## SWAPPING HORSES THE NEW WAY

Little Trade That Looked Suspicious In the Mind of Sheriff John J. Crimmins.

### TWO HORSES ARE MIXED

By the Skillful Work of the Officers the Matter Seems to be About Adjusted.

A peculiar incident which happened last week has come to light from the fact that an investigation was required, which has not yet fully developed as to the motives involved in a queer transaction.

Thursday a man, a stranger in the city, drove up to the livery stable of H. E. Alton, at Ninth and Main streets with a horse and buggy which he had cared for at the barn. In a short time he reappeared at Alton's barn for his horse and buggy, but the employe at the barn who took charge of the animal was not at the barn. The employe in charge at the time knew nothing of the transaction and did not even know the horse of the stranger and he was taken through and identified an animal as his. It was hitched up to the vehicle and the stranger drove off.

Discovering the mistake at the barn, if such it was, the matter came to the ears of Sheriff J. J. Crimmins who is always on the alert when a horse theft is committed and who scarcely ever permits the thief and horse to get away.

By some means it was ascertained that the stranger had hired the horse from Willis' livery barn at Wayland, Mo. While the transaction looked suspicious, yet there was nothing definite in the matter of criminality and the whole thing might turn out to be a mistake. Sheriff Crimmins, always steady and safe in the matter of protecting the innocent as well as energetic in the punishment of criminals, went carefully to work and at the same time somewhat impatiently awaited developments. The stranger's name was not even known. Friday was a day of watching, waiting and thinking with the sheriff until after 2 o'clock in the afternoon, when Mr. Crimmins concluded that the time for action had arrived and he immediately dispatched a telephone message to a constable at Wayland, giving him such particulars as was necessary for him to have and as good a description of the man and the horse he had come in possession of at Alton's stable, and using the telephone in other directions. The first impression of the sheriff seems to have proved the best for it has brought partial results.

The horse taken from Alton's stable was a much better animal than that which had been left by the stranger, a suspicious detail in the transaction and this is what exaggerated the idea that no mistake had been made, but that it was a concocted plan, a well-laid scheme to swap horses without giving anything "to boot." As Crimmins is noted for "having it in" for horse thieves and is generally successful in ferreting out their little schemes, it is not surprising that he was gratified on receiving a telephone message from Mr. Willis late yesterday afternoon saying that the animal described was in his stable safe and sound; had been returned by the stranger. The stranger was not at Wayland and was possibly not aware of having returned to the barn, another and very different animal from that which he had hired from Mr. Willis, the Wayland livery man.

This is as far along as the puzzling details of this peculiar transaction have developed. The missing horse from Alton's stable has been found and the horse that the stranger drove to Keokuk is still here, getting a rest and three meals a day.

**A Good Investment.**  
W. D. Magli, a well known merchant of Whittemound, Wis., bought a stock of Chamberlain's medicine so as to be able to supply them to his customers. After receiving them he was himself taken sick and says that one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy was worth more to him than the cost of his entire stock of these medicines. For sale by all dealers.—Adv.

### MORE CONTRIBUTIONS TO MONUMENT FUND

This Week the Monument Will be Cast in Plaster and Then in Bronze.

Each week the list of contributors to the Chief Keokuk monument grows. The work of the artist, Miss Walker, is finished. This week it will be cast in plaster and then into bronze, the last two processes being merely mechanical. The two bronze tablets have been ordered, one to tell by whom the statue is erected and the other to mark the starting of the pioneer trail across Iowa. The following gifts were received the past week:

Mr. Will T. Jones, New Orleans \$10.00  
Mrs. Nellie VerSteeg, Colorado Springs ..... 1.00

### CAN DRESS WELL ON \$10 PER WEEK

Woman Who Does Not Have to Skimp Says That It Can be Easily Done.

[By the United Press.]  
DENVER, July 12.—Any working girl who is making \$10 a week can dress well. That's what Chrystal Herne, known as one of the best dressed women on the stage, says, and she declares she knows whereof she speaks, for she has done it. Miss Herne believes that if a girl studies the psychology of dress she can do it. By "psychology of dress" she means the art of dressing to suit ones individualities of character and style. The plainest looking girl, she believes, can "get herself up" attractively if she but practices the psychology of dress.

"Every woman has her own individual characteristics and her own peculiar personality," said Miss Herne today. "If she dresses to fit her character and style she will attain the ideal in correct clothes. She will not need to spend a great deal to achieve this object. It is hard to explain this, but most girls will know what I mean. I have found only one dressmaker in New York who understands me—who understands my personality and individualities. Understanding them, she can gown me attractively on comparatively little outlay. She might not be able to do the same for other women, and that proves my point.

