

A NERVOUS BREAKDOWN

Miss Kelly Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Newark, N. J.—"For about three years I suffered from nervous breakdown and got so weak I could hardly stand, and had headaches every day. I tried everything I could think of and was under a physician's care for two years. A girl friend had used Lydia E. Pinkham's Vegetable Compound and she told me about it. From the first day I took it I began to feel better and now I am well and able to do most any kind of work. I have been recommending the Compound ever since and give you my permission to publish this letter."—Miss FLO KELLY, 476 So. 14th St., Newark, N. J.

The reason this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, was so successful in Miss Kelly's case was because it went to the root of her trouble, restored her to a normal healthy condition and as a result her nervousness disappeared.

"Tell me about mustard gas. What sort of stuff is it?" "Well, it's not exactly a relish."

GRANDMA USED SAGE TEA TO DARKEN HAIR

She mixed Sulphur with it to Restore Color, Gloss, Youthfulness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.—Adv.

"Blue" and Worried?

"Blue," worried, half-sick people should find out the cause of their troubles. Often it is merely faulty kidney action, which allows the blood to get loaded up with poisons that irritate the nerves. Backache, headaches, dizziness and annoying bladder troubles are added proofs that the kidneys need help. Use Doan's Kidney Pills. Thousands thank them for relief from just such troubles.

An Idaho Case

Mrs. J. W. Webster, 619 Eighth St., Lewiston, Idaho, says: "I had trouble from my kidneys, of a dropical nature. Mornings my hands were swollen so badly I could hardly close them, and my feet were swollen too. The flesh under my eyes was puffed up and I had other annoying symptoms of kidney complaint. I used Doan's Kidney Pills and they fixed me up in good shape."

GOOD OFFICES OF THE UNITED STATES AT PEACE CONFERENCE BEING SOUGHT.

Revolution in Hermit Kingdom Liable to Break Forth at Once if Right of Self-Determination is not Granted to Koreans.

Washington.—According to facts disclosed by private advices received here, fifteen million Koreans are prepared to undertake a revolution against their Japanese rulers, if the right of self-determination and a satisfactory mandatory under the league of nations are not granted Korea by the peace conference at Paris.

The people of Korea, who have been under the sway of the Japanese people since the Russo-Japanese war, have been organized from one end of the country to the other and believe that they have the strength to bring an upheaval as unanimous as that of the Russians, and one which will force the world to recognize their right to independence.

In a statement placed before the United States government through the state department and made public Sunday the Korean national association, through Singman Rhee of Washington and Harry Chung of New York, has asked the United States to prevent oppression of the Koreans by the Japanese.

In a communication tabled to the peace conference, the American leaders in the Korean association state that their countrymen seek the right of self-determination and that they cannot go to Paris and enter their plea in person because they are under the power of Japan, and cannot leave the United States without passports, which will not be issued unless visited by Japanese officials here. They state that the Japanese have refused to aid them.

The president is quoted as having stated that the plenary council has positively decided that the league of nations is to be part of the peace treaty.

SMOKING TOBACCO FACTS FROM THE ENCYCLOPAEDIA

The Use of Flavorings Determines Difference in Brands

The Encyclopaedia Britannica says about the manufacture of smoking tobacco: "...on the Continent and in America, certain 'sauces' are employed...the use of the 'sauces' is to improve the flavor and burning qualities of the leaves." Which indicates that a smoker's enjoyment depends as much upon the flavoring used as upon the tobacco. Your nose is a sure guide in the matter of flavorings. Try this simple test with several tobacco brands: pour some tobacco into your palm, rub briskly, and smell. You will notice a distinct difference in the fragrance of every brand. The tobacco that smells best to you will smoke best in your pipe, you can rest assured.

Carefully aged, old Burley tobacco, plus a dash of pure chocolate, gives TUXEDO Tobacco a pure fragrance your nose can quickly distinguish from any other tobacco. Try it and see.

WHY NOT TRY IT?

Any farmer who raises grades would realize larger profits if the raised grades were sold to the public. They don't require any more room, nor any more feed, nor any better care than the grades they raise. But they sell for more money. A Kansas farmer produced 94 head from one registered Shorthorn cow in 12 years. Two brothers in Wisconsin produced 119 head from one in 14 years. The value counts up when you're breeding purebreds. HUNS TO EXCHANGE FLEET FOR FOOD

GERMAN DELEGATES CURTLY AGREE TO ACCEPT TERMS REQUIRED BY ALLIES.

Board of Control for German Exports Will be Established.—Germans Will be Permitted to Buy Fish From Norway.

Brussels.—The German delegates to the conference here regarding the taking over by the allies of the German mercantile fleet and the provisioning of Germany, definitely accepted on March 15, the conditions imposed by the allies.

A board of control for German exports will be established, under the terms of the agreement. This board probably will have its headquarters at Rotterdam.

The Germans will be permitted to buy fish from Norway and resume their own fishing in the North sea.

The German representatives asked for a modification of the blockade, and while no promises were given them in this connection, steps in that direction, as a matter of fact, have already been taken.

Vice Admiral Sir Ranslyn Wemyss of Great Britain, chairman of the allied delegation, read a statement prepared for him by the civilian members, calling on the Germans to say categorically whether they abided by the terms of the armistice. Under Secretary of State Von Braam replied curtly, "Yes."

Admiral Wemyss then read one page of typewritten memoranda, giving in crisp sentences the terms of the allies for granting food to Germany—the German merchant fleet to be handed over at once, financial provisions to be made at once, food to be delivered immediately and to be continued until the next harvest, or as long as Germany abided by the terms of the agreement.

As the statement was read it was translated into German and French, the German replies received the same treatment. The air of impersonality was preserved throughout. It was there settled that the details of the ration of 370,000 tons of food monthly, with the shipping and financial plans, should be elaborated in subcommittee, and the first plenary session adjourned, having lasted only a few minutes.
