forego coveted possessions or even necessities. The work must go on, because there is no one thing that contributes so much to the spirit and efficiency of the troops. The Y. M. C. A. is working night and day to help the government win this war. And every penny that is given to aid the work is a direct assistance to the health, happiness and strength of your boy and mine.

#### Snapshots of Kaleidoscopic Work.

In all the big cities in France where our men pass through in large numbers, the Y. M. C. A. is operating hostels, where they can get beds and meals at a minimum cost. In London the American Y. M. C. A. has erected a large building for our soldiers and a clubhouse for American officers.

There are Y. M. C. A. dugouts right behind the front line trenches, where the soldiers can get hot drinks, crackers and other comforts at all hours.

Over 2,000 men who had been rejected on account of physical disability have been able to get into the British army by reason of the physical work of the British Y. M. C. A.

A fleet of motor cars leaves the big Y. M. C. A. headquarters in London at midnight every night to pick up soldiers who are wandering about the streets without any wholesome lodging in which to spend the night. These cars are operated by Englishwomen of position and refinement, who report that they never meet any discourtesy at the hands of the soldiers. The importance of this service can be estimated by the fact that at least 50,000 soldiers are on leave in London every week. Over half of these sleep in Y. M. C. A. beds every night.

#### Entertainment on Vast Scale.

The Y. M. C. A. has erected a big auditorium, seating 3,000, in each of the big draft camps, and huge chautauqua tents, seating 2,500 in the other encampments. The association is running a 2 1/2 week entertainment circuit among the camps and is paying 16 companies of entertainers, who are traveling to 30 camps performing before the men.

In each of the draft camps the Y. M. C. A. has ten secretaries engaged in educational work. The association is seeing to it that every man who cannot speak English is taught to do so. In many of the camps the association has a singing director, who is teaching the men to sing the popular and martial airs that do so much to keep up their spirits.

Of 84 Y. M. C. A. men at Camp Dix only three are being paid full salaries. In all the camps the majority of the Y. M. C. A. men have left lucrative positions to do this work simply because its appeal is irresistible to any red blooded man. Harry Lauder, the famous Scotch singer and comedian, now on his farewell concert tour in the United States, is giving all his spare time to the service of the association and is singing to the soldiers at all the camps he can reach.

In one of the draft camps the Y. M. C. A. is supervising athletics on 120 playing fields, providing full athletic equipment. The winners of the inter-regimental games will play the champions of the other camps.

One of the greatest services rendered by the association is the making

## Local Dealers' Advice Is Often Helpful

Your local merchants know their goods and are always glad and willing to let you profit by their knowledge when you go to them for merchandise.

When you are undecided between two articles—when you don't know which is best for your needs—your local dealer's advice may make your problem an easy one.

The Best Buying Policy

But when you buy by "sight unseen" methods you have no one to ask for advice. Then your experience is the only teacher, but, unfortunately, a poor adviser. Moral: Patronize the local dealers and get their advice on important purchases.

That price is not the first thing to be considered in a job of printing! Throwing type together in a haphazard way does not require any knowledge of the printing art. That isn't the kind of work you want. But artistic typography in stationery and advertising reflects credit to any concern. #### Do Your Bit With a Tenner.

This month (November) the Y. M. C. A. must raise \$85,000,000 to carry on its work among our soldiers and their allies until next July. Of this \$85,000,000 about \$24,000,000 will be spent on the work with our own troops or about \$10 for every man in Uncle Sam's uniform. If everybody who has received letters from soldiers and sailors were to contribute \$10 the task would be easy. Are your boy's health and happiness and clean soul worth \$10 to you?

Your town mayor, your pastor, your school superintendent will know who is the treasurer of the campaign committee in your county or town. Otherwise send a check or money order to Cleveland H. Dodge, treasurer, 124 East Twenty-eighth street, New York city.

Only sacrificial giving by millions of givers will make possible the continuance of this vast work for American soldiers and for those of our allies.

### VOLTAIRE'S VIEW OF DREAMS

Philosopher Gave Much Credence to Mental Workings of Man During Sleep.

Voltaire, semipagan philosopher as he was, gave more importance to dreams than was to be thought probable in one so well endowed, observes the Indianapolis News. "Dreams," he said, "appear to me to have been the sensible origin of primitive prophecy or prediction. Dreams which have come to pass are always predictions which no one can doubt, no account being taken of dreams which are never fulfilled. How is it that while the eyes see not, the ears hear not, we, notwithstanding, understand in our dreams? In one of my dreams I supped with M. Tournon, who appeared to compose verses and music, which he sang to us. I addressed these four lines to him in my dream: "Thy gentle accents, Tournon, dear, Sound most delightful to my ear! With how much ease the verses roll, Which flow, while singing, from thy soul!"

"In another dream I recited the first canto of the 'Henraide' quite different from what it is. Yesterday I dreamed that verses were recited at supper and that someone pretended they were too witty. I replied that verses were entertainments given to the soul and that ornaments are necessary in entertainments. I have therefore said things in my sleep which should have some difficulty to say when awake; I have had thoughts and reflections, in spite of myself and without the least voluntary operation on my own part, and nevertheless combined my ideas with sagacity and even with genius. We should never be good philosophers except when dreaming!"
