

PROTEST AGAINST THE CALLING OF BOND ELECTION

The Board of County Commissioners Hears Arguments on Proposal, but No Action Is Taken.

Seven farmers appeared before the board of county commissioners this morning and made vigorous protests against calling a \$200,000 bond election for the improvement of the roads of Ada county. The objections were that taxes were already too high, that the bonded indebtedness of the county was high, when it was taken into consideration that there were not only \$270,000 in county bonds out, but in addition school bonds, bonds against the city, highway district bonds and bonds for irrigation canals, the interest on which all had to be paid by direct taxation, except the former bond issue for good roads, which was paid by a special automobile tax at present, but which law might be changed, even at the next session of the legislature, thus causing additional burdens upon property owners.

W. M. Briggs, former county commissioner, was the first speaker. He declared he was opposed to the bond election.

TOO LATE TO CLASSIFY

LANTERNS at Kimery's, 816 Idaho St. M18

Issue and was certain that it would not carry. He said the commissioners would do a better work by taking the money that an election would cost and spending it upon putting the roads into condition. He stated he favored good roads, but not a bond election, that he favored the use of the extra auto license being expended on the roads and with a small bond issue, good cross roads could be built leading to the main thoroughfares, thus doing a good work without going to such a heavy expense. He stated the valuations in the city and county were from one-third to one-half higher than they should be and higher than in other sections of the state. Over at Nampa, he stated, the real estate dealers were selling land and business was good at Twin Falls and Idaho Falls, where land was not assessed as high as it is here and where, he stated, new land was producing better crops than are raised here.

There are three classes of men in Ada county, stated the former commissioner, professional men and business men who are living off the producer and consumer and thirdly the men who do not pay any taxes but are able to vote and willing to put a burden on the tax payers of the county.

Compared with Illinois. Mr. Briggs took the commissioners back to Illinois and pointed out four counties in that state where he stated, taxes were much lower, the counties richer, where there was coal mining, manufacturing and big pay rolls and yet he said, not one of those counties had as good a system of roads as Ada county now had and even a county, which held the capital of that great state, did not have as good a system as Ada county.

Farmers living under the Ridenbaugh canal, stated Mr. Briggs, soon have a bond issue coming due which will cost them \$3.50 per acre. Then, he stated, there is an additional assessment of \$2.50 per acre for interest on outstanding bonds and maintenance. Add some \$3 to \$3.50 more per acre for taxes, he said, and likely 60 cents per acre for a drainage system for the benefit of Nampa and Caldwell, and farmers here will be paying \$9.10 per acre on their land on a valuation of \$225 per acre, which he declared was too heavy a burden to carry. He urged that the commissioners take no action in calling the election.

Others who spoke against the bond election were, H. G. Wilson, Robert Wilson, A. Wilson, Frank Hammer, Mr. Baldwin and W. R. Whipple, a rancher from Dry creek.

In Favor of Election. Jess B. Hawley, the newly elected president of the Boise Commercial club, spoke in favor of the bond election. He stated that he represented interests which paid taxes in Ada county several times the amount of those who had voiced objections. He said they were not asking the commissioners to build good roads, but merely to call an election and to ascertain the sentiment of the residents of the county and if they expressed themselves by a majority vote in favor of a bond issue, then the matter was settled, but that it lay with the people. He stated he was sure from the sentiment he had heard expressed that 70 per cent of the people of the county wanted to bond the county to complete the system of good roads and all that was being asked of the commissioners was to hold an election and let them express themselves. He declares those whom he represented favored it and felt the commissioners would not be doing their duty, if in the face of the petition, they refused to call the election.

Others speaking in the interests of calling the election were W. E. Pierce, O. P. Hendershot, I. L. Truax, S. M. Coffin, W. N. Sweet, George A. Anderson, W. N. Northrop, Ira T. High, O. W. Allen and R. K. Davis. They all gave briefly their reasons for wanting the election called, and believed it was a step in the progressive line which the county should take. All urged the commissioners to take favorable action.

Commissioner Coffin announced that he was in favor of improvements and by bonding and that he favored the calling of an election. Speaking for himself as a member of the board, he said he would vote for it. Commissioner Howell was not present at the session and Mr. Carlson refused to make a statement at this time, but intimated that he would favor the calling of the election.

CADET SYSTEM IN SCHOOL PROPOSED

Board of Education Consider Proposal Made by W. T. Booth.

