PINCHOT OPENLY CRITICIZES BALLINGER

WASHINGTON, D. C., January 6.—Interest in the Ballinger-Pinchot controversy has reached fever heat. The intensity of the situation was doubly increased today when a letter from Pinchot to Senator Dooliver was read in the Senate. In the letter the chief of the Division of Forestry openly upheld the action of Glavis, the discharged employe of the Land Department, in making his charges against the Secretary of the Interior, and furthermore criticized the action of Ballinger in discharging him.

ROYAL CHRISTMAS TREE ACCIDENT

ATHENS, January 6.—While the royal family was celebrating Christmas, the Christmas tree was upset with the result that the fire from the lighted tapers was communicated to nearby draperies. A conflagration ensued and an entire wing of the royal palace was destroyed. There were no lives lost, but the blaze burned fiercely for some time, despite the efforts of the fire department to extinguish it.

ZELAYA GETS WARNING

CITY OF MEXICO, January 6.—Former President Zelaya has been warned that an attempt may be made upon his life. The deposed dictator of Nicaragua has been very quiet since he sought asylum in this city, but it is believed that there is very grave danger that an attempt at assassination may be made.

BATTLESHIP IDAHO FLOATS

PHILADELPHIA, January 6.—The battleship Idaho, which ran ashore in a mud bank on the Delaware River, today, has been floated.

HELLO QUESTION IS PERENNIAL

Discussion Waxeth Warm As Conduits Are Laid

The telephone question, like hope within the human breast, is apparently a matter for eternal consideration in city and county supervisory circles.

The municipal fathers will gather around the legislative board on next Thursday. They may, again take up the ghostly remnants of what at one time purported to be an agreement between the city and county government and the Mutual Telephone Company, pertaining to the laying of conduits and the placing of city and county police and fire alarm wires therein.

The telephone matter has been reposing in the recesses of a special committee pigeon-hole over which Supervisor Logan is custodian of the key. The latest agreement submitted by the local hello company was turned over to a special committee of supervisors of which Logan was appointed chairman. McClellan is also a member of this committee, and it is understood that he is opposed to a number of the provisions incorporated in the document and still file his objections in a minority report which will go before the board, together with the recommendation of the other members of the special committee.

It is believed that the upshot of the matter will be that the new agreement, which is mainly the child of the telephone company, will again be thrown back to the Board of Supervisors and again commence its never-ending round of reconsideration.

HUME FORD IS BACK HOME

(Continued From Page 1.)
All the things he has done, moving at the usual rate and under the influence of the lively surroundings of the great metropolis.

The principal thought is that Ford has lost none of his enthusiasm for Honolulu, and the Outrigger Club of today won't be seen for dust when he gets to work on some of the plans he intends to carry out in the future.

A Good Investment

The Templo Ranch Oil Co. with 600 acres oil land, flowing oil wells and all its reservoirs filled with high-grade oil in the Templo district, Kern Co., Cal., will soon complete its three-mile gravity delivery pipe line.

This Oil Company is at present like a plantation with tons and tons of sugar on hand, ready to be shipped on the incoming steamer.

An able management, almost a square mile of proven oil land, cheap transportation of oil, high prices with steadily increasing demand for oil, will make this company an early dividend payer, and for that reason the stock of this Templo Ranch Oil Co. is recommended as a GOOD INVESTMENT by the Lincoln Mortgage & Loan Co. of San Francisco.

Capitalization is \$1,000,000, divided into shares of \$1.00 each. I have a small block of them for sale at 20c while they last. Secure them NOW.

ABUSE OF DISCOUNTS IS ADJUSTED

Merchants Association Will Not Play Cut- Throat Game

The question of discounts has been adjusted by the Merchants' Association of Honolulu at their directors' meeting last week. This has been a bone of contention for several months past. It appears that individuals have been ordering goods from merchants of this city and having same charged to their firm, thus getting them at wholesale price.

The Merchants' Association has now drawn up a plan whereby it will be impossible for an individual purchasing goods for his own use, to have same charged to the firm he may be working for.

Several members of the Merchants' Association are desirous of having their association amalgamated with the Honolulu Chamber of Commerce. The majority of the members, however, think that it would be a disastrous move and are strongly opposed to any such amalgamation. They are afraid that the retail troubles which are foreign to the Chamber of Commerce, that body being composed chiefly of sugar planters and men interested in immigration, would not look after the interests of the individual merchant, but rather devote their whole time and attention to the good of the country. Being in the majority they would at all times command the situation.

The matter of the abuse of discounts would have been difficult for the Chamber of Commerce to adjust, as in all probability this evil would have been passed upon as a whole or by a committee, whose duty would have been to look into the matter. It would have been handled by a body of men who knew nothing of the retail business instead of being handled by a body of men who were giving discounts and knew the conditions under which they were being treated by shrewd purchasers.

That the merchants fully intend to act up to their decision has been emphasized during the past week. A certain gentleman of this city called at the W. W. Diamond Co. and purchased \$6 worth of glassware. He asked that it might be charged to the firm he was working for. Emil A. Berndt, the manager, told him that no discounts were being given to private purchasers. If the goods ordered were for the firm, then a discount would be allowed. The individual in question cancelled his order and went to another store in this city, ostensibly for the purpose of seeing whether or not the merchants were solid in their resolution.

Half an hour later he returned to Diamond & Co.'s store and ordered the goods, paying cash for them. This proves that the merchants fully intend to abide by their decision and that there will be no cut-throat game between them.

VIKING SHIP FOR HONOLULU

Grotesque Craft of North Seas May Come Here

Honolulu may witness the arrival of a strange and grotesque craft known as the Viking ship, which was one of the interesting sights viewed by thousands who attended the Alaska-Yukon-Pacific exposition held at Seattle some months ago.

The Viking ship is to be returned to its home in Norway. It is understood that the craft will sail for Tonsberg in early February, leaving Puget Sound for Norway by the way of San Francisco, Honolulu and thence to Japan and China coast ports, the Philippines, Straits Settlements, through Suez Canal and the Mediterranean and the northern Atlantic to destination.

The Viking ship in sailing from Seattle will carry its owner and a picked crew of four time-tried navigators, Finn H. Frolich, the well known sculptor, is the present possessor of the unique craft. He has placed Captain Ole Brude, who some years ago successfully crossed the Atlantic ocean in an eighteen-foot row boat, in command of the Viking ship.

If you can't get a reputation any other way you might employ a press agent.
