VOL. XXIV.

MONTPELIER, IDAHO, FRIDAY, MARCH 21, 1919

NUMBER 52

BEAR LAKE FARM BUREAU HOLDS ANNUAL MEETING

Result of Last Year's Work Very Gratifying— Officers Elected for Ensuing Year and Program for This Year Mapped Out.

The Bear Lake County Farm Bureau held its annual meeting in Paris March 18th. The purpose of the meeting was to hear reports of last year's work, adopt a program of work for this year, elect the new officers who will adopt a new constitution and by-laws and to have the farm bureau plan discussed and explained.

The program of the morning meeting consisted of an address of welcome by President Findlay. He expressed an appreciation of the officers of the bureau to the people for the support they had given the organization during the past year and in turning out so well to the meeting, there being about 115 men and women present. He stated that there had been much good come through the organization and that much more good would come if only the people will continue to support the bureau. He said: "The Farm Bureau will be just what you people make it, and we will get out of it just what we put into it—no more, no less."

Reports were called for from the fifteen communities which are organized; nine responded and stated that in the recent drive for membership very favorable results were secured. With the exception of Geneva and Ovid there were several more members for this year than for 1918. Raymond, Nounan and St. Charles have twice as many members as last year; Pegrum, Wardboro and Liberty have about three times as many as last year's enrollment. There have been no memberships reported from Dingle and Montpelier. Leaving these two towns out there is about 100 per cent increase in the Farm Bureau membership this year over last year.

A. C. Hymas and Joseph Stucki, local chairman for Liberty and Paris, discussed the Farm Bureau from the point of view of the farmers. They stated that the people are looking more and more to the Farm Bureau as their organization and the means of bringing to them much assistance. Men, women and children were all interested and supporting the Bureau.

Mr. R. H. Musser, assistant county agent leader then gave an excellent talk on how the Farm Bureau is financed, explaining that the U. S. Department of Agriculture and the University of Idaho were back of the Farm Bureau and were putting into the county \$320 a year to support the work. He also explained to the entire satisfaction of all present the purpose and expenditure of the membership fee.

The financial report of the organization was then read, discussed and approved by the meeting.

The following committees were appointed: Committee on nominations, committee on program of work, committee on constitution and by-laws and committee on resolutions. Following this meeting was adjourned until 1:30 p. m.

During the intermission free lunch

FOUGHT IN EVERY GREAT BATTLE AGAINST THE HUN

An unique and most interesting figure alighted from passenger train No. 17 last Saturday and remained over in Montpelier until Tuesday morning. He was James Glover, a rather small man, and he possessed documents issued by the English government in London commending him for untiring and unceasing duty in England and France from the moment the great World war broke upon the peoples of Europe up to the signing of the armistice on the 11th of November. He also possessed discharge papers, subject to being called again to "cross the pond," and he is as ready to respond as he did when six years ago he ceased work as a milk route driver at Freedom in the Star valley country and made haste to get into the European thralldom.

There is not a great general in the allied armies that Mr. Glover has not personally conversed with, even our own General Pershing. He was assigned to an ammunition wagon corps when entering the fray and remained in that work up to the day the armistice was signed. He was only out of active participation three weeks, and then only because of receiving a serious, full-bledged dose of German poisonous gas. He was taken to an English hospital in France and fate willed that a beautiful English maid, also by name of Glover but no relationship whatever, should nurse him back to health—and the result is that Miss Glover will ere long become Mrs. Glover and make her home in the Star valley country.

Beyond the words of a second world war as it is told coming from the scarred Belgium and France, which Mr. Glover has seen and been a part of to be

was served by the Academy girls under the direction of Miss Brinton. The girls had prepared a very tasty lunch and they served it in such a way that all were tempted to discover their capacities. Much credit is due Miss Brinton for the manner in which this part of the program succeeded.

At 1:30 the meeting was again called to order by President Findlay. Mr. Musser opened the meeting with a graphic, concise and forceful explanation of the Farm Bureau plan. The various essentials of the organization were pointed out and explained very interestingly.

Following Mr. Musser's address, Mr. Sargent, county agent, presented to the meeting with the aid of charts the 1919 program of work as outlined and suggested by the executive committee, advisory council and program of work committee. After some little discussion of the work to be carried on this year the program of work was approved and adopted by the meeting as being worthy of endorsements and united support of all the people in the county.

