

**DO YOU WANT  
A Fine Horse?  
A Fast Trotter?  
A Thoroughbred Racer?  
An Elegant Roadster?  
Or a Gentle Family Horse?**

**FOR SALE**

To arrive per W. H. Dimond, now due, 10 head of horses, direct from the world-renowned Palo Alto Breeding Establishment of Gov. Stanford. The lot comprises the following animals:—

**"CLEMENTINE."**

Public record, 2:21. Brown mare, 15½ hands, by Addison, Jr., he by Addison, son of Old Vermont and Black Hawk.

This is one of the most noted as well as one of the fastest mares that ever appeared on the American turf. She was campaigned two seasons by Budd Doble, the trainer and driver of Goldsmith Maid, during which time she won over 50 races and \$35,500 in stakes and purses, retiring with a public record of 2:21, which mark she was then, and is still capable of lowering. She is perfectly sound, and as fast as she ever was.

**"ALABAMA."**

Bay mare, sired by Robt. E. Lee; he by old St. Clair, dam Melinche, dam of Fred Crocker, 2-year old record 2:25¼. This mare is fast, but has no public record. She is a prize beauty and kind enough for ladies' use.

**"MENLO."**

Blood bay gelding, 5 years old. By Mohawk Chief, he by Rysdyk's Hambletonian, dam Mater Occidentis (dam of Occident 2:16½). This is one of the handiest colts on the place, and from his breeding ought to prove a winner in any class. Is well broken and said to be very promising. Gov. Stanford paid \$20,000 each for Mohawk Chief and Gen. Benton.

**"BENTON BOY."**

Serrel gelding, 6 years old, by Gen. Benton, dam, the fast trotting mare Aurora, public record 2:27, she by John Nelson, son of imported Trustee. Handsome, stylish, kind, very speedy, and fine size.

**"CORNET."**

Bay gelding, foaled May 1st, 1878, sired by Contractor, he by Ajax, son of Rysdyk's Hambletonian. 1st dam, Bena, by Blackwood, he by Alexander Norman; 2nd dam by Lost Cause; 3rd dam by Mambribo Chief.

This horse is a trotter, and any young fellow that has a nice girl should secure him at once. He is said to have shown flights of speed way down.

**"ROBIN."**

Chestnut gelding, by Kentucky Hunter; dam by Jack Hawkins (son of imported Glencoe).

This horse can beat 2:40. He is very gentle, will stand anywhere without hitching, but is very spirited and stylish, and a fine looking animal.

**ONE MATCHED SPAN OF BLACK MARES,**

No white; 15 hands high, 4 and 5 years full sisters, sound, kind, and well broken; single and double, very gentle, will stand without hitching.

**Thoroughbreds.**

**"BELL BOYD,"**

Blood bay mare, black points, 5 years old, by Springbok; he by imported Australian, dam Hester, by Lexington. 1st dam, Boydana, by Imp. Knight of St. George, son of Irish Birdcatcher; 2nd dam, Sally Wallace, by Star Davis; 3rd dam, Evelyn, by American Eclipse; 4th dam, Hannah Mares, by Gehanna; 5th dam, Sally Mares, by Carolinian; 6th dam, by Imp. Jack Andrew; 7th dam, by Imp. Driver; 8th dam, by Imp. Fearnought; 9th dam, by Imp. Ariel, son of Morton's Imp. Traveler; 10th dam, by Gaine's Careless, son of Imp. Obscurity; 11th dam, by Imp. Janus.

This mare is a beauty. Although strictly thoroughbred, she has never been raced, but has been kept by the Governor as a private family saddle animal for ladies' use exclusively. She is very gentle. Her sire, Springbok, has the best record ever made at 2 miles and a quarter, in a dead heat with Preachers for the "Saratoga Cup," July 29th, 1875, time 3:56¼, which still stands at the head of the list at the distance.

**BAY FILLY,** foaled January 24th, 1882, by Shannon, full brother to Molly McCarthy, Shannon by Monday; dam Hennie Farrow, by Imp. Shamrock; 2nd dam, Ida, by Belshazzar; dam Boydana, (dam of Bell Boyd).

