# Ford

THE UNIVERSAL CAR

Ford cars are important servants everywhere. They help the family enjoy life, bring the pleasures and advantages of the town within reach of the farmer and give practical service every day in country and town. They require a minimum of attention; any one can run the Ford and care for it, but it better to have repairs and replacements taken care of by those who are familiar with the work and have the tools, the genuine materials, and skilled men to do the work promptly. We pledge Ford owners the reliable Ford service with real Ford parts and standard Ford prices.

### AMERICA AT THE MERCY OF SOLONS IN LEAGUE

Washington, July 7.—That the United States will be unable to protect itself against the dictates of either the council or the assembly in the League of Nations if the covenant advocated by President Wilson is ratified by the Senate is the opinion of senators who have studied the complete document.

It is stipulated in Article 3 that the Assembly shall consist of representatives of members of the League and "may deal at its meetings with any matter within the sphere of action of the League or affecting the peace of the world." In Article 4, it is agreed that the council shall consist of representatives of the principal allied and associated powers, together with representatives of four other members of the League, named to be Belgium, Brazil, Spain and Greece, and "may deal at its meetings with any matter within the sphere of action of the League or affecting the peace of the world."

Members of the League are the United States, England, Canada, Australia, South Africa, New Zealand, India, China, Cuba, Ecuador, France, Greece, Guatemala, Haiti, Honduras, Italy, Japan, Liberia, Nicaragua, Panama, Peru, Poland, Portugal, Roumania, Serb-Croat and Slovene State, Siam, Tchecho-Slovakia and Uruguay. Each of these has a vote equal to that of the United States, capable of dealing with any matter within the sphere of the League or affecting the peace of the world. Britain outnumbers America six to one in votes. Her influence is great if not decisive over a majority of the others. As Earl Grey has just said in London, "the Empire was never so great in glory."

On the council England will not only have six votes to the one of the United States, but Italy will be more friendly to her because she cemented their victorious alliance and because of opposition to President Wilson's policy regarding Fiume, Japan has an open offensive and defensive alliance with her. France is decidedly friendly. Belgium is closely related because at her front door and because of ties of royal blood. Brazil is favorable because of commercial interdependence and antagonism to this country, and Spain and Greece are alike in purpose because of the ties of royalty to the king of England. So that it is figured here, the United States would be outnumbered and outinfluenced and outvoted in both council and assembly. Britain emerges from the war the sole great power in Europe and in the League covenant America is made her vassal.

### TWO DAY'S CELEBRATION WAS A BIG SUCCESS

erally the case on such occasions.

#### Saturday's Events

As everybody was tired from the previous day's activities, there wasn't much doing in the old town Saturday morning. The Montpelier band rendered several selections between 8 and 9 o'clock, but from then until time for the races the town was quiet.

However, a fairly large crowd braved the heat and dust to attend the races, which started at 1:30.

The first event, a quarter mile pony race, was won by Hall of Afton, with George Hunter second.

The two harness races were divided into professional and semi-professional. In the first event Bateman took first money and Ed Lewis of Afton, second.

The half-mile running race was won by Walton's horse, with Venter's horse second.

In the three-eighths mile dash Venter's horse took first money, Hall's horse second and Hunter's horse third.

As there was a slight misunderstanding on the relay race, the judges divided the money equally between Low of Afton, Olson of Ovid and Anderson of Montpelier.

On the whole the races both days were good and were enjoyed by all who saw them.

The Afton horsemen expressed themselves as being well satisfied with the results and the treatment accorded them. They extend a cordial invitation to the Bear Lake horsemen to bring their horses to Afton on July 24th and participate in the big races that are going to be pulled off there on that date.

As a fitting climax to the two days' celebration the Camels took the Kemmerer ball team down the line to the tune of 5 to 0. It was the only real "honest to goodness" ball game that has been played on the local diamond this season. A thousand or more people had the pleasure of seeing the Camels "come from behind" and shut out the Kemmerer bunch.

As the "clock in the steeple" struck the hour of twelve on Saturday night the last strains of music from the orchestra died away at the pavilion and the curtain was rung down on the biggest and best two-days' celebration ever held in the metropolis of Bear Lake valley.

There is an expert in Washington who can count four thousand silver dollars an hour. If he were to start now and keep at it day and night, Sunday and week days, without stopping for meals he could not count one billion dollars in one hundred years. And yet this is what our government will have lost through the government ownership of railroads by the first of January 1920 if the Republican congress does not throw a monkey wrench into the democratic machinery.—Keystone Gazette.

White lies are apt to leave black marks on a man's reputation.

### APPRAISER FOR FEDERAL LAND LOANS COMING SOON

W. D. Ream, secretary of the Montpelier National Farm Loan association, is in receipt of a letter from the president of the federal land bank at Spokane in regard to sending a man here to appraise land on which applications for loans have been made. The letter in part is as follows:

"We acknowledge receipt of your letter of recent date with which were enclosed two applications for loans made through the Montpelier National Farm Loan association, which have been examined and duly filed. In reply to your request as to when action in the matter of appraisal can be taken on the applications on file, we respectfully beg to advise that while we cannot advise definitely we nevertheless trust that we shall be able to send a representative to that district within the very near future.

"There is an enormous volume of business devolved upon this institution, which we are caring for as rapidly as the conditions under which we are obliged to operate will permit. Priority of right to service must be recognized and other considerations which enter into and determine our policies from time to time."

### BOUNTY ON COYOTE PELTS.

If those who have feet of coyotes that were killed prior to the 7th day of May this year, will send or bring them to me at Paris by the 19th of this month, I will see that they get the bounty on the pelts.  
JAMES DUNN, Assessor.

SQUEEGEE TREAD  
Tires

**Diamond**  
Announces  
Increased  
Mileage  
Adjustment

To Diamond Users,  
and Diamond Dealers,  
Here's Big News!

From today all Diamond Tires shall be adjusted on higher mileage—Fabrics, 6000 miles; Cord Construction, 8000 miles.

Furthermore, the new adjustment applies to every Diamond Tire of future or past sale, including tires in the hands of user or dealer.

Diamond users and Diamond dealers have long known the big mileage on Diamond Tires—the user's own tires.

We mark up our adjustment to 6000 and 8000 miles for Fabrics and Cords respectively, merely to measure out a definite share of the superb mileage that we know the wonderful strength and endurance Diamond Tires have in them.