"Dress is simply one way to add character—to set it off. The plain, easily satisfied girl should never be bedecked out in frills and fancies by an aspiring seamstress. A woman like 'Nora,' in Ibsen's 'Doll's House,' light, airy and rather shallow, should not attempt to wear elaborate gowns. Her dresses should be rather of the fluffy, simple order which fits her own personality.

"Simplicity in all things is essential to correct dress. Gaudy clothes, many frills, and ridiculous fashions are never seen on correctly gowned women."

Miss Herne is extravagant. At least that is what she says. She believes in buying only the best. When playing recently in New York she wore three gowns which were made to her own order. The total cost of those

### MELANCHOLY WOMEN

Should Profit by Mrs. Hurley's Experience—Her Own Story Here Told.

Eldon, Mo.—"I was troubled with displacement, organic inflammation and female weakness. For two years I could not stand on my feet long at a time and I could not walk two blocks without enduring cutting and drawing pains down my right side which increased once a month. I have been at that time purple in the face and would walk the floor. I could not lie down or sit still sometimes for a day and a night at a time. I was nervous, had very little appetite, no ambition, melancholy, and often felt as though I had not a friend in the world.

"After I had tried most every female remedy first, without success, my mother-in-law advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and gained in strength every day. I have now no trouble in any way and highly praise your medicine. It advertises itself."—Mrs. S. T. HURLEY, Eldon, Missouri.

Remember, the remedy which did this was Lydia E. Pinkham's Vegetable Compound. For sale everywhere.

It has helped thousands of women who have been troubled with displacements, inflammation, ulceration, tumors, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration, after all other means have failed. Why don't you try it?

### CAMEL CARAVANS IN FAR WEST

Two Hundred of the Animals to be Brought Over From the Orient and Tried Out.

EL PASO, Texas, July 12.—Camel caravans such as those seen in the great Sahara desert will soon become familiar sights in the deserts of New Mexico, Arizona and southern California if the plans of an association of southwestern business men are successful. J. H. Trimble, a prominent Texas stockman, is one of the leading spirits in the plan to transport 200 camels from the orient to the southwestern section of America for use in the arid wastes.

The association purposes to put the camels on a ranch on the Rio Grande about 150 miles south of Cape Verde where a breeding station is to be established. The desert areas of New Mexico, Arizona and California, although offering great possibilities to the seeker after metals are but little traversed either by railroads or other means of transportation. With squads of camels it is believed long journeys into the interiors of these wastes can be made.

This will not be the first time that camels have been brought here for this purpose. Jefferson Davis, when secretary of war in Pierce's cabinet tried it out. Under Davis' direction forty of the animals and their Armenian drivers were imported and a caravansary built near Cape Verde. Some of these buildings still remain. But just about the time the beasts and their drivers became acclimated and tests were to start, the civil war broke out and Davis was elected president of the confederacy. Because of the feeling against Davis, and partly because of the unsettled condition of the government for so many years, the camel scheme was dropped.

### Motorcycle Tours.

HUTCHINSON, Kans., July 12.—The first of three big motorcycle tours from the middle west to Denver for the annual convention of the Federation of American Motorcyclists began today when 800 enthusiasts left on the sputtering two-wheel machines from the Rocky mountain metropolis. The bulk of the starters are from Indiana and Illinois. Five hundred left Indianapolis July 7. They were joined here by 300 Kansas and Missouri motorcyclists. They reach Denver about July 20. The eastern tour will leave Milwaukee tomorrow. About 400 will make this trip, going to Denver by way of Chicago, Des Moines and Omaha.

### \$3.50 RECIPE FREE FOR WEAK MEN

Send Name and Address Today—You Can Have It Free and be Strong and Vigorous.

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, falling memory and lame back brought on by excesses, unnatural drains, or the follies of youth. That has cured so many worn and nervous men right in their own homes—without any additional help or medicine—that I think every man who wishes to regain his manly power and virility quickly and quietly, should have a copy. So I have determined to send a copy of the prescription free of charge, in a plain ordinary sealed envelope, to any man who will write me for it.

This prescription comes from a physician who has made a special study of men and I am convinced it is the surest-acting combination for the cure of deficient manhood and vigor failure ever put together.

I think I owe it to my fellow man to send them a copy in confidence so that any man anywhere who is weak and discouraged with repeated failures may stop drugging himself with harmful patent medicines, secure what I believe is the quickest-acting restorative, upbuilding, SPOT-TOUCHING remedy ever devised, and so cure himself at home quietly and quickly. Just drop me a line like this: Dr. A. E. Robinson, 4081 Luck Building, Detroit, Mich., and I will send you a copy of this splendid recipe in a plain ordinary envelope free of charge. A great many doctors would charge \$3.00 to \$3.50 for merely writing out, entirely free.—Adv.
