Mrs. C. I. Tussing received word last week that her cousin, Miss Enid McKern of Mt. Vernon, Ore., had died of influenza which developed into pneumonia. Miss McKern, with her mother, who came to attend her sister, spent last fall and part of the winter at the Tussing home helping in the fruit, and while here made many friends. She was taking nurse training work in the Baker hospital when taken sick.

The Barney Linkous family visited the Robt. Linkous home Sunday.

Be sure to bring in the fruit for the Children's Home, Monday. Bring it to the Flack home where it will be packed.

Mr. Ray McKaig of Boise accompanied by his wife, were Fruitland visitors Monday. Mr. McKaig met with members of the Payette County Non-Partisan League in the interest of establishing a new daily paper which will probably be called the Farmer's Daily. Among those present were R. H. Woods, J. D. Baker and J. Nodl of Payette. The meeting was held in the Association Packing house.

M. R. Powell wrote of his experience in getting data from a colored troop just arrived in France. One of his colored soldiers when asked from what state he came, said, "The United States." When further ques-

And a letter from her brother Marion Fitzgerald who joined the Navy over 8 years ago, in which he says their camp at San Francisco is the only military camp in the United States that hasn't had one case of the Flu. He likes the Navy fine.

Jacob Rauerer bought the 12 acre ranch belonging to R. C. Fielder, east of Fruitland. Consideration \$3,000.

Such a Relief.

She put down the book with a sigh. "What is it, darling?" he asked. "Ah, dearest, I'm so happy," she replied.

"But you had such a sad look in your eyes just now."

"I know. I've been reading about the unhappiness that the wives of men of genius have always had to bear. Oh, Alfred, dear, I'm so glad you're just an ordinary sort of a fellow."

— *Stray Stories.*

Artificial Eyes of Cartilage.

A surgeon of the British army is experimenting with balls of cartilage for artificial eyes. When live cartilage is transplanted to the eye socket it establishes connections with blood vessels and surrounding tissues, and before long moves naturally in co-ordination with its fellow. To what extent the cartilage can be colored so as to simulate a real eye is yet to be proved, but it can at least be faced with a shell of celluloid that will appear natural.

Could Not Save Comrade.

A fruitless but daring attempt to rescue a man under the most unfavorable conditions was recently made by William R. Ransford, a seaman of the national naval volunteers, and Allen J. Jackson, a wardroom cook. The man lost was a seaman named W. A. Wells. He slipped and fell overboard from the forward turret of the U. S. S. Iowa. It was cold weather and the water was full of floating ice. Nevertheless Ransford and Jackson went overboard after the man, but were too late to save him from drowning.

Rattlesnake's Rattle.

The rattle of the rattlesnake is developed from the single scale or epidermal spine, which in most snakes forms the internal segment of the tail. The bone on which the root of the rattle rests consists of the last caudal vertebra and is covered with a skin which is the beginning of the rattle in young rattlesnakes.

North Payette

Lucile Cornelson, age seven years, knitted a sweater for the Red Cross. When it was completed she put her name and address on the sweater which was issued to a soldier in training and he acknowledged it by writing a letter of appreciation to the little lady.

If no more cases of influenza develop school will begin in Dist. No. 1 on Monday, Nov. 25th.

For Sanitary Bakery.

A waxed paper baking board, a sheet of which can be discarded when soiled and immediately replaced with another under it, and also a waxed paper rolling pin, with a cardboard core, so that the covering may be thrown away in the interest of sanitary baking have been invented by a Connecticut woman.

Favors Early Motherhood.

Doctor Bell writes in the Journal of Heredity, Washington, D. C., with the statistical proof that young women unquestionably make better mothers than those who have postponed the responsibility of maternity until after thirty years of age. He favors early marriages and youthful motherhood on the ground that, contrary to popular opinion, the offspring of young mothers have a finer vitality and are the peers if not the superiors intellectually of children born of older parents.

Quick Service

Please, Consult the Directory

CALLING for telephone numbers from memory is not safe from a conservation-of-time standpoint.

A mistake in the number doubles the time of the operator and of the use of the equipment employed.

One's memory is so apt to play tricks with telephone numbers. It is so apt to prompt you, for instance, to say, 9-7-8 when the number really is 7-9-8.

A wrong number wastes the time of the person called, of the operator and of the person called in error, and involves use of needed equipment.

In the end it is necessary to consult the Directory. Why not consult the Directory at the first, if only to confirm the dictates of your memory?

The point is that anything that unnecessarily takes the time of the operators and of equipment may be needlessly delaying calls occasioned by fire, lawlessness, accident, death, serious illness, calls necessitated by the public interest and welfare, calls on Government business or war work or commercial calls of vital importance.

Please do your full share in the task of furnishing telephone service to this community by patriotic consideration of the time of our operating forces.

CONSULT THE DIRECTORY before calling, to insure giving the correct number. Then,

SPEAK DISTINCTLY, LISTEN ATTENTIVELY and MAKE YOUR CONVERSATION BRIEF.

That will help the service. It will help those who are earnestly striving to serve you well.

The Man in the Tobacco Store Says

—it does beat all how men are taking to Real Gravely, now that they know it costs nothing extra to chew this class of tobacco. All you have to do is to get a man to take his first plug of Gravely. Let him get the pure, satisfying Grave-

ly taste, and learn for himself how much longer the small Gravely chew stays with him than a big chew of ordinary plug.

It goes further—that's why you can get the good taste of this class of tobacco without extra cost.

Tombstone for Pavement.

An ancestor of the duke of Norfolk who was banished by King Richard II, and died and was buried in Italy, Thomas Mowbray, got from Shakespeare one of the finest epitaphs in literature and thus became a personage of great interest to his descendants," observes a writer in London Tit-Bits. Two and a half centuries later the exile's bones were claimed by his family from the authorities of Venice, and brought to England, but the tombstone was left behind, and only a few years ago was discovered doing duty as a paving stone!
