

**\$100 Reward, \$100**

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that fails to cure. Send for list of testimonials. Address P. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, Etc.

**SUMMONS.**

In the district court of the Tenth Judicial district of the state of Idaho in and for the county of Idaho. Jack Hagerly, plaintiff, vs. James C. Berryhill, Trustee, Atlas Mining & Milling Company, Limited, (also known as Atlas Mining Company, Limited), George T. Crane, C. B. King, E. A. Parisot, H. W. Peel and F. J. Loring, individually and as trustees of Atlas Mining & Milling Company, Limited, a corporation whose right to do business has been forfeited, and all unknown owners of the Atlas, the CBDK, the Colonel Sellers and the General Armstrong lode mining claims, patented under Mineral Survey No. 1820 and improvements thereon, situated in the Robbins Mining district, Idaho county, Idaho, defendants.

THE STATE OF IDAHO SENDS GREETINGS: To James G. Berryhill, trustee, Atlas Mining & Milling Company, Limited, (also known as Atlas Mining Company,

Limited), George T. Crane, C. B. King, E. A. Parisot, H. W. Peel and F. J. Loring, individually and as trustees of the Atlas Mining & Milling Company, Limited, a corporation whose right to do business has been forfeited, and all unknown owners of the Atlas, the CBDK, the Colonel Sellers and the General Armstrong lode mining claims, patented under Mineral Survey No. 1820 and improvements thereon, situated in the Robbins Mining district, Idaho county, Idaho, the above named defendants.

You are hereby notified that a complaint has been filed against you in the above entitled district court by the above named plaintiff, and you are hereby directed to appear and answer the said complaint within twenty days of the service of this summons, if served within the said judicial district, and within forty days if served elsewhere; and you are further notified that unless you so appear and answer the said complaint within the time specified, the plaintiff with take judg-

ment against you as prayed in the said complaint.

The said action is brought to obtain a decree of the said court quieting the title in the plaintiff to the following lands and real estate described in the complaint, to-wit: The Atlas, the CBDK, the Colonel Sellers and the General Armstrong lode mining claims, situated in the Robbins Mining district, Idaho county, Idaho, the location notices of which are of record in the office of the recorder of Idaho county, Idaho, in Book 16 of Mining Locations, page 236; Book 16, page 17; Book 13, page 236; and Book 18, page 264, respectively, said mining claims being patented claims, patented under Survey No. 1820, together with the appurtenances, and adjoining that the improvements thereon are fixtures, and to decree and adjudge that the plaintiff is the owner of said lands and property and that the defendants have no right, title or interest, in or to the said property or any part thereof, or any claim thereon; and to forever en-

join defendants from asserting any claim thereon or thereto adverse to plaintiff, and for general relief.

Witness my hand and the seal of said court this 9th day of October, 1918.

HENRY TELCHER,

Clerk. By HAROLD HARRIS, Deputy. A. S. HARDY, attorney for plaintiff, residence and P. O. address, Grangeville, Idaho. 47-61

**NURSES WANTED.**

The U. S. government desires to enroll the services of 25,000 women between the ages of 19 and 35 as a "United States Nurse Reserve" to release graduate nurses for work at the front. Without more student nurses graduate nurses cannot be sent to Europe and our wounded men will suffer for the want of nursing care. Apply for enrollment card to

**MR. BIRKINGTON WAS LATE**

Mrs. B. Had Been at the Jewelers on a Similar Mission Some Few Months Before.

Mr. Birkington drove up in a "taxi" and entered a jeweler's shop accompanied by his valet, who carried an oblong box of steel. Mr. Birkington asked for a private interview, and, on being shown into the office, he opened the box, exposing a splendid array of diamond and pearl necklaces, earrings, tiaras and rings. "Mrs. B.," he said, "is now abroad. Before she returns I want you to extract these stones and replace them with good imitations, selling the real jewels and giving me the money. This of course is to be a confidential transaction." "I should be glad to do as you ask," said the jeweler, "but two years ago Mrs. B. called here on a similar errand to that which now brings you and the errand in her case was successful. The paste jewels that you offer me are worth little more than the hire of the 'taxi' awaiting you outside!"

