NEWELL PATTERSON (Contributed)

The home of Frank Patterson and family, residing near Jerome, was suddenly stricken with the great loss of their beloved son, Newell.
Newell Henry Patterson was born December 14, 1902, in Asotin county, Washington, making him at the time of his death sixteen years and twenty-nine days of age. Besides his parents he leaves three sisters and two brothers, Mrs. William Clarno, Mrs. Charles O'Brien, Olive Patterson, Orville and Otto Patterson, all residing near Jerome, except the eldest sister, who lives in St. John, Washington.

Mr. and Mrs. Patterson came to Jerome from Asotin county in 1915, moving to this place with a bright future of building up a home, which Newell took great pride in helping his father on the farm. Newell was a bright and intelligent boy and made many friends, all of whom are mourning his death. He will not be forgotten by the many acquaintances he made during his short stay in our vicinity.

Friends of Mr. and Mrs. Patterson ask them to please accept their greatest sympathy during the loss of their beloved son.

JEROME NEEDS HOMES

Since the termination of the war and the signing of the armistice it has come to our notice that in a number of our neighboring towns, as well as other parts of the state, that improvement companies are being organized composed of residents of the various towns, whose object is the building of homes for sale and for rent, and the loaning of the money to those who wish to build for themselves.

That Jerome is very much in need of such an improvement company is very evident, for no where do we know of a more progressive town and one that is forging to the front as one of the foremost towns, as is Jerome. Homes are what are needed in Jerome, either to sell or to rent, as new comers arriving here find it impossible to bring their families because of the lack of available houses. Some are here to remain and, being limited with funds, are unable to build, but with a little assistance Jerome would witness a great building boom this coming year.

To our own knowledge there are a number of families living at the hotels and private rooming houses who are seeking homes to buy or rent, but are unable to do so, a fact which, when it becomes known outside, would cause newcomers to hesitate before casting their lot with us.

In Jerome there are men with the means to form such an improvement company and who are interested in the growth of Jerome so where, may we ask, could money be better invested, all things considered.

CARD OF THANKS

To the many friends and neighbors who so kindly assisted us during the illness and death of our beloved Newell, we sincerely extend our heartfelt thanks.
Mr. and Mrs. F. Patterson and family.

IDAHO BOYS ON WAY WEST

The war department at Washington advises that Idaho and Utah members of the 145th field artillery, who recently landed at New York left by special trains early last week for Logan, Utah, where they will be mustered out.

The first regiment of troops of the 91st division in which here are Idaho men, was scheduled to land in New York last Wednesday. Word came here that the Idaho troops belonging to the 91st division will be sent to Camp Lewis, Wash., for demobilization. The majority of the division is slated to leave France the end of this month and the first of the next.

CASUALTY LISTS ARE COMPLETE AT LAST

Complete lists of all American casualties during the war are now in the possession of the adjutant general's office.

Except, perhaps for a comparatively few scattering casualties which might not have been reported, the secretary said that the names of all American soldiers killed or wounded from the time of America's entry into the war until the suspension of hostilities were now on record in Washington. The only question now was that involving their compilation and every effort is being made to expedite their publication, he added.

ROOSEVELT MEMORIAL ON FEBRUARY NINTH

Preparations for nation wide memorial services in honor of the late Theodore Roosevelt, to be held simultaneously throughout the country on February 9 next, were directed to be made by all state, county, community and municipal councils of defense in a telegram sent out by Governor B. Clarkson, director of the council of national defense. This is also the date of the proposed memorial services in congress.
Of no American can it be more truthfully said, that his heart was incarnated with the flag. All Americans who have lived in his time should hold themselves in his debt, and should turn aside on the ninth day of February to honor his passing from the national stage.

SAYS POISON GASSES USED IS RESPONSIBLE FOR FLU

Dr. Croft of Chicago recently in an address before the Chicago Medical society stated that the present epidemic of influenza was, in his opinion, caused by an "irritated atmosphere." Poison gas used on the battlefields of Europe are supposed to have started all this trouble.

His theory is that the disease is caused by inhaling small amounts of depressing, highly irritated, high density gas, especially at night, when the air is charged with moisture.
He says further in support of his contention, that its spread is far too rapid to be caused to be caused by bodily contact and too erratic for germ transmission.

WAR WORKERS CLING TO NATION'S CAPITOL

The speed shown by war workers, whose Washington jobs have expired, in attaching themselves to other positions in the government's service, gives evidence that the capitol holds an appeal to the patriots, who have been working here for \$1200 and \$1400 a year, as compared to half those salaries at home. Breakfasts are still a dollar and a half, and rooms cost \$5 a night, at the boston hotels of Washington, but there are lots of ways in which the young men and women who are working in Washington can live at considerable less than their salaries, and have considerable left over for their amusements.

INDIANS WANT HOLIDAY

September's fourth Saturday, in the time of the "hunting moon," will be added to the state's list of holidays if the legislature grants the request made by Chief Red Fox Skinkusha in a memorial addressed to Governor Davis.
Chief Red Fox pleads for designation of an Indian day on the ground of the "contribution made by origi-

al Americans to the great composite of white citizenship," insisting that both the history and the future of the red men deserve consideration.
"We have given to the colors in the present war 9000 braves," says the chief's petition in citation of recent achievements; "we have bought \$50,000,000 in Liberty Bonds and donated \$2,000,000 to the Red Cross mother of humanity. The American Indian's soul has been in the world war. We know not the hyphen; we know not the pro-this and pro-that; we are 100 per cent Americans.

The house will be given first opportunity to consider the merits of Chief Red Fox's case.
