

**SAM ROBERTS, SR., OF AFTON DIES AT AGE OF 88**

The death of Sam Roberts, Sr. (Grandpa) occurred at the home of his son Sam, yesterday evening at five o'clock, death resulting from old age. The end came peacefully and without awakening he passed from the repose of sleep to the repose of death.

Mr. Roberts had lived in Star Valley for upwards of 23 years and before coming to Star Valley lived in Salt Lake City, having been employed as a printer on the Deseret News for more than 35 years. He began work there when the paper first started and remained faithful on duty for 35 years.

Mr. Roberts was quite well known in Thayne and the lower valley where he served the people as postmaster for several years. At the time of his death he was 88 years of age, and had been blind for the past 18 years.

He was born in England and came to this country when but a small child. It was at the home of his parents that the first L. D. S. missionaries found shelter and food. He leaves five children to mourn his loss, they being: Thomas, Arthur and Sam of this city, and Eliza Erskine of Salt Lake City, and William Roberts of Frontier, Wyoming.

Funeral services will be held Sunday, after which interment will take place in the city cemetery.—Afton Independent.

**RE-ORGANIZATION OF NON-PARTISAN LEAGUE**

Boise, Feb. 24.—A reorganization of the Nonpartisan league in Idaho is imminent. It is expected it will be staged with a flourish of propaganda and promises before the legislature adjourns in order to properly impress those members who are affiliated with the league or with the democratic party as well as any republicans who may have indicated the virus of Bolshevism in their veins.

This is not a voluntary realignment, as understood, so far as the present leaders of the Nonpartisan league are concerned, for under the plans as agreed on at a recent meeting of prominent league leaders of the more conservative stamp and of active democratic politicians those leaders are to be kicked out, notably Messrs. McKaig and Scholtz.

The prime factors in this movement have concluded that Townleyism and its association of Socialism and I. W. W. ism will not go in Idaho. It is planned, therefore, to remove the new organization from all Townley and other North Dakota influence and stigma.

The newspaper at Nampa is to be taken over if the new order shall be put into effect, together with all the machinery of the Nonpartisan league that may be considered usable.

In this new movement certain democrats are taking a leading part. Some of the more notoriously active in their attacks on the Nonpartisan league in the last campaign, which imparts added significance to the situation.

The Townley leaders of the league in Idaho, such as McKaig and Scholtz are understood to be advised and to be laying plans for a brisk resistance. In this they will be joined by others who have been passing the hat among the farmers and by the Socialist and other radical elements in the league.

As the Nonpartisan league leaders in Idaho stole the democratic party, so far as mountains were concerned, in the 1918 primary, it is whispered that the democrats in the new movement have their appetite whetted to a keen edge by the prospect of turning the tables and appropriating the league.

The promoters of the reorganization, including a number of substan-

tial farmers, are understood to be specially determined in view of the continued evidence of anarchistic-like vituperation and viciousness on the part of those at present in charge of the league as reflected in the league newspaper at Nampa.

Such tactics, they aver, are injuring the league, causing an unmistakable revulsion among the sober-thinking membership.

**AMBASSADOR FRANCIS WARNS AGAINST HUN MENACE**

Boston.—Ambassador Francis, home from Russia for the first time in two years, had several conferences with President Wilson while coming over on the George Washington and made several recommendations for action on the part of the allied and American governments for meeting the Bolshevik menace. Mr. Francis probably will disclose them later before one of the congressional committees.

"A reign of terror instituted by the Bolsheviks with the purpose of maintaining themselves in power is prevailing in central and northern Russia," said the ambassador.

"The outrages they have committed are incredible. I think it impossible to restore peace in Russia. In fact, with Germany practically unjured industrially, I am persuaded that if a peace is negotiated with Bolshevik rule continuing in Russia, Germany, in twenty years or a decade will be stronger than she was at the beginning of the war. She is familiar with the Russian character and for a generation has been studying it to influence it. If this turns out Germany, instead of having been defeated, will have gained a victory."

**MAIL FOR FOLKS AT HOME FILLED 9,867 SACKS**

It was a case of "letter-go" with the American soldiers in France last month, says the Stars and Stripes of Jan. 24., the A. E. F. paper published in France. The number of letters sent by the boys to the folks back home mounted into the millions and exceeded all previous mail shipments.

Exactly 40,454,700 letters (a total of 9,867 sacks were handled during December at the Bordeaux terminal post office, which takes care of the mail going to the States. It is safe to say that it was some Christmas back home when all that mail arrived with speed and dispatch.

Of the total mail handled during December at Bordeaux, 85 per cent was sorted to destination there ready for dispatch to the United States, without delay at American ports for redistribution, according to the report made by J. A. Cruickshank, Bordeaux superintendent.

The Bordeaux terminal is run by 90 experienced United States postal employees who volunteered their services for overseas work.

**"HEY THERE," DO YOU WANT A HOME ON A FARM?**

This is the unique title of a little booklet which the Secretary of the Interior, with the active co-operation of the War and Navy departments, is sending to the various camps of the army, navy, and marine corps throughout the country to ascertain the attitude of the men toward his plan for providing them with work and homes on reclaimed land.

The booklet is in the form of questions and answers which give a complete and concise description of the plan, and also has attached to it a post card questionnaire which the men are asked to fill out and mail to the Department. Each man interested will be asked to state his name, home address, age, occupation before enlistment, whether he has ever worked on a farm, whether he is interested in the plan, what kind of farming he would like to follow, whether general, live stock, truck or fruit, and whether he would be willing to take a job in his own state or anywhere in the United States if a job on one of these proposed projects is offered to him.

A tabulation of the replies will be presented to congress in connection with Secretary Lane's request for an initial appropriation of \$100,000,000 to begin construction on meritorious projects throughout the United States.

**BROWNING TO PAY A LARGE TAX ON ROYALTIES**

J. M. Browning of Ogden, inventor of the Browning machine gun used by the American expeditionary forces in France, will be required to pay \$700,000 in taxes on royalties paid him by the government, from which he would have been exempted had not a senate amendment to the revenue bill been rejected by the conferees, says the Salt Lake Tribune. This information has been received from Washington by Major Fred Jorgensen, adjutant general of Utah.

The amendment rejected by the conferees provided that, "in case of a device which a taxpayer has invented and which has been accepted by the war and navy departments since April 6, 1917, for use in the present war, and which has been put into actual use as a basis for successful major operations by the United States government in the war, and that if the secretary of war or the secretary of the navy shall so certify to the secretary of the treasury, no tax shall be imposed for the year 1918 on the royalties received, or any amount received in lieu of royalties by the taxpayer for the use of such device."

The Browning guns were in use at the front in France before the signing of the armistice, according to an official statement, and great numbers have been delivered since that time.

The Smoot joint resolution extending the thanks of congress to Mr. Browning is still pending before the senate military committee.

**For the Children.**

Too much care cannot be exercised in selecting a cough medicine for children. It should be pleasant to take, contain no harmful drug and most effective in curing their coughs and colds. Long experience has shown that Chamberlain's Cough Remedy meets these conditions. It is a favorite with many mothers.
