never been seen here. She gives the steps so much that is unknown to the theater-going public that the dance bursts as a distinct surprise. Both Harney and Haynes sing the former's original compositions. Connie Marina did his ghost dance again last week and was accorded the usual applause. There will be an entire change in the program tonight and the company will have new stunts. The pictures will be new. Harney and Haynes' act is called the "Tramps," and in it new dance steps will be introduced. Connie Marina will make his farewell appearance and sing, by special request, his song, "Good Night."

ORGANIZING BOY SCOUTS ON MAUI

Committees Are Appointed and Full Regiment Will Be Formed.

When Colonel Bullard gave his talk Saturday on the Boy Scout movement, says the Maui News, he caused a wave of enthusiasm to spread throughout the town of Wailuku, and that in turn is spreading throughout the county, until now, a week hence, committees are being organized in Wailuku, Kahului, Makawao, Lahaina and Hana, and it will be only a short time until Maui will have a regiment of boy scouts to join with the other islands in forming the division of Hawaii, in the Boy Scouts of America. The talk by Colonel Bullard was a plain straightforward appeal for the boys, and when he finished it was soon apparent that his appeal had taken root in fertile soil. Mr. H. P. Baldwin took the floor and asked those present to join with him in furthering the boy scout movement in Maui, and to make better men of the generation of boys now growing up. A committee was formed of the following gentlemen, who will proceed to organize the boys in Wailuku: S. Keilinoi, chairman; Chas. C. Clark, secretary; H. P. Baldwin, treasurer; Rev. R. B. Dodge, Rev. H. P. Judd, T. B. Lyons, Lieutenant Kaluakini, Captain Bal, H. B. Penhallow, Captain Whitehead and Hugh Howell.

Colonel Bullard was surprised and pleased with the rapid and business-like way in which the matter was handled, but then that is the way Maui does everything. The committee met again last Tuesday, and subcommittees were formed, and the boys are now being enrolled, and in a short time, parents will see their boys with new ideas, and new sentiments regarding one another and life in general.

PAPAIKOU LANDS ARE TO BE OPENED SOON

It will be but a short time before the Kaieie lands at Papaikou are surveyed and opened for homesteading, says the Hilo Herald. These lands are about four hundred acres in extent and practically the only government land close to Hilo which is available for homesteading purposes. Some months ago a petition, signed almost entirely by members of the county government, was sent to the commissioner of public lands in regard to this, and the result has been that Surveyor Tom Cook of this city has been instructed to make a survey of the property in question, with a view to its division into homesteads of such size as may be proper for development under this plan. The land of Kaieie has been under lease to the Omeo Sugar Company for some time past, but belongs to the Territory, and the crop of sugar cane was removed about July 1, since which time the land has been idle. It is understood that the division of the land will be such that each settler will be able to obtain between fifteen and twenty acres of land for his homestead. The new law will, of course, be followed in the allotment of the homesteads, and lots will be drawn to see who will have the first choice of homesteads. The Omeo Sugar Company has placed no objections in the way, and seems to be anxious to have settlers take up the land who will grow cane and will also be likely to furnish labor for the plantation.