The proposition of organizing a cadet system in the Boise high school, service in which would be compulsory for the older students, was discussed at some length at the meeting of the board of trustees last night and finally taken under advisement. W. T. Booth, who has been familiarizing himself with the cadet system in the high school at Cheyenne, which has acquired national reputation, felt that a similar system should be installed in the high school here. He cited the preparedness program in the United States and stated the belief that good military training received by young men was an aid in their physical development and would give them a knowledge which might be of great value to the nation.

Superintendent Rose differed with Mr. Booth concerning compulsory training, but stated he believed more attention should be paid to the physical development of the students, both boys and girls, and he urged action along that line.

March 31 was the date set by the board for the closing of school for the spring vacation of one week. The board also authorized Mr. Rose to use his own judgment in granting a half day holiday to the students during "dress-up, clean-up and paint-up" week, which was asked by the committee in charge. Mr. Rose informed the board upon a query, that school would close this year on June 9.

The school board granted the use of the Boise high school again for the Boise Summer Normal school and stated they would be pleased to have Mr. Rose officiate at its head as requested by the state board.

A request for the purchase of a piano for Park school resulted in the appointment of Mrs. Graveley and Miss Engstrom as a committee to make an investigation of the piano needs of the schools and to see what kind of a deal they could make in exchanging old pianos.

The report of the secretary showed that economy had been exercised this year in the schools and that to date this term the expenditures had been \$1300 less than last year, regardless of the fact that the board has had to expend \$7000 not down on the budget. The additional expenses were for such as fire escapes on Garfield school, \$1800; sewer connection and lateral in South Boise, \$300, and many extra sub-

DEFENDS REPORT OF COMMISSION

Committee of Farmers' Protective League Passes a Number of Resolutions.

The Farmers' Protective league, an association for the protection of the farmers on the Idaho irrigation company project, has forwarded through its president, Fred Gooding, its vice president, Ben Darrah, and its secretary-treasurer, Fred F. Gwin, a set of resolutions adopted by the resolutions committee of the league, indorsing the action of the last legislature in creating the irrigation and drainage code commission and its report on the conditions relative to the Idaho Irrigation company project, standing by the truthfulness of its findings.

"We hereby disapprove," says the resolutions, "the unwise criticisms published regarding this commission and its report, as being made by an ill-advised and misinformed critic or critics." The league condemns in another resolution the attempt made by representatives of the above-named company before the land board to lay the blame for the injury to crops and orchards of the project through the water shortage, to the settlers. It is asserted the loss was due to the shortness of water delivered or the mismanagement of water on hand with the company. The league states it has come to its knowledge there is a movement afoot to create a desire for the Carey act principal of purchasing and contracting for a proportionate amount of the waters available for the irrigation of any irrigation project and this policy is branded as "an inestimable detriment to all irrigation projects and would spell ultimate financial ruin to the majority of the settlers thereon."

Other resolutions passed recommended to the legislature that the legislation now existing affecting the Idaho Irrigation company project fixing the duty of water at five-eighths of an inch per acre continuous flow be not changed; branding as false the reports taken to the state land board that the settlers on the project are not indorsing the activities of the league; condemning and resenting the alleged reported threat made by the company that if settlers joined the league the company would foreclose their contracts and make them trouble and expense; indorsing the action of the land board ordering the sale of land in the project stopped until the state engineer can complete a survey of the project; demanding that a survey and check be made of the canals, head-gates, etc., on the project and that the true condition of them may be accurately ascertained.

stitutes this year because of sickness. The board instructed the secretary to give notice that in the future all bills to be allowed for the month had to be in the hands of the secretary not later than the fifth of each month.

Superintendent Rose gave a report on the operations of the schools of Gary, Ind., and the system used there, but stated he did not think such a system would be practical here.

NELLIE MINE WILL TO BE PUT IN OPERATION

(Staff Correspondence.) Horseshoe Bend, March 14.—The 10-stamp mill installed at the Nellie mine here the past winter will be put in operation in earnest this week. There is a large amount of ore on the dump and this will be run through the mill first. It is free milling ore. A crew of 25 men will be kept busy in the mill and in the mine. M. E. Hopkins is the well-known manager of the Nellie mine. There is more mining activity in the Horseshoe Bend district than at any time during the past 20 years.

Bowling Results

The Pirates made it three straight with the Red Sox in the City league bowling match played off at the Recreation alleys last night, piling up 2819 pins to 2551 for their opponents.

