TAFT ORDERS MARINES RETURNED TO SHIPS COELHO INTRODUCES LOAN BILL

LOAN BILL CARRIES MILLION AND HALF APPROPRIATIONS

Important Measure Introduced by Coelho-Fairchild Sounds Warning Against Extravagance in Expenditures--Deputy-Sheriffs Are Topic of Discussion in Senate.

SENATE

32d Day—Morning Session
One million, six hundred and sixty-nine thousand, four hundred and ninety-two dollars and eighty-two cents is appropriated out of any moneys received by the Treasurer out of the loan fund for the biennial period ending June 30, 1911, by a bill introduced in the upper chamber of the Legislature this morning by Senator Coelho.

The items of the bill are all for internal improvements, and are divided among the different islands, as follows:

Hawaii, \$278,398.39; Maui, \$342,165.26; Molokai, \$48,300; Kauai, \$190,572.28; Oahu, \$819,656.89.

The largest individual item in the bill is \$134,708.76 for a piping system for the Honolulu City Waterworks.

The bill passed its first reading by

title and was referred to the Printing Committee.

Money Appropriated

After the introduction of the bill, Senator Fairchild, chairman of the Ways and Means Committee, called attention to the fact that already this session, the sum of \$174,314.28 has been appropriated. The items covered by the appropriations so far are as follows:

Expenses of the Senate, \$20,000; expenses of the House, \$20,000; reimbursing lepers for lands taken by the Territory on the island of Molokai, \$2379; appropriation for the Alaska-Yukon Expedition, \$25,000; fund for the entertainment of distinguished visitors coming as guests of the Territory, \$20,000; relief of Levi C. Lyman, \$503.15; unpaid claims against the Territory, \$2670.40; reimbursing the Bishop Estate for land wrongfully located as home-

FREAR VETOES TENEMENT BILL

Governor Finds That Measure to Protect Residence Districts of Honolulu Confers Too Extensive and Most Unusual Powers Upon the Board of Supervisors

On the ground that it confers upon the Board of Supervisors of the City and County of Honolulu too extensive as well as most unusual powers, Governor Frear this morning vetoed the Douthitt tenement bill.

The intent of this bill is to give the Supervisors power to regulate and restrict the erection of pot factories, laundries and other things of the same general character, and especially tenement and lodging houses, the idea being to provide a method for settling the vexed and much agitated question of whether or not the Japanese are to be allowed to ruin the choice residence districts of the city by filling them full of tenement houses. This question, of course, arose over the Makiki trouble of a year ago.

With the particular intent of the bill

the Governor apparently has no fault to find, but the construction of the measure he thinks very defective. His veto message in full says:

"I herewith return, without my approval, House Bill No. 17, entitled 'An Act to Amend Section 23 of An Act Entitled 'An Act Incorporating the City and County of Honolulu,' being Act 118 of the Session Laws of 1907."

"This Act in my opinion attempts to confer upon the Board of Supervisors of the City and County of Honolulu too extensive as well as most unusual powers. This is due perhaps to a desire to make sure of meeting certain needs deemed to be important. In such cases, however, great care should be taken to avoid going so far that the resulting evils in other directions will be greater than the evil in-

tended to be remedied, or so far that even the desired object itself will be frustrated.

"Assuming for present purposes that the provisions of Section 1 are not so broad as to be unconstitutional, or at least that it would be safe to enact them and leave their construction or effect to the courts, and also that there is no objection to Section 2 taken by itself, I think that Section 3, especially in connection with Section 2, goes altogether too far.

"Section 2 authorizes the Board of Supervisors to make all ordinances necessary to protect health, life and property, in other words, to cover practically all subjects embraced within the Territorial criminal laws as well as many other subjects of legislation.

CARNEGIE WILL GIVE A LIBRARY

If the Legislature will pass the bill introduced in the House by Ebingle, and vigorously opposed this morning by Rice and the Kauai delegation, providing for the establishment and maintenance of the Library of Hawaii, the Territory will be presented by Andrew Carnegie with from \$100,000 to \$150,000 for a fine library building. This is the substance of a statement made by Governor Frear this noon in an interview.

The Governor is strongly urging the passage of the bill and hopes to be able to overcome the opposition to it that developed this morning. "What's the use of teaching our children to read," he asked, "if there is nothing for them to read when they are taught?"

Governor Frear stated that he had conferences with Mr. Carnegie both last May and last September relative to the Iron King presenting the Territory of Hawaii with a fine library building, and the only question now appears to be how much Mr. Carnegie will give. "We cannot expect less than \$100,000," said the Governor, "and we may get as much as \$150,000."

"But to get this donation it is necessary that the Legislature pass some such law as is now before the House, carrying an appropriation for the support of the library."

Liquor Amendments Are Condemned

At a special meeting of the Executive Committee of the Republican Central Committee, held this noon, resolutions condemning any amendment of the present liquor law were unanimously passed. Those present at the meeting were A. L. C. Abington, A. D. Castro, Harry von Holt, J. P. Cooke, C. E. King, J. C. Lane, F. Macfarlane, N. Fernandez, and G. N. Voeller. The resolution follows:

Whereas, there is now pending before the House of Representatives of the Legislature of Hawaii certain measures seeking to amend the present liquor law; and,

was enacted by a Republican Legislature in fulfillment of the pledges of the platform of 1906; and,

Whereas, the amendments covered by said bills now before the House of Representatives are inconsistent with the pledges of the Republican party, in that they seek to affect the essential features of the law; therefore be it

Resolved by the Executive Committee of the Republican party of Hawaii, That we regard the passage of said bills as a direct violation of the pledge in the platform of September 14, 1908.

DEPUTY SHERIFF BILL FOR OAHU

House Has Special Bill To Cover This Island

HOUSE

The first thing that happened to the House was a call from Claudius Mc Bride, silk hat and all, bearing the Governor's veto of Douthitt's tenement house bill.

Douthitt at the time had not yet arrived, 9:30 being too early for him. Once more the Speaker felt called upon to pay his compliments to the diligent Oahu members. "Either the hours of the House must be changed to conform to those of the honorable members from Oahu," he said, "or the honorable members from Oahu must change their hours to conform to those of the House. This is too bad. This is now the thirty-second day of the session and when the fiftieth day arrives it will be too late to pass any bill over the Governor's veto in the interest of the people we represent." On account of Douthitt's tardiness (Continued on Page 3)

Suit Against Police

A suit for \$200 damages has been begun by John Borges, against Manuel Medeiros, detective, Chas. H. Rose, deputy sheriff, and Jack Kalakala, chief of detectives. It appears that Borges was arrested on information given by another man, who turned state's witness, and the present action has been taken on a basis of wrongful arrest and imprisonment. Judge Humphreys is making a test case of the matter. The papers were served on the officers this afternoon, and caused no surprise as Humphreys had stated that he would take some such action to test the legality of the arrest of Borges.

Depository Bill Report

The bill to authorize the deposit of Territorial moneys in banks in this Territory was reported back by the Finance Committee this afternoon with material amendments, and by the adoption of the report passed second reading.

The bill as amended provides that Treasury funds of the Territory may be deposited in National banks or banks doing business under the laws of Hawaii. But when such deposits
