OLD SONGS.

THE AEROPLANE SQUAD.

The employment of a United States aeroplane squad in the pursuit of Villa should give that branch of the army an opportunity to demonstrate its worth.

Those who favor an enlarged army aviation service disregard the possible utility of the aeroplane for dropping bombs on enemy troops, but lay emphasis on its value in locating the position of the enemy and making gun fire effective.

In the Mexican difficulty there will, of course, be no need of such planes. But the scout aeroplanes may be of great assistance in spying out Villa's followers.

DECLINE OF THE MARK.

Exchange on Germany last week touched the lowest level since the beginning of the war. The rate in American currency for four German marks fell to 75%, a depreciation from par of about 23 per cent.

When German exchange declined to an extraordinarily low level last year British and French newspapers took the depreciation as an evidence of Germany's approaching financial collapse and of victory for the allies.

Financial stability depends in great measure upon ample gold reserves, and Germany has always maintained that the amount of gold in the Reichsbank was more than sufficient.

of gold payments would, of course, cause the value of the mark to depreciate, as would a large increase in paper currency.

Marrying for Money

Ortrude sat reading to her husband. She had spent hours in the sick room since the day she stole in to ask for forgiveness for her cold selfishness, and she seemed very anxious to help in the care of the sick man.

ment, then raising her eyes she said quietly. "It will make you less anxious. I will sign it. Can you tell me where to find it?"

"Thank you; it will put my mind at rest." Ortrude looked gratefully at the young man and left the room.

TALKS ON THRIFT

Savings Bank Centennial Series.

Whiskey's Decreasing Tax on Thrift. Whatever may be the consensus of opinion as to the necessity for and desirability of alcoholic liquors as beverages, no thinking man will deny that drinking is an expensive habit, costly both to the individual and to the state.

Of late years the production and consumption of liquors and beer has increased enormously, and from observation one would conclude that everybody drinks a little and most people too much.

that would give him a start!"

"Heaven, ma'am," he said.

Mrs. Wheat, the new teacher, was hearing the history lesson which dealt with the career of George Washington. Turning to one of the scholars, she asked: "James, what was Washington's Farewell Address?"
