**PRESIDENT AT CAPITAL.**

**Suffers Little Pain and Doctors Expect Him to Recover Quickly.**  
 Washington, Sept. 24.—President Roosevelt returned to Washington at 6:30 o'clock tonight via the Pennsylvania Railroad from Indianapolis, where he was compelled to abandon his Western trip because of an abscess on his leg which developed as a result of the trolley accident at Pittsfield, Mass. He stood the journey from Indianapolis well and when he was carried in a wheel chair from the train to his carriage he was in excellent spirits and appeared to be free from any pain.  
 With Mrs. Roosevelt, the President was driven directly to the temporary White House on Jackson place, where, according to the present arrangement, he will remain until the wound is healed and he is able again to be on his feet. The President was taken to his room on the second floor of the house and made comfortable and his wound dressed. Later he was reported to be resting easily and the expectation is that within ten days the President will be himself again.

**SHIPPING OF FRANCE.**

**The First Big Fleet of Sailing Vessels to Carry Oil to Japan.**  
 Philadelphia, September 24.—The first of a big fleet of French sailing vessels has arrived here to load oil or Japan. The vessel is the ship Faulconiere, launched only a few months ago at St. Nazaire. The bounty given by the French government has resulted in many sailing vessels being built in that country. A number of these are bound to the United States to compete for the trade of the Far East.  
 An interesting point in connection with the Faulconiere's passage was that she earned 12,750 francs without having taken on board a pound of cargo, that sum being the amount of bounty for the voyage.

**Laundry Improvements.**

The Elite Laundry has added electric power and with the installation of a steam washer is now a finely equipped institution. The electric current generates steam for the washer and the ironer is vouched to be the only one in the United States heated by electricity. The work that is being turned out by the Elite Laundry is in every way free from objection and the institution is deserving of the liberal patronage it has already built up.

**Marconi Submits Plans.**

Turin, September 20.—At a conference here today with Signor Galimberti, Minister of Posts and Telegraphs, William Marconi submitted plans for the erection of a wireless telegraph station to cost \$140,000 for establishing connection with the British and American stations. The scheme will be submitted to Parliament. King Victor Emmanuel has bestowed the cross of the Order of the Crown on Marconi.

**Boxers Beaten By Chinese.**

Peking, September 24.—Viceroy Tseng, with two battalions of the Shan Si province guard, has defeated the Boxers outside of Cheng Tu Fu. The Chinese Foreign Office says the military operations in Shan Si are not meeting with serious opposition and asserts that the reports of the activity of the rebels are exaggerated.

**OIL FOR HOUSE FUEL.**

**New York Establishment Which Will Do Cooking With Petroleum.**  
 New York, Sept. 23.—A new apartment hotel in this city is to be completely fitted out with a system of heating by oil. A tank for oil is placed in the cellar, and the pipes run throughout the apartments. Cooking will be done entirely on stoves with oil for fuel, and the heating will be either by hot air or steam heating furnace, which will burn oil. The cost of crude oil will soon be about 75 cents a barrel. Three and one-half barrels give as much heat as one ton of coal. The oil boom in this and other parts of the country is expected to reduce the price considerably.

**Origin of Beet Sugar.**

The great beet-sugar industry of the world owes its very existence to a discovery of Vilmorin. The original sugar beet grown in France did not contain enough sugar for commerce. The amount of sugar could be easily determined in the beet, but in making the test the reproductive qualities of the plant were always destroyed. Vilmorin learned how to extract the pulp without destroying the plant, and by selection and cross-breeding he grew a plant upon which the great industry is now founded. We owe also to Vilmorin the present carrot, a vegetable which was nothing more than a thin, dry, hard, woody root, unfit for the stomach of a sheep or a cow. Year after year he sowed in a bed and carefully examined every root. By selecting seed from only the best plants for the new sowing, he produced a carrot with more flesh and less wood. The horseradish, the turnip, and, indeed, the potato vine, were once plants with thin, dry, woody roots, without the least suggestion that they would ever develop into food for man or beast.—Success.

**Ginseng.**

Consul Ragsdale, at Tien-tsin, writing to the State Department about ginseng, says:  
 "There are four principal kinds—the Kirin, Korean, American and Japanese. Miraculous healing properties are ascribed to the Kirin ginseng, and it commands a very high price, the best specimens being sold at 200 to 600 times their weight in silver. Only the wealthy, of course, can indulge in this costly drug, but such is the faith of all classes of China in the life-giving virtues of the plant that even the poorer classes make tremendous sacrifices to obtain it, in cases of emergency. Owing to the immense demand and the limited supply in the wild state, the farmers near Kirin are doing a thriving business in cultivating ginseng, although it commands only a fraction of the price that is paid for it in a wild condition. Korean ginseng is next in cost, the prices ranging from \$2.07 to \$31.12 per catty (one and three-fourths pounds), according to size and quality. American ginseng is becoming more widely known and more popular every year.

**Kaiser Talks Much.**

Berlin, September 20.—Emperor William and his advisers are getting some frank counsel regarding what the Berliner Post calls the sources of the "inconsequential nature of German politics." In the Deutsche Zeitung, which comments upon the timely speeches of Emperor Nicholas at Kursk, appears a remarkable arraignment of Count von Buelow and Baron von Richthofen for failing to assert themselves as responsible Ministers and advisers of the crown and to insist on their constitutional rights to supervise the speeches of the Kaiser.

**No Opium in Chamberlain's Cough Remedy.**

—Many cough cures contain opium. The effect of this drug is to diminish secretion of the mucus, and the relief afforded is only temporary. As soon as the effect of the opium passes off, the malady returns in a more severe form. The system is also weakened and rendered more susceptible to cold. Chamberlain's Cough Remedy does not contain opium in any form. It affords relief and leaves the system in a healthy condition. It always cures and cures quickly. The Hilo Drug Store sells it.