Mrs. Roy A. Welker gave a very brilliant and satisfying report of the work already accomplished by the Bureau for the women. She cited many direct and indirect benefits the Bear Lake county women had received through the specialists who were brought to the women last summer through the efforts of the Bureau. She also pointed out the great benefits which the women will be able to get as the Farm Bureau carries out its adopted program of work. Mrs. Welker commended very highly the work done by the canning clubs last year, and expressed a hope that more work will be done this year, not only with the older girls but also with the girls of ten and twelve years.

Mr. R. P. Nelson then gave a brief and concise report of last year's work. He gave figures to show that the project alone resulted in a net saving to the farmers, according to their own figures, of \$150,760.00 for squirrel work and \$2,555.00 for grape and apple work. This was only one of the seven projects in which work was accomplished. Twenty-four hundred head of cattle have been vaccinated for black-leg and many other very commendable bits of work were accomplished.

The nominating committee then presented the nominees for the various offices and an election was had with the following results:

President—A. C. Hymas, Liberty.
Vice President—S. L. Wright, Bennington.
Secretary—W. B. Hodge, Paris.
Treasurer—Jos. Stucki, Paris.
Pest Controller—R. P. Nelson, Wardboro.
Live Stock Committeemen—Alma Findlay, Bloomington.
Crops—J. W. Cook, Pegrum.
Dairying—Frank Brown, Liberty.
Home Betterment—Mrs. F. Athay, Paris, and Mrs. S. Holmes, Montpelier.

CLARENCE SHEPHERD SUCCUMBS TO INFLUENZA

Deep sorrow was brought to every home in Paris shortly after 11 o'clock yesterday morning, by the death of Clarence Shepherd, who succumbed to the ravages of the influenza after an illness of about a week. Last Saturday Mr. Shepherd returned from a short pleasure trip to California. He was ill at the time and immediately took to his bed, from which he never arose.

Deceased was the son of President and Mrs. J. R. Shepherd. He was a native of Paris and was about 30 years of age. He was a member of the Shepherd Mercantile Co., having charge of the hardware department. He is survived by his parents, five brothers, four sisters, wife and five children.

Haig and his tenacious English army were forced to make the wonderful retreat they did especially beggars of description. We in America knew comparatively little as to the real reason why General Haig acted as he did, but now know when it is revealed that this retreat paved the way for the beginning of the ending of the war. The German armies were never caught with so great a surprise when finding themselves in a pocket surrounded by the English, French and American armies after General Haig had fallen back to the identical spot he had long planned, and the Huns chose of two alternatives—retreat or annihilation—and they began their retreat which brought the war to a sudden ending just in time to avoid the other alternative. Mr. Glover is now in the employ of the man he left to fight for his country and patrons of his route will gladly welcome him back as one of the heroes of the mighty conflict across the seas.

There's hope for a boy or girl of seven that hasn't utterly lost all for his parents' wisdom.

GEN. PERSHING PRAISES WORK OF 146TH ARTILLERY

From the Nampa Leader-Herald We take the following information relative to the 146th artillery regiment, of which a dozen or more Montpelier boys are members. The information was supplied by Major Duval, commander of the 2nd battalion, and is therefore authentic.

The 86th F. A. Brigade is composed of the 146th and 148th Regiments, formerly the 41st or Sunset Division and the only organization of that Division not split up and used for replacements upon arrival in France.

The 146th Regiment sailed from New York December 24th, 1917, and landed in Liverpool January 7th, 1918, and in France January 12th. Went on the line July 11 and was continuously in action until the armistice was signed November 11. Was then withdrawn and refitted, assigned to the 3rd Army and started on its march into Germany December 2nd, arriving at its present station east of the Rhine, Jan. 31, 1919. This regiment contains the Hq. Co., Supply Co., (Nampa), C. (Coeur d'Alene) and D. (Twin Falls), of the old 2nd Idaho.

