## CITY NEWS.

—Roller skating nightly, not Sunday.—Adv.

—Company L has received word that they received a mark of "E" in the governmental inspection last spring. Out of about fifty companies of Iowa National Guard, inspected by army officers, only eight in the state received this mark, which is the highest that can be reached. The members of the local company are receiving congratulations of their friends for their excellent showing.

—Today is the day of the inauguration of the plan arranged for by the Industrial Association, railroad men and the telephone company whereby "Information" will furnish the time of arrival of each train that comes in or departs from the Union station. A chart has been arranged and "Information" will get first knowledge as to whether or not the trains are on time about two hours before they are due and will be posted several times from then until the train arrives. The change will prove a great boon to the public.

—The following patents were granted to Iowans for the week ending November 26, 1912, as reported from the office of Wilfred C. Lane, Patent Attorney, 505 Crocker Building, Des Moines, Iowa. All were released this morning after a hot breakfast had been served them by the jailor. All during the winter there has, heretofore, been an average of about four apply at police headquarters for shelter from the elements each evening.

—Mr. A. E. Connable hands The Gate City a clipping from the San Antonio Express showing the railroad development of southwestern Texas and the influence it will have on the history and progress of that section of a great state. New railroads are reaching in rich country to handle the bounteous crops of the great southwest and the San Antonio Express in reporting the activities uses the information as cause why Texas and especially San Antonio and southwest Texas had good cause to rejoice Thanksgiving day.