**WOULD AMEND LORD'S PRAYER**

Seemingly Nothing Was Sacred From Revising Mind of This United States Senator.

A well-known senator annoys his colleagues sometimes because in his desire to make legislation thoroughly good he insists on many amendments. During discussion in committee recently, this senator, whose name is not Brown, insisted on amending and amending, practically without end.

Finally, somewhat exasperated, a colleague said to him, "Brown, I believe if the Lord's prayer were being discussed here, you would want to amend it."

Brown replied: "Yes, I would. I would change the clause 'Lead us not into temptation' to read 'Give us strength to resist temptation.'"

**Dames Once Scorned Coal Fires.** Coal and its products were not always so popular as they are today. Alexander Findlay, a Welsh chemist, reminds us in his book, "The Treasures of Coal Tar."

"The introduction of coal, especially as a domestic fuel, was for a long time regarded with disfavor," he writes. "Even in the seventeenth century it met with an active boycott on the part of 'the nice dames of London,' who 'would not come into any house or rooms where sea-coals were burned, nor willingly eat of meat that was either sod or roasted with sea-coal fire'—doubtless by reason of the pollution of the atmosphere by smoke and of the stench produced by the burning coal."

Coal was more popular in England in 1859, when mauve dye appeared as one of the coal tar products and became so much the rage that Punch referred to the fashion epidemic as the Mauve Measles.

**Mule Meat.**

"If the Germans capture any American mules," says the Birmingham Age-Herald, "they may be tempted to try mule steak." Perhaps so, but we trust none of our friends over there will ever be called upon to resort to any such expedient. We are proud of our mules, the great work they have done and are doing over here and over there for victory. So appreciative are we of the mule's services that we are ready to stand hats off when he attempts to bray the "Star-Spangled Banner;" but we can never, no never recommend his steak even to the despised Boche as anything approaching a gastronomic dainty.—Nashville Banner.

**Inventions.**

A craze for invention is sweeping the country. Many a man who has never been able to invent an excuse to hand the wife for getting home late is now accomplishing wonderful things. Already 2,000,000 appliances for the destruction of U-boats have reached the patent office. One man has evolved a brick boat, built entirely of brick from the keel to the crow's nest. The chief value of this construction is that the brick boat will fool the wisest U-boats. It sinks as soon as it is launched and the U-boats are never able to find it.—New York Mail.

**Protect the Bumblebee.**

Expert agriculturists in Australia and the Philippine islands realized the importance of the bumblebee to the clover crop, and imported immense numbers of them to help along the crops of their countries. The bumblebee is a tireless worker and keeps steadily to the business of protecting our interests. If he went on strike or were driven away, as might have happened not so long ago, when everybody considered all insects a pest, the parasites would soon get the upper hand and destroy our clover crops.

**Wifely Sarcasm.**

"Where shall we go tonight?" asked Mrs. Twobble.

"I would rather stay at home and rest," answered Mr. Twobble, with a groan. "I'm tired out, my dear. You have no idea of the wear and tear I'm subjected to in business."

"Oh, yes, I have. I've never visited your office yet that I didn't catch you either listening to somebody else telling a yarn or telling one yourself. The strain on you must be terrific."—Birmingham Age-Herald.

**Their Caliber.**

"I wonder what the kaiser thinks of the lightning-trained Yankees now?"

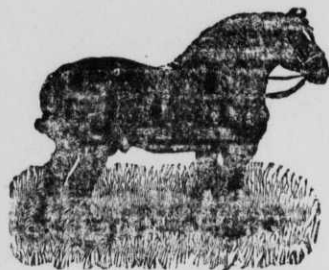

"I guess he thinks they're some shock troops."