Headquarters and Supply Co. were organized after the calling out of the regiment, with men from all parts of the state, at Camp Greene, Co. D. was disbanded and its members transferred to these two companies to bring them up to the new strength authorized for war. Co. B. was transferred into Battery B, Co. A. into Battery C, and Co. C. disbanded and its members used for replacements in the three batteries of the regiment. The majority of the men going to Batteries B. and C. Battery A. is a New Mexico organization and Batteries D. E. and F. are from the state of Washington. The field officers of the regiment are as follows: Lt. Col. P. H. Worcester, C. A. C. U. S. A.; Lt. Col. P. H. Weyrauch, Washington; Major J. H. Hamilton, New Mexico, commanding 1st Bn.; Major C. H. Duval, Idaho, commanding 2nd Bn.; Major D. D. Drain, Washington, commanding 3rd Bn.

The 148th Regiment is composed of National Guard organizations from Oregon, Wyoming, and Colorado. The Brigade is at present commanded by Brig. General Johnson Hagood, C. A. C. U. S. A.

The 146th and 148th Field Artillery went to wander up and down the front like lost souls, belonging to no division and fighting wherever they were sent. Now they are taking life more or less easy at Hohr. And at Hohr art located some of the finest of German pottery works, so that the Yanks are enabled to lay in a large stock of beautiful pipes which, after all, are some of the things for which Germany is noted. And the best part of it is that they don't cost as much as a helmet or a luger or even an Iron Cross, and they make the best souvenirs in the world.

1. It is with pleasure that I send you this letter of commendation upon the excellent services rendered by the 66th F. A. Brigade during the war with Germany.

2. This Brigade was always to be depended upon. When in the region of the Marne and Aisne rivers, in the Saint Mihiel battle and Meuse-Argonne offensive, it supported our gallant infantry in many a pitched battle.

3. This duty so well performed will always be a source of pride to each and every member of the Brigade.

JOHN J. PERSHING,
General U. S. Army.

REGISTRATION FOR CITY ELECTION OPENS TOMORROW

Registration books for the city election to be held on April 22, will open tomorrow. Under the law governing city elections, those who voted at the last city election, and still reside in the same ward, will not have to register for the coming election. All registrations will be made by City Clerk Barrett at the city hall.

Certificates of nomination for officers must be filed with the city clerk not less than ten days prior to the election. This makes Friday, April 11, the last day on which nomination papers may be filed.

BOOSTERS' CLUB STARTS WITH MEMBERSHIP OF 60

The meeting which was held at the city hall last Tuesday night for the purpose of perfecting the organization of the Boosters' club, was attended by about fifty of the enterprising citizens of Montpelier. The time was largely taken up in reading and adopting the constitution and by-laws, which were submitted by the committee that had been appointed to draft them.

The only change of importance made in the constitution, as tentatively adopted two weeks ago, was in removing the limit on the number of voting members in the club. This proposition brought forth considerable discussion, but the sentiment was largely opposed to the idea of having a limited number of voting members. The membership is therefore now open to any one who may wish to join the club.

The club starts out with a membership of 60 who have paid their admission, and it is believed that the number will be increased to 100 within a very short time. Several of the progressive farmers in the vicinity of Montpelier have already enrolled as members and several others have expressed a desire to come in.

The club starts out with a spirit of harmony and enthusiasm prevailing among the members, and it is believed that Montpelier at last has a club which is organized on a solid foundation and it will accomplish good and lasting results.

As the membership is unlimited, applications will still be received by the membership committee, which is composed of W. G. Staley, Carl Sponberg and R. L. Nicholson. Any citizen of Montpelier or the county, who feels that he would like to have a voice and vote in the club will be welcome to do so.

The club will meet at the city hall until such time as suitable club rooms can be secured and furnished.

While the constitution provides for regular meetings on the first Tuesday night of each month, the club will hold weekly meetings until it gets everything in running order. The next meeting will be held at the city hall Tuesday night, March 25, at which time President Williams will name the board of directors and members of the standing committees provided in the by-laws.

Any one desiring to join the club is cordially invited to attend this meeting.

