Mrs. Green gave a paper on "The Arts and Crafts of Old Spain." Miss Cahoon read selections from Washington Irving's "The Alhambra," and Miss Irvin told of some rare old Spanish art treasures she saw on her recent trip east. She also spoke of the modern art and its tendencies. A half hour around the tea table with Miss Cahoon and her mother was thoroughly enjoyed.

Annual Musical Festival.

The members of the Columbian club were given a rare treat Saturday afternoon when the annual musical festival was given under the direction of the music department of the club. The following program of high class music was beautifully rendered.

Willis Martin presented a most interesting character sketch of Robert Louis Stevenson and the McClaffin boys—Ralph and Donald—gave a number of selections on the violin accompanied by Miss Laverne Young.

Women's Catholic League.

At the last meeting of the Women's Catholic league held in Columbian club rooms March 8, Mrs. Colburn read an excellent paper on Frederic Ozanam, one of the founders of the Society of St. Vincent de Paul. Current events by Mrs. Illingsworth and Mrs. Peyton and the splendid work of the civic committee together with two vocal numbers by Mrs. John Parker, accompanied by Mrs. R. S. Adams, completed the program.

Golden Rod Club.

The Golden Rod club met at Mrs. Grace's Thursday. After the business session Mrs. Lundstrum was in charge of the St. Patrick's day program which was largely of a humorous nature. The serious side was in the description of some of the towns of Ireland and an account of the history of St. Patrick's day. A daintily prepared spring luncheon was received. St. Patrick's day decorations were in evidence. The next meeting will be on April 6 with Mrs. Morehouse.

Idaho State Audubon Society.

The first meeting of the Idaho State Audubon society held since its organization, was attended by a large portion of the membership and a list of twelve new members was added. The society met Thursday afternoon in the assembly room of Carnegie library with Mrs. Alfred Bayhouse, the president, in the chair. The reading and discussion of the following papers was enjoyed:

Habitat—haunts, etc. Movement on land and in air.

Songs, calls, etc. Food and how obtained, etc.

Migration.

Personal observation, etc. All who are interested in nature study and bird life are welcome at these meetings, which will be held regularly every two weeks on Thursday at 3 o'clock. The next meeting will be Thursday afternoon, March 30.

The second outing of the society will be this afternoon (Sunday) at 2 o'clock at Pierce park.

Among the interesting facts gleaned from the Idaho Audubon society is that there are 237 different kinds of birds in and around Boise. That some of the birds seen and heard are migratory and are in this section but a few days. That the robin will return for a dozen years to the same old nesting place. That the mountain bluebird, although seldom seen in Boise nowadays, is still found in this vicinity. A member of the Audubon club recently formed, has had the pleasure of entertaining a large flock of grosbeaks for nearly two weeks in the locust trees about her door. Each spring, about the last of February, a large number of these birds come to this member's garden and day after day are seen in the tall locust trees (of which there are several) feeding on the locust seeds. The pods are full at this time and the birds seem to have a literal time of feasting. When thirsty, they dip into the old Grove street ditch and as the water is low at this season, not only drink, but often take a bath. Other birds frequent the same place also.

A tremendous hammering as of a small boy with a tack-hammer making music on the side of a house arrested the attention of this member a few afternoons ago, who, quietly investi-

gating, found the downy woodpecker which had lived in the forest and garden trees in the vicinity all winter, hammering away with all his strength at a post in the garden fence. Seeing he was observed, he did not fly (he seldom does) but merely swung around to the other side of the post where he could not be seen. The two red birds which came to this place a few days before Easter last year, are hoped for again. They were a joy while they were here and their return will be hailed with delight.

PRESS DEPARTMENT of the

Idaho Congress of Mothers and Parent-Teachers Ass'ns

Edited by State Press Chairman.

Park Community Center.

At the community center held at Park school on Friday evening under the auspices of Park Parent-Teachers' association, a packed house greeted Governor Alexander, applauding his attitude toward the organization. He illustrated the indifference of the Boise public toward the schools and mothers' circles, by citing his difficulty in finding his way and the dense ignorance of those of whom he made inquiries. One business man had never heard of Park school, but thought it was somewhere among the foothills.

