

LINCOLN COUNTY TIMES
Published every Thursday at Jerome, Idaho, by A. C. Alexander, Editor and Publisher
SUBSCRIPTION, \$2.00 PER YEAR.
Entered as second-class matter March 9, 1911, at the post office at Jerome, Idaho, under the act of March 3, 1879.

B. U. Bickford left Jerome Thursday by auto for an extended trip to Oregon.

Mr. and Mrs. Kenneth Annett were over-Sunday visitors with relatives at Buhl.

"Farmer Bill" Parkhurst, publisher of the Richfield Recorder, was transacting business in Jerome Monday.

Buy your window glass at the North Side Pharmacy. We handle a complete stock.

Mr. and Mrs. E. R. Robinson are enjoying a visit from the latter's father, Mr. T. C. Randolph, of Marysville, Kansas.

See our line of beds, springs and mattresses. We will save you money. Frasers-Pence Co.

Mr. and Mrs. J. Nelson Shepherd are enjoying a visit from the former's cousin, Miss Jessie Carson, of Portland, Oregon.

Mr. and Mrs. M. C. Brookman, who have been spending the summer in Jerome, left for their home in Minneapolis Wednesday.

E. A. Dummitt is assisting Mr. Ellis in the Independent Market during the absence of Mr. Kitt, who is confined in a Twin Falls hospital.

Don't buy until you have seen our complete line of Monarch Ranges; also Charter Oak and Perfection heaters. L'Herisson Furniture Co.

H. F. Samuels, Non-partisan candidate for governor, is scheduled to address the people of Jerome and vicinity at noon on Saturday, October 19th.

W. M. Massey, who recently underwent an operation for tonsillitis, was compelled to go to the hospital at Twin Falls for treatment the first of the week.

R. S. Frazer, who has not been in his usual "pep" for the past ten days, left Wednesday for Lava Hot Springs to receive the benefit of the hot baths for a few days.

All kinds of harness repairing done in a workman like manner by James Summers, the pioneer harness man.

Mr. F. A. King, of the Pastime Pool hall, has leased the room formerly occupied by the Jerome Mercantile company and is having the same fitted for his use as a pool hall.

H. D. Wilson, who has been employed at the Puritan Stores, quietly took his departure for parts unknown last Saturday, leaving behind him an accumulation of debts which several of our different merchants are interested in. Efforts are being made to locate Wilson and have him returned to Jerome.

Messrs. Kitt and Ellis, of the Independent Market, have leased the building now occupied by the Clifford Furniture company, and will remove their market to the new location as soon as Mr. Clifford closes out the remainder of his furniture.

Don't buy until you have seen our complete line of Monarch Ranges; also Charter Oak and Perfection heaters. L'Herisson Furniture Co.

Friends of Mrs. J. G. Lawrence were surprised to learn that this lady was taken to a hospital at Twin Falls last Sunday where she underwent an operation for appendicitis. At the time of the operation other complications were discovered, which necessitated quite a serious operation. Late reports from Mrs. Lawrence are that she is rapidly improving.

Mrs. R. Lincoln Pence and children, accompanied by Carrie Shawver, left the first of the week for California, driving through in their car. Mr. Pence will follow as soon as he has shipped his honey. He will accompany his car of bees to California, it being his practice to winter the bees each year in that state, where a crop of honey is gathered during the winter months.

Coal bills are a large part of your living expense—reduce them by using Cole's Hot Blast Heaters.

Dr. Arthur Vance spent last week in Salt Lake City, being called there to give expert testimony relative to the soundness of a stallion which a company of farmers had purchased from a horse firm, and which the farmers refused to pay for on the grounds that the horse was not sound or as represented. Dr. Vance urges all farmers, before making the purchase of high-priced animals to be advised as to the health and condition of the animal.

A complete line of Monarch Ranges and Charter Oak and Perfection heaters just received. Call and see this line. L'Herisson Furniture Co.

Messrs. Wilson brothers report the sale of their home places southeast of Jerome, to Twin Falls parties. The price was \$200.00 per acre, which is not considered extreme, as the 160 acres is all in crop, fenced, and with two sets of farm buildings.

The Wilson boys were among the first on the Tract and have, by hard efforts, brought their places to a high state of cultivation. They still own 160 acres in the Barrymore section, which we trust they will see fit to farm and remain among us.