DEATH CLAIMS FAITHFUL WOMAN AND INFANT CHILD

Bern, Idaho, March 18.—Mrs. Julia E. Schmid, wife of August Schmid, died in Montpelier at the home of Mrs. Jacob Jensen of heart trouble and other complications. Two weeks ago she gave birth to a baby boy who died March 10. At that time she was suffering with leakage of the heart, to which she succumbed March 15. Mrs. Schmid was born January 20, 1885, at Bern. She was the daughter of the late Bishop John Kunz and Elizabeth Boss Kunz and was married to August Schmid November 1, 1911, in the Logan temple. Besides her husband, she is survived by two little girls, in age two and six years, and stepmother, Louisa W. Kunz; also the following sisters and brothers: Mrs. G. Eschler, Logan, Utah; Mrs. A. H. Danall of Herriman, Utah; Mrs. George S. Smith of Grantville, Utah; the Misses Lucy and Lula Kunz, Wm. J. John Jr., Parley P. Kane, all of Bern, Idaho.

Funeral services were held at the Bern meeting house March 18 at 1 o'clock. Bishop Robert Schmid presiding and Robert Kunz conducting. The singing was furnished under the direction of Elder D. M. Hymas of Montpelier. The speakers were Robert Kunz, President H. H. Hoff, President Edward C. Rich, Edward Bischoff, Herman Hoff and J. Peter Alleman, all paying glowing tributes to the exemplary life of the deceased. Opening prayer was offered by Elder James Dunn. The closing prayer was by Elder F. Barbus. Interment took place at the Bern cemetery where both mother and babe were buried together. The grave was dedicated by Bishop Robert Schmid.

You can't even fool some of the people any of the time.

EUROPEAN REFUGEES BADLY IN NEED OF CLOTHING

Red Cross Urges Bear Lake People to Donate Old Clothing Next Week—Warm Clothes Needed Worse Than Food.

The Bear Lake Chapter of the American Red Cross is making an urgent appeal to the people of the county for donations of old clothing and garments of all kinds for the relief of the distressed of Europe. These donations are to be made during the week beginning March 24. Mrs. Davis, chairman of the local chapter, has arranged with the merchants of Montpelier to receive donations. Boxes will be provided at each store in the city where bundles may be deposited. Bear Lake people have responded liberally in the past and it is to be hoped that they will do equally as well this time.

That clothing is needed more than food by hundreds of thousands of refugees in France and Belgium, is the gist of a report just issued by six special investigators for the Red Cross.

"Most of the refugee families manage to nourish themselves on the government allowance and their small wages, but they are by no means able to clothe themselves," says the report. "As the prices of clothing in France are prohibitive, the need for this kind of assistance is obvious. Accordingly, we decided to give food only when special nourishment was ordered by a physician, but to continue to look after the clothing need as imperative."

It is estimated that the German invasion of France and Belgium made wanderers of 1,350,000 formerly happy-country people of these countries.

The two previous collections were for the French and Belgians behind

the German lines. This collection is for all the distressed and suffering war stricken people of Europe, except the central powers.

Every kind of garment, for all ages and both sexes, is urgently needed. In addition, pieces of goods, ticking, sheeting, blankets and woolen goods of every kind are needed. Light warm cotton flannel and other kinds of cloth from which to make garments for new born babes is one of the most urgent needs. Shoes of every size are needed.

Since the clothes will be subjected to the heaviest kind of wear only garments of strong and durable material should be sent. It is useless to offer to these afflicted people garments of flimsy material. We are especially requested not to send ball dresses, high hats, straw hats, trimming for hats, feathers, umbrellas, mattresses, clocks, glassware, carpets, toys, collars, neckties, shoes, crutches, canes, parasols, pillows, crockery, rugs or food stuffs in this collection.

While garments should be of strong and durable material, they need not be in perfect condition. Do not mend garments, as there are thousands of women in Europe who can darn a small but self-respecting wage by mending them or by making them over into garments more suited to their own countries. In previous collections, chapters have hesitated to send mending. In this collection be sure to send these garments if the material is durable, and spend the time that would otherwise be given to mending in collecting additional garments.

PRESIDENT BUDGE DIED AT LOGAN LAST TUESDAY

President William Budge died at his home in Logan last Tuesday evening. His death had been expected for two weeks or more and most of his children were at his bedside when he end came. Mr. Budge was born in Scotland on May 1, 1828. He came to the United States in 1860 and to Bear Lake valley in 1870. Here he resided until about seven years ago, when he was called to go to Logan to take charge of the temple.

His funeral was held at Logan yesterday afternoon, but owing to the prevalence of the influenza there only short services were held in the cemetery.

A full account of the life and work of President Budge will be published in next week's Examiner.

