ITEMS ABOUT PEOPLE YOU KNOW

Soldiers' Welcome—The Soldiers' Welcome entertainment at the Dodge Hall last Friday night was attended by a large audience. The hall was tastefully decorated for the occasion and a circle of chairs was reserved for the returned soldiers just in front of the stage. Every number on the program was appropriate to the occasion and received much applause. The Boy Scout Band rendered some very pleasing selections. The management of the hall is to be congratulated upon the enterprise shown.

Respond Nobly—At the entertainment at Dodge Hall last Friday night a subscription list was circulated for the Boy Scout Band to which the public generously subscribed, \$47.50 being pledged in a very short time. This money will be used to buy uniforms and band equipment. It is hoped to raise about \$100 which amount will soon be reached. The result of the movement should convince the boys that their efforts are greatly appreciated by the public.

Like a Lamb—Well, the month came in like a lamb and according to old sayings it will go out like a lion. The first day of the month was balmy and started the snow on a "fade-away" movement, while the second day hastened the operation by quite heavy showers of rain. The old winter has slipped along quite rapidly and it will not be long before the farmers are in the fields with their plows.

Telephone Meeting—The annual meeting of the stockholders of the Challis Pahasmaroi Telephone Association was held in this city last Monday afternoon at which time the usual routine of business was transacted. D. B. Drake and Emil Kleupfer were elected to the board of directors. The meeting adjourned to the 15th.

A Gem—In another column of this issue we are publishing one of the brightest poetic gems of the war, entitled "At the Peace Table". It conveys an entirely new line of thought on the grim subject of the war and the peace conference and is worthy of a place of honor in the war archives of the country.

Another Dance—The Rebekah Lodge of this city is advertising a St. Patrick's dance to be held in the Odd Fellows' Hall on Friday evening, March 14th. Supper will be served and a jolly good time is anticipated.

Store Burglarized—The F. Nickerson & Company store was burglarized one night last week. The only thing missing, however, was a watch from a punch board.

Water Master Elections—At a meeting of the water users of Challis creek held in this city last Monday afternoon, H. M. Welch was elected water master of that stream for the ensuing term. The Garden creek water users elected George Bilger water master of that stream last Monday.

To Murray—Miss Elizabeth Leigh, of near Clayton, received word the latter part of last week of the serious illness of her father, Sam Leigh at Murray, Utah. She left the fore part of the week to be at his bedside. Mr. Leigh's many friends here hope for his early recovery.

Bad Roads—The stormy weather of the past week has made the roads of Central Idaho almost impassable. The road between here and Pahasmaroi is drifted full of snow in many places and the stage has difficulty in negotiating the trip.

PURELY PERSONAL

Subscribe.
Lee Watson is now the eagle eye on the Mackay stage.

Dudley Cameron has been on the sick list for the past week.

Joe Clark made a business trip to Chilly the fore part of last week.

John Rose was over from Pahasmaroi Tuesday on a mission of business.

Mrs. F. L. Hudlow returned last week from a visit with the Wests at Dickey.

Wm. McClure was down from his ranch near Clayton the latter part of last week.

Arthur McGown has been in Pocatello on business for the past week or ten days.

Butch Germer was down from his ranch near Bayhorse last Friday night to attend the entertainment.

Quite a few people from East Fork were Challis guests last Friday night, having come down to attend the program.

The Ladies Missionary Society will serve dinner at the church on Friday, March 14th. Adults 50c per plate, children under 12, 25c per plate. All are invited.

We ask that all those knowing themselves to be indebted to The Messenger for subscription, kindly call in and settle. It takes money to make the wheels go and they get pretty fractious when financial lubricant is not applied at the minute needed.

For Sale—80 acre farm two miles from Challis, half under cultivation, good water right, all fenced, four room house, all necessary outbuildings. For sale cheap. For full particulars see or write J. C. Taylor, Challis, Idaho. 3t adv

A Full Crop or One-Half to Two-Thirds of One IT DEPENDS UPON THE DRILL

It costs no more to raise a full crop than it does to raise a 1/2 or 2/3 crop. It takes as much seed, as many hours work, as much wear and tear on horse flesh and machinery to raise a small, poorly graded crop as a large, high grade one.

The size and quality of your crop depend largely upon the drill you use.

There are scores of drills that scatter the seed at various depths—much of it stays on the surface to be eaten by birds or withered by the sun. Perhaps 50% to 75% of this seed grows. It germinates unevenly—it comes up unevenly—it ripens unevenly and does not grade high.

But there is one Drill that is different. Why not use the one Drill that places every seed where it should be?

Monitor Double Disc Drills

deposit the seed at the bottom of a clean, wide furrow in two rows and cover it uniformly with moist earth, giving it abundant room to stool. You get a good stand with one-fifth less seed.

Every good seed grows—germinates uniformly—all comes up at one time—ripens evenly and grades the highest.

The Agricultural Colleges in various parts of the country have made exhaustive tests and find that the Monitor Drill produces crops which are not only larger but grade higher than those produced by any other.

The Monitor Double Disc Drill is the only Drill that drops the seed in front of the axle with the downward turn or the disc, carrying every grain to the bottom of the furrow—this device is covered by patents.

The Monitor Drill will operate successfully in any kind of soil. Every feature of the Monitor Drill is a strong one. Steel draw bars and hangers—steel levers—steel ratchets. It is made of the very best materials and will give excellent service after many other drills are in the scrap heap. Don't buy a drill until you have learned all about the Monitor.
