Outrage Like that of Steunenberg Case

Boise City, Oct. 9. — Harry E. Brown, sheriff of Boise county, died yesterday afternoon at the hospital in Boise, as a result of the horrible wound he received from the explosion of official mail train baggage, as he ascended a stairway in the depot. He was in full possession of all his faculties until a few minutes before death, when he suddenly collapsed, and although almost completely unconscious, the right arm was raised and the left hand forcibly clenched. He suffered intensely and died almost instantly. Before noon the operation to save his life was performed, and the report was favorable. His right arm was amputated, and the operation was made as free from pain as possible.

The trial of the men now in the United States Penitentiary at Leavenworth, Kan., in connection with the murder of Mr. George S. Tabor in Boise, was continued today with Phi. P. Albin, one of the defendants, charged with murdering Mr. Tabor, being called to the stand. He was a witness for the prosecution.

The following is an account of the explosion of the mail train at Boise City yesterday afternoon:

The mail train from Salt Lake City arrived about 3 p.m. yesterday, and was accompanied by a baggage car, which contained about 2 tons of mail. A few minutes after the train arrived, Sheriff Brown, who was in charge of the baggage car, entered it and examined the contents. He was about 15 minutes in the car, during which time no suspicious package was observed. As he was about to leave the car, the train was suddenly set on fire, and the sheriff was almost instantly killed.

The explosion was so sudden that it was not possible for anyone to save the mail, which was destroyed.