Boyd Frazer and Hugh Sinclair the two young men in the call of October 15th, to report for training at the University at Moscow and left Tuesday for that place. A six weeks' course is taken at the institution, after which they are assigned for duty. Although a committee was appointed and funds raised for the entertaining of Jerome's young men who are called, in some manner the departure of these young men was not observed by this committee, but we trust they will not delay in communicating with them and forward to them a token of remembrance from the folks at home to assure them we recognize the fact that they are going in defense of a cause vital to us all.

A complete line of Monarch Ranges and Charter Oak and Perfection heaters just received. Call and see this line. L'Herisson Furniture Co.

BUYS BUSINESS BLOCK
During the business trip to Jerome last of James Riddell, of Deeth, Nevada, he disposed of his business block known as the Pastime Pool Hall building, to F. L. Thomas. The purchase includes the entire building, which is 25x125 feet, and also the lot adjoining on the west.

This build is a one-story brick, built in a substantial manner, and will give Mr. Thomas a well-lighted and well-ventilated room for the conduction of his general merchandising business.

DEATH OF EDWIN C. QUERREAU CONFIRMED BY AUTHORITIES

On last Tuesday Mrs. D. W. Querreau received from the Bureau of War Risk Insurance the following message:

"In response to special inquiry of the adjutant general's office the bureau is informed that the above named soldier died August 7th from wounds received in action."

The above message puts at rest all hopes that the young man might be alive, which hopes have been held out to the last by parents and friends of this young man, who has been the first from Jerome and Lincoln county to pay the supreme sacrifice.

DEATH OF ROSE WALLACE

At the home of her brother, W. J. Wallace, southwest of Wendell, occurred the death of Rose Ellen Wallace, death resulting from Spanish influenza. Miss Wallace was thirty-two years of age at the time of her death and had been sick but a few days.

The funeral was private owing to quarantine. Interment took place at Jerome cemetery, where a short

service was held. A brother and a sister from Washington are still confined to their home with the disease. One sister from Rupert was in attendance at the funeral.

W. J. Wallace and family are quite well known here, having made their home on the North Side Tract for some time.

FUNERAL OF CARL OTT

Last Friday the remains of Carl Ott, a Jerome boy who died at Camp Meade, Maryland, from pneumonia, following an attack of Spanish influenza was brought to this place for burial. A public military funeral had been arranged for the young man, but owing to quarantine regulations the funeral was of a necessity private. The remains were met at the depot by relatives and an escort of Spanish war veterans and accompanied the body to Jerome cemetery, where interment took place.

Carl Ott was a member of the Infantry and was stationed at Camp Meade, being in the service for some time. At the time of volunteering he gave Jerome as his place of residence and his brother, J. E. Ott of this place, as his next of kin.

Carl Ott was quite well known here, having assisted his brother in the restaurant business a few years ago.

RED CROSS NOTES

Save the pits! It is a question of saving the lives and health of our men overseas from German poison gas, and every patriotic citizen in the whole country should be eager to take part in this campaign. 200 peach stones will produce carbon enough to protect one soldier from German gas, and seven pounds of nutshells do the same. The following are the materials to be collected: Peach stones or seeds, apricot pits, prune pits, plum pits, olive pits, date seeds, cherry pits, Brazil nut shells, walnut shells, hickory nut shells, butternut shells. These need not be separated. They may be not be separated. They must be sound, but may be old. Care must be taken to exclude all materials not listed. The local Red Cross will very soon have receptacles at convenient points to receive these pits and shells; please begin to save at once.

The linen was shipped Tuesday—125 bath towels, 155 hand towels, 145 handkerchiefs, 15 napkins, 1 sheet. It was impossible for us to buy the correct width sheeting and home sheets were too short, so we did not fill that part of our quota.

The little girls' dresses and pinafores were also shipped. There were 87 pinafores and 75 dresses.

A new allotment has been given us, consisting of 30 convalescent robes, which will be sent to us in a few days, already cut.

You are asked to typewrite addresses on mail to enemy countries, thereby helping the Communication Service immensely, as one of their most perplexing difficulties has been the inability often times of deciphering names and addresses written by hand. This has resulted in the return of many letters by the International Red Cross at Geneva.

The Red Cross room will remain closed until the quarantine is lifted. The yarn has all been given out. We hope there will be another shipment before long.

NAVY REGULATIONS FOR SENDING XMAS PARCELS

The Navy Department has issued the following instructions regarding the shipping of Christmas packages to sailors in home waters and abroad:

(a) Parcels forwarded by parcels post for men in the Navy must comply with the postal regulations and should be enclosed in substantial boxes with hinged or screw top cover to facilitate opening and inspecting.

