That the "Y" ships to France 15 miles of motion picture films every week? That the Testaments provided for our boys would make a pile 17 1/2 miles high?

That 100 of the best actors and actresses, including such stars as Elsie Janis and E. H. Sothern, travel the "Y" circuit in France, giving performances in the Huts? That the "Y" has built 538 Huts in this country and over 2,000 overseas, including huts in England and France, and for our allies—the French and Italian armies?

That the "Y" is sending men and women to France at the rate of 1,000 a month to be big brothers and sisters to our boys? That the "Y" has 184 registrants for student nurses with their papers all sent in to Washington, D. C. Some have received their appointments; others are anxiously waiting.
