SOCIETY

The dancing party given Thursday evening by the Civic club in Amusement hall proved to be most enjoyable throughout. Threshing is now being done in Arcadia. Milo Pratt's wheat averaged forty-three bushels.

Some of the third cutting of alfalfa in Arcadia is going to make a crop, notwithstanding it has had no water whatever.

Lake Arcadia is sure a life saver to the feathery tribe. They swarm there by hundreds. About daylight a steady procession of pheasants can be seen coming to water. Coyotes also are frequent callers. It will soon be dry, however, unless replenished in the near future.

So far as roads are concerned we are in "No Man's Land." We are now the neglected protégé of both Gooding and Jerome counties.

Did any one mention drought and diminished crops. 1919 is the banner year for the baby crop in Arcadia. More exciting than "flu" or appendicitis, and far more popular. Keep up the good work and the removals to town will soon be counterbalanced.

The household goods of Mr. Riddell who purchased the Porter ranch, came overland from Nevada and the family will soon be settled in their new home.

APPLETON

Mrs. Gordon has a little lamb; Its fleece is white as snow, And every where it shouldn't be That lamb is sure to go.

It went to the cellar recently And found an open door; Then discovered a pail of milk, Which was setting on the floor.

It knocked the cover from the pail And drank every drop; Then decided at this nice place Discovery should not stop.

It nosed around until it found Pears, grapes and tomatoes fine, And from the bountiful store of this It did partake and dine.

The honey-suckle has tried so hard Upon the house to climb; Three times that lamb has eaten it; On what else will it dine?