This filly is very large for her age, handsome as a picture. She is in appearance and breeding superior to the two sensational Shannon colts, Freda and Shenandoah, who both last year in their two-year old form, made a record of 1:42¾. She has never been mounted, and her dam was one of the highest priced and most valued mares that was ever brought from the East to Palo Alto.

The above animals will all be guaranteed sound as represented. Some of them we expected to keep and offer for sale, but have finally concluded to make no reserve, and offer the entire lot for sale. In so doing we do not expect to obtain fabulous prices, but will sell them as low or even lower than inferior animals have been sold heretofore.

**The Latest News from China and Japan.**

**CHINA.**

A proclamation has been issued at Canton, signed by the Viceroy and other high officials promising rewards for the capture of the head of French soldiers or sailors, which has caused considerable excitement among the populace of that city. The document, which is rather lengthy, commences by stating that it was "necessary to make certain preparations from the bestowment of rewards according to merit, and to be in readiness in the event of war, and to encourage meritorious exertion." It then proceeds to comment on the Langson affair, and after giving orders relative to the river defences and the signals that will be used in ordering an attack, should the French commence the attack, it concludes with the following list of rewards, which we take from the *China Mail*;

1. To those who take or destroy an enemy's ship of more than 100 feet in length, we will pay a reward for each ship taken or destroyed, of \$5,000.  
2. To those who take or destroy a smaller ship of the enemy, 50, 60, 70, or 80 feet in length, we will pay for each ship, taken or destroyed, a reward of \$3,000 to \$4,000, according to the length of the vessel.  
3. For the largest rowing boat of the enemy (sampan) taken or destroyed, \$1,000 will be paid.  
For a medium size rowing boat, \$800.

5. Those who take large guns or weapons from the enemy will receive the worth of all such spoil and a reward besides.  
6. To those who take alive or bring in the head of a high officer of the enemy (seven-stripe officer) will receive for every such officer, taken or killed, \$5,000.  
For one of the second rank (three stripes) \$2,000.  
For one of the third rank, \$500.

**CHINA'S PRIVATE SOLDIERS.**

A thousand troops, have, we learn, been enlisted in Hongkong for service against the French if war ensues. The men were enrolled by one Chuu, a mandarin sent down from Canton for the purpose. This official has been living at the Tung Wah Hospital. The pay of these men is to be \$20 a month, and they are to be dispatched to Tal-wan-foo in Formosa. Their leader glories in the name of "The flying flea in the sky." It seems he was once a well-known pirate in the Kwangtung province, but some time ago the high officials at Canton offered to pardon the offences of any pirates who would accept military or naval service under the Government, and "The flying flea in the sky" was one of the most noted of such offenders who threw aside their nefarious habits to serve their country and annihilate the French.

**JAPAN.**

The *Japan Gazette* of September 16th publishes this item about the destructive gales in that country: The loss of life and damage caused by the late gale appear to us to have been deplorable. At Daishoji, Ishikawarhen, four persons were drowned and 129 reported missing. At Kagoshima-gort, Kogoshima ken, seven lives were lost, 1,024 houses blown down and 818 severely damaged.

The gale of the 26th inst. seems to have done considerable damage. The sea flowed into the large town of Hiroshima, carrying away sixteen houses and injuring many others, and doing serious harm to growing crops. Wakayama, Kanazawa and Marugame have also suffered, the inundation in the last named place causing the loss of several lives and destruction of property.

Owing to the inclement weather last Saturday the party of planters that accompanied Mr. Jaeger to inspect the Government Nursery was small. It was, however, thoroughly appreciative, and derived much satisfaction from the visit. The numerous varieties of sugar cane were exceedingly interesting, and the various other plants, native and foreign, some of which have been procured with great difficulty, gave evidence of the value of this Government enterprise and the efficient manner in which it is carried out by Mr. Jaeger.

An explosion is announced to take place to-day at the corner of Fort and Merchant streets. The scene of the phenomenon is the O. P. M. B., and as that institution is centrally situated, it will no doubt endanger the surrounding premises. It is probable that Mr. Sam Lederer will inform his patrons of the exact hour and moment it will take place, provided they will call on him and invest in a few shares of the lucrative business of which he is the manager. It is rather an anomaly to announce an explosion and at the same time to inform the public that goods will be sold at an unparalleled discount for 30 days. The question can only be settled by a call at the O. P. M. B.