CARBON COUNTY WILL HELP ON STAR VALLEY ROAD

Last Saturday Commissioners Peterson and Wright, together with J. F. O'Connor and Joe Davis, met with the commissioners of Carbon county at Soda Springs to talk over the proposition of the latter county helping to finance the construction of the Montpelier-Alton road. Division Engineer Martin of the forest service, was also present. The proposition was explained in detail to the Carbon officials, and special attention was called to the fact that several miles of the road is in Carbon county, and that the ranchers in that vicinity, who are residents of the new county, would be benefitted by the building of the road.

The Carbon commissioners expressed themselves as being in favor of helping to finance the construction of the road, but they said that just at this time they would not be able to make an appropriation as the county was just getting organized. They gave their assurance, however, that the county would make a just appropriation for this work.

They also expressed to Commissioners Peterson and Wright the hope that the relations between the two counties would always be pleasant. The question of completing the highway from the Bear Lake county line into Soda Springs was also discussed and the Carbon commissioners promised that this would be done at the earliest date possible.

TWO COUPLES HONORED AT SALT LAKE TEMPLE

A large wedding reception was given Wednesday evening at the home of Mr. and Mrs. T. W. Champeys, E. Eighth South street, in honor of Miss Della Nye, whose marriage to R. O. Allred was solemnized on Wednesday morning at the Salt Lake Temple, and in compliment to Miss Mildred Morgan and Earl Nye, whose marriage was also an event of Wednesday. Relatives and friends of the couples were the invited guests. Mr. and Mrs. Nye will make their home in Liberty, Idaho, and Mr. and Mrs. Allred have left for their residence in Ogden.—Salt Lake Tribune.

Earl Nye is a nephew and Miss Della Nye is a niece of Wm. C. Nye of this city.

The Examiner is only \$2.00 a year.

SNEDDON INTERESTS BUY THE HARRIS TRACT OF LAND

The Sneddon interests have purchased from C. E. Harris the tract of land adjoining Mrs. Caddie Shupe's property on the east. There is something like eight lots in the tract, and it is the intention of the Sneddon to offer the lots for sale and build homes on them for people on the installment plan. They already have the assurance of the erection of one residence, and R. N. Sneddon says he feels sure that within two years there will be a modern home on every lot in the tract.

They are also figuring on purchasing another tract within the city with the view of selling the lots and erecting homes for people on the monthly installment plan.

YOUNG MEN ORGANIZE AN OUTING CLUB

(By Dugan)
The newly organized Outing Club of Montpelier took their first trip up Montpelier canyon last Sunday. This club is made up of twelve young men of the town, and was organized about ten days ago. The members each have a title, to-wit: Clancy, Gustan, Dugan, Grogan, Hank, Dinty, Doc, Cicerio, Moushan, Hank, Teddy, and Henrie, and the club is better known to its members as the "Limberger Society." The event of the Sunday outing was a Mulligan, complete in every respect, the kind that "hit the right spot." There is some talk of inviting the older Mulligan bunch to attend some future spread, to participate in a feast and test our ability.

To put life into the club a Jazz Band has been organized, consisting of two steel guitars, a banjo, ukulele, mandolin, saxophone and a mouth organ. Before leaving for home a bonfire council was held and officers selected for the present season: Clancy Towner, president; Gustan Wedel, vice president; Dugan Bagley, secretary; Jiggs Brough, treasurer; Grogan Staley, band master. So much ability was displayed in the cooking department that it was decided to leave this office open until a later date.

It is planned to hold meetings every 28 days, in the form of outing, fishing and hunting parties.

We have all faithfully pledged ourselves to uphold our motto, "Nothing Stronger Than Limberger," and we hope to make this organization one of the liveliest of the community.

CLOCKS TO BE MOVED AHEAD ON MARCH 30.

Another sign of spring is that every clock in Idaho will be turned ahead one hour at 2 a. m. on Sunday, March 30, known as the daylight saving act, providing that every time-piece in the United States be advanced one hour on the last Sunday in March and retarded one hour beginning at 2 a. m. the last Sunday in October.

This act was not a war measure, as many supposed, and it is to be effective every year until congress repeals the law. Practically no mention has been made of the matter this year, and it has generally escaped public attention.