The speaker cited the public schools as the bulwark of our liberties, that guaranteed to all equality of privilege and opportunity and said it behooved us as a people to pay more attention to and get better acquainted with an institution which was molding our children into an efficient citizenship for perpetuating our liberties and rights guaranteed by the Declaration of Independence.

The parent who had one or more children in the public school—he said—and was not enough interested in that teacher and school where his child attended to become a member of the Parent-Teachers' association concerned with the welfare of that child, was not only a poor specimen of parent but also a poor type of citizen and patriot and he advised the association to stay on the job until they had brought into the fold every mother and every father in the city of Boise; urged them to go out into the highways and byways and drag them in, and be not discouraged nor deterred by ridicule and criticism.

In referring to the entertainment which the Mothers' congress is preparing to put on in order to raise funds for the state work, and which the circle discussed, he appealed to every father and mother in Boise, to get back of the association and boost it with their patronage, adding that every child whose father was unable or unwilling to furnish a ticket, should apply to the governor.

The address was an earnest plea for the recognition of the need and service to the community of the Mothers' congress for which Park members were exceedingly grateful.

Good music was furnished by the sixth and seventh grade pupils under the direction of Miss Buchanan, music instructor from the high school with two old melodies sung by the audience.

A number that gave great delight consisted of three classic selections played on stringed instruments by the four sisters, Revs. Mary, Laura and Ruth Coffin, the youngest but 11 years of age, handling her instrument with ease and skill, and all of them showing marked ability.

Announcement was made that Park circle would at once undertake garden work on a small scale for a few children desirous of putting in their spare time on the cultivation of a vacant lot in Park neighborhood.

Longfellow Circle.

Longfellow Parent-Teachers' association met Thursday afternoon with Mrs. Pointer, Mrs. D. E. Eastman presiding. An interesting debate on national preparedness between Mrs. Adelle Moore and Mrs. Jennie Nichols, was followed by lively discussion in which most of the ladies participated. A rising vote taken at the close showed most of the members in favor of preparedness.

The social entertainment provided was in honor of Mrs. Gray of Montana who is visiting her sister, Mrs. Gray, secretary of Longfellow circle. Mrs. Pointer proved herself a charming hostess while dispensing delicious refreshments of sandwiches, salads, cake and coffee to some 20 guests.

Collister Circle.

Collister Parent-Teachers' association met Friday afternoon at the school with some 20 members and teachers. The president, Mrs. Roberts, presided for the first time since her return from a visit to a sick sister in Oregon. A brief business session was held at which 12 new members—all fathers, were reported. The association voted to give at the close of the year, a prize to the child in each grade that shows the greatest improvement in penmanship.

After the business, Mrs. Coral Judson gave a vocal solo. Miss Pitts of the Y. W. C. A., a talk. Short talks on the "Help Gained From the Movable School," from Messdames Little, Starn, Neal, Yaryan and Cotton.

A community meeting was announced for next Friday evening at the school, when the preliminary contest will take place to determine the winner for the state declamatory contest.

Star Circle.

The Star Parent-Teachers' association is still very much alive, judging from the report received which was delayed in transit. At a meeting on March 11 at the school, over 75 mothers, teachers and pupils answered to roll call by some helpful hint learned at the Farmers' institute. The program arranged by the high school proved most entertaining.

The high school glee club rendered two selections under direction of the Messdames Augur, Roberts and Baker.

CHANGE IN POLICY BY WESTERN UNION

C. K. Hackett, local manager of the Western Union Telegraph company, made the following announcement today: "During the past few years the Western Union Telegraph company has been in the van of public service corporations in putting out new services to meet modern business and social demands. The company now announces another innovation for the benefit of its patrons. The Western Union company annually transfers by telegraph an enormous amount of money and heretofore the senders of money have not been permitted to include in the transfers any communication of a business or personal character to the payee, such information being required to be sent by separate message. Under the new arrangements, however, transfers between points in the United States may include such information and the same will be delivered to the payee at the time the transfer is paid."

Of Course.

(From Judge.) "He who gives quickly gives twice." "Yes, mainly because he's always called on to give again later."
