PRESIDENT URGES TREATY BE USED

SENDS ADDRESS TO AMERICAN PEOPLE—MADE PUBLIC BY TUMULTY.

INTOLERABLE ORDER ENDED

Associates Free Governments of World in League to Maintain Right and Justice—Asks Acceptance Without Alterations.

Washington.—President Wilson, in an address to the American people on the occasion of signing of the peace treaty, made a plea for the acceptance of the treaty and the covenant of the league of nations without change or reservation.

His message given out here by Secretary Tumulty said:

"My Fellow Countrymen: The treaty of peace has been signed. If it is ratified and acted upon in full and sincere execution of its terms it will furnish the charter for a new order of affairs in the world. It is a severe treaty in the duties and penalties it imposes upon Germany, but it is severe only because great wrongs done by Germany are to be righted and repaired; it imposes nothing that Germany can not do; and she can regain her rightful standing in the world by the prompt and honorable fulfillment of its terms.

Liberates Great Peoples.

"And it is much more than a treaty of peace with Germany. It liberates great peoples who have never before it ends, once for all, an old and intolerable order under which small groups been able to find the way to liberty, of selfish men could use the peoples of great empires to serve their ambition for power and domination.

"It associates the free governments of the world in a permanent league in which they are pledged to use their united power to maintain peace by maintaining right and justice. It makes international law a reality, supported by imperative sanctions.

"It does away with the right of conquest and rejects the policy of annexation and substitutes a new order under which backward nations—populations which have not yet come to political consciousness and peoples who are ready for independence but not yet quite prepared to dispense with protection and guidance—shall no more be subjected to the domination and exploitation of a stronger nation, but shall be put under the friendly direction and afforded the helpful assistance of governments which undertake to be responsible for the opinion of mankind in the execution of their task by accepting, the direction of the league of nations.

Recognizes Right of Minorities.

"It recognizes the inalienable rights of nationality; the rights of minorities and the sanctity of religious belief and

practice. It lays the basis for conventions which shall free the commercial intercourse of the world from unjust and vexatious restrictions and for every sort of international cooperation that will serve to cleanse the life of the world and facilitate its common action in beneficent service of every kind.

"It furnishes guarantees such as were never given or even contemplated for the fair treatment of all who labor at the daily tasks of the world.

"It is for this reason that I have spoken of it as a great charter for a new order of affairs. There is ground here for deep satisfaction, universal reassurance and confident hope.

"WOODROW WILSON."

ALLIES WILL LIFT GERMAN BLOCKADE

NOTICE GIVEN TO THE GERMAN DELEGATES BEFORE THEIR DEPARTURE FOR HOME.

THEY MUST RATIFY PACT FIRST

Historic Document Has Been Deposited in Protocol Office—Tell Turks to Go Home; Too Many Differences Between Them.

Paris.—Official notification to Germany that the blockade will not be raised until the treaty is ratified by Germany was in the form of a resolution adopted by the council of four and presented to the German delegation before its departure for Berlin. The resolution follows:

"The superior blockade council is instructed to base its arrangements for rescinding restriction upon trade with Germany, on the assumption that the allied and associated powers will not wait to raise the blockade until the completion of ratification, as provided for at the end of the treaty with Germany, but that it is to be raised immediately upon receipt of information that the treaty of peace has been ratified by Germany."

Conditioning the raising of the blockade upon Germany's ratification of the treaty is regarded in conference circles as a sure plan for securing speedy ratification because of Germany's food and raw material needs.

As Russia was practically blockaded as a result of the blockade against the central powers, the opinion is held that when the blockade of them ceases, there will be no blockade against Russia.

NORTH DAKOTA IS TO ENTER BUSINESS FIELD

Will Operate State Bank and Finance Farm Credits to Extent of \$10,000,000—Non-Partizan Idea.

Fargo, N. D.—With the industrial program of the nonpartizan league approved through last Thursday's referendum seven laws, North Dakota will enter immediately into the business of handling grain and manufacturing flour; it will put into operation a state bank and finance farm credits to the extent of \$10,000,000.

Other industries may be entered into later without further legislation, for the industrial commission of the state, into whose hands has been committed the industrial scheme, is empowered to proceed with the establishment of any manufacturing or marketing enterprise having to do with the manufacture or market of farm products.

Have you ever seen an endless stream of flour?

Once you visit the new Sperry Mill at Spokane—where a steady stream of wheat is turned into a steady stream of flour—you will ask, "Where does all the wheat come from and where does all the flour go?"

We'll tell you: The great Inland Empire produces the wheat—the Palouse, the Valley of the Snake, Camas Prairie—the rich regions from the Coeur D'Alenes to the breaks of the Salmon.

And the flour from this Master Mill goes into homes, not only of the millions in the Great West and elsewhere in America, but even into foreign lands.

To see the new Master Mill is a treat you owe yourself for it is filled with human interest. You will go home with a greater appreciation, a better realization of the immensity of this industry—and what it means to the people of the Great Northwest.

Remember—we'll be glad to welcome you any time you choose to come!
