WATER OF LEILEHUA PLAIN

Crosson Bill Said to Be Aimed at Water Sources of the Wahiawa Company.

THE NEWS A BIG SURPRISE

Wahiawa Officers Denounce Bill as 'Cold-Blooded Steal' and Will Fight It.

Mr. T. McPherson, according to press advices received from Washington yesterday, has had introduced into congress a bill to grant him and his associates all the water rights on the Leilehua military reservation for a term of fifty years.

The message, which came to Castle today, said:

Delegate introduced bill house, last senate, granting McPherson all water rights military reservation fifty years. Referred war department.

This, declared R. D. Tenney, president of the corporation which has the right of the Wahiawa Water Company, is a cold-blooded steal, and we oppose the passage of the bill to the fullest extent.

The telegram correctly represents the bill being introduced in congress, and has been correctly interpreted here.

The bill, which was introduced here, refers to the water company which McPherson and associates were granted to supply Oahu plantation's water needs.

The military reservation boundary under the Koolau range on the Waiahua side, which is just about opposite Waiahua.

Mr. Tenney states that the Wahiawa Water Company depends very largely upon the water in the military reservation for its supply, and will fight in the last ditch to retain its rights and preserve all its water sources.

Representations have been sent to the War Department in Washington to investigate the matter thoroughly and give the local people information.

Delegate Kuhlko stated yesterday that he did not know what the bill was, and had not introduced it on Mr. McPherson's request.

Whether it was an attempt to control the water supply of the Wahiawa Water Company or not, he didn't remember being the bill or a draft of it.

The bill was drawn up by the firm of Thompson, Clemens and Wilder. Mr. Thompson left for Washington on Wednesday and was to urge the passage of the bill.