(b) All boxes shipped by express are limited to twenty pounds in weight; should measure not more

than two cubic feet in volume; be of wood, well strapped and have a hinged or screw top to facilitate opening and inspecting.

(c) All mail matter should be addressed as now prescribed by the postal regulations. All express packages should be forwarded in care of Supply Officer, Fleet Supply Base, 29th Street and Third Avenue, South Brooklyn, New York.

(d) No perishable food product other than those enclosed in cans or glass jars should be packed in parcels post or express shipments.

(e) All packages must be plainly marked with the name and address of the sender together with a notation indicating the nature of the contents, such as "Christmas box", or "Christmas present."

(f) The Supply Officer at New York will cause each express package to be opened and carefully examined to see that nothing of an explosive or other dangerous character is forwarded.

The shipments of Christmas packages for U. S. Naval vessels abroad should be made so as to reach New York as early as possible and not later than November 15th.

COMPLETE NURSING SURVEY IS TO BEGIN THIS MONTH

With more than 18,000 nurses withdrawn from the communities for war service, either here or abroad, and the necessity for withdrawing as many more during the next few months, has come the need for more complete information concerning the nursing resources of the country.

The Secretary of War and the Surgeon General of the Army have requested the Red Cross to take such steps as will be necessary to obtain this information, and plans are already under way for making a nationwide survey of the available supply of nurses in the United States. This survey has been planned primarily as a means of intelligently directing the withdrawal of nurses for the Army and Navy corps, but is also intended as a safeguard for the health of the civilian population. Only by equal distribution can the nursing resources of the country be conserved, and an efficient policy in supplying the nurses be pursued.

The survey will be made through the agency of the Red Cross chapters, under the direction of the Division managers and national headquarters. It will be a complete classification of the nursing resources of the United States, and will include graduate nurses, registered and unregistered, undergraduates, pupil nurses, nurses' aides, and that large class of women who are so-called semi-trained nurses. Under this last group come trained attendants, midwives, and practical nurses.

Frederick D. Munroe, of the Bureau of Survey, in the Department of Nursing, will direct the survey, with the co-operation of Jane A. Delano, director of the Department of Nursing of the Red Cross. The Red Cross must know the available supply of nurses, if they are to assign twenty-five thousand nurses to military hospitals by January 1, 1919, and a possible 40,000 by July 1 of next year.

The survey means, in brief, the conservation of our nursing forces by equal distribution. The duty of registering is an incumbent upon nurses as military duty is to men, and the need for them is as urgent.

Mrs. Piper has registration cards for those in this community who are qualified to register, and requests that anyone so qualified will see her as soon as possible.

THE GAS MASK DRIVE

(Apologies to Kipling)
"What makes you save your olive stones?" the Thoughtless Waster cried.

"The government has asked for them," the Patriot replied.
"I don't see what it wants of them," the Thoughtless Waster cried.
"It wants the carbon that they make," the Patriot replied.

"So we're gathering up the cherry pits, the peach stones and the shell
Of walnuts and Brazil nuts and of hickory nuts as well,
And the youngsters hunt for butter-nuts in every date and dell,
To furnish materials for carbon."

"What do they want the carbon for?" the Thoughtless Waster cried.
"To manufacture gas masks," the Patriot replied.
"And a carbon respirator in a gas mask over there
Will save our boys from gas attacks.
Come on and do your share!"

"We dare not waste one single stone—let's give them all they ask!
It takes 200 peach pits to equip a single mask.
And they've given you and me and everybody else the task.
Of furnishing materials for carbon."
—Robert Housum.

ONE YEAR COURSE FOR WEST POINT
Military Academy is to Be Utilized to Full Limit During War Period

The acting secretary of war has approved the recommendations of General March, chief of staff, to graduate the two upper classes at the United States Military academy on November 1, and to authorize a one-year course at West Point for the remainder of the war. It is proposed to utilize this valuable and expensive institution, the war department announces, to the limit during the period of the war. The number of cadets graduated each year from West Point is now only about 200.

Under the new system it will be possible to graduate 1,000 officers each year.

Vacancies resulting from the graduation of the two upper classes will be filled by the war department, if possible, by the admission on November 1, 1918, of qualified candidates. Appointments will be made in the usual way—through senators and representatives in congress and other customary channels. The war department desires that candidates to be admitted on November 1 shall not be under eighteen years of age on that date.