The Smoke of Men Who Win

A fresh-rolled "Bull" Durham cigarette almost says "Speed up!" right out loud. Keen-eyed, clear-headed young fellows smoke "Bull" Durham because it has the sparkle and the "punch"—the youthful vim and vigor. Every time you "roll your own" with "Bull" Durham you open the door to Hustle.

GENUINE

"BULL" DURHAM SMOKING TOBACCO

"Bull" Durham is unique among the world's tobaccos. It is distinguished from all others by its wonderful mildness, its delicious mellow-sweet flavor and its distinctive aroma.

That's because it's made of the very choicest of rich, ripe Virginia-North Carolina "bright" leaf—the smoothest and mellowest tobacco in the world.

You get a lively smoke and a satisfying smoke when you "roll your own" with "Bull Durham."

FREE An Illustrated Booklet, showing correct way to "Roll Your Own" Cigarettes, and a package of cigarette papers, will both be mailed, free, to any address in U. S. on request. Address "Bull" Durham, Durham, N. C.

THE AMERICAN TOBACCO CO.

Scott racked the highest score in any one game recorded this season, bowling 279 in the third game. For the three games he bowled 741 pins for the Pirates which is about as good an individual record as has been recorded in Boise for some time. The scores:

Players—	1	2	3
Miles	166	255	208
Streeter	170	161	162
Meholin	130	136	176
Scott	234	228	279
Titus	155	159	175
Totals	856	969	924
Team average, 940.			

Players—	1	2	3
Wilcox	169	198	167
Whyman	165	155	150
O'Donnell	179	143	178
Randall	150	136	182
Grabham	132	182	215
Totals	815	814	922
Team average, 850.			

Sign of Good Digestion.

When you see a cheerful and happy old lady you may know that she has good digestion. If your digestion is impaired or if you do not relish your meals take a dose of Chamberlain's Tablets. They strengthen the stomach, improve the digestion and cause a gentle movement of the bowels. Obtainable everywhere.

PAYETTE GIRLS WIN IN BASKETBALL GAME

(Capital News Special Service.) Payette, March 14.—The Payette high girls' basketball team won from the College of Idaho girls' Friday evening, score 42 to 11. The game was staged at the Y. M. C. A. in Payette with Joe Bohrer refereeing. Slow playing because of the fact that the teams were so unevenly matched prevailed throughout the game with Payette high school having the advantage. The lineup follows: College of Idaho—Ruth Unterkofer and Frances Rice, forwards; Martha Rice and Ethel Long, centers; Fern Unterkofer and Freda Erick, guards. Payette—Mildred Stark and Hazel Ensign, forwards; Hazel Ruse and Mamie Reimers, centers; Jennie Roney and Lola Stark, guards.

In the second half, Lola Stark of Payette threw her thumb out of joint and Alda Hurd finished the game. Fern Unterkofer of Caldwell struck her head against the wall. As Caldwell had no subs, the second centers were taken out for the rest of the contest.

The Payette girls now have a record of six victories and no defeats and have reason to feel proud.

Following the girls' game, Fruitland high played the Payette high school second team. Payette ran away with the Fruitland aggregation. Score, 53 to 12.

HIAWATHA lamp, \$7.50; stove, \$7; nut, \$6.50. Western S. G. Co. 9 & Grove.

IF TOO FAT GET MORE FRESH AIR

BE MODERATE IN YOUR DIET AND REDUCE YOUR WEIGHT. TAKE OIL OF KOREIN.

Lack of fresh air it is said weakens the oxygen carrying power of the blood, the liver becomes sluggish, fat accumulates and the action of many of the vital organs are hindered thereby. The heart action becomes weak, work is an effort and the beauty of the figure is destroyed.

Fat put on by indoor life is unhealthy and if nature is not assisted in throwing it off a serious case of obesity may result.

When you feel that you are getting too stout, take the matter in hand at once. Don't wait until your figure has become a oke and your health ruined through carrying around a burden of unsightly and unhealthy fat.

Spend as much time as you possibly can in the open air; breathe deeply, and get from Charles L. Joy & Co., or any druggist, a box of oil of korein capsules; take one after each meal and one before retiring at night.

Weigh yourself every few days and keep up the treatment until you are down to normal. Oil of korein is absolutely harmless, is pleasant to take, helps the digestion and even a few days' treatment has been reported to show a noticeable reduction in weight.
