

To Destroy Plant Worms.

Worms may be killed in jars of potted plants by taking a dozen horse chestnuts and pouring over them two quarts of hot water, writes L. M. T. in the Mother's Magazine. Let stand over night and with this water thoroughly saturate the earth in the jars. It will not injure the plants, but the worms will be dead in a few hours.

Chamberlain's Cough Remedy.

Do not imagine that because other cough medicines failed to give you relief that it will be the same with Chamberlain's Cough Remedy. Bear in mind that from a small beginning this remedy has gained a world wide reputation and immense sale. A medicine must have exceptional merit to win esteem wherever it becomes known. For sale by E. G. Hettinger, Salmon Druggist.

LEADORE

Don C. Reed came over from May for a short visit near Leadore. Miss Margaret Ecker visited the Sell, family in Swan basin last week. Miss Irene Yearian, who is teaching in Albany, Oregon, and Will Yearian at Ft. Warden, Wash., are both recovering from an attack of influenza. Mr. and Mrs. E. M. Yearian and Hubert have returned to their home near Leadore. C. H. Benson, Lee Reamy, Harry Pierce and John Edwards, who have been delivering stock in the east returned to their homes in Leadore last week. All are well but precautions were taken for a few days that no influenza germs should be scattered.

Horace Ecker, who is quite well known here, has been transferred from Camp Dick, at Dallas, Texas, to the Flying Field near Lonoke, Arkansas. He has just recovered from a severe case of influenza.

Friends of the Carlson family will be glad to learn that the cases of influenza in that home are improving rapidly.

LEESBURG

Miss Lewis, who came over from Salmon to visit at the Caples camp, is recovering from an attack of influenza. Miss Rovers is also a guest of Mrs. Caples.

The O'Conner family have all been ill with influenza but are now on the convalescent list.

Hilliard Griebler is also another influenza patient in this district sick with influenza. He is at the Italian mine.

Louis Began returned last week from the Blackbird mine.

GILMORE

We are still very fortunate, no case of influenza has put in an appearance. We have our masks ready, our signs out that we are in quarantine against the outside world and profoundly hope to come forth unscathed. We were all sorry to learn of the death of Mrs. Geo. Johnson at Salt Lake this past week. Mrs. Johnson spent the summer in Gilmore and had only recently gone to Salt Lake to live for the winter.

The Weirs, who went a couple of weeks ago to Idaho Falls to attend a funeral, are held there by the quarantine.

The young folks are having jolly times coasting. Winter has no terrors for them.

It is Representative Snow now. We are glad Gilmore will be represented in our legislative body. Congratulations.

Billie Noble has moved his family to the Allhands ranch. The postoffice has been moved into the bank building.

Mrs. Ervin Jewett received word that her husband was in the wreck in Illinois when a train of soldiers en route to New York was thrown from the track. He is still in the hospital in Geneva. Those that were uninjured continued their journey after a few day's rest.

Mrs. John Mock received a letter from Clarence last week telling her that he is a hospital in France with a wounded arm. He tells how glad he is to lie in a bed. Mrs. A. R. Nichols also is in receipt of a field card, saying that her son Ray is in a hospital.

H. J. Grimes, formerly engaged in building and contracting in Salmon, was called here from Butte by the death of Henry Bagley, who was an old friend.

Stearman's Auto Repair Shop

BRADLEY & WATKINS

Attention! All Patriotic 100 Percent Americans

According to the Butte Post of November 8, 1918, the most prominent suspect in all the Western States thus far brought to book under the Espionage act is the head of a large milling company arrested in Portland. He is charged with having declared that he was a German and glad of it. That he had served 25 years under the Kaiser and that it was better to be over there than here. If this is the kind of man he is why should we eat his brand of Food Stuffs? We ourselves cancelled several hundred dollars worth of cereals that would have come this month and we are going to return to the jobber all full cases of his goods now in stock.

We will now carry in place of these goods a full line of Oatana and Ceretana oats, Wheat, Pancake Flour, etc.

SALMON IDAHO

Ranch and Equipment for Sale

One hundred forty-seven acres, about half of which is fine tillable land, as good as can be found in the county, with fine outside range and improvements as follows: \$100 worth of fencing, including 60 rods woven wire and barb wire combined; about 10 acres grubbed and plowed and \$40 worth of garden truck; house, barn, henhouse, hog house, smoke house, cellar, etc., besides Oliver chilled plow, Iron Age garden tools, Queen Cultivator, lumber, household goods, etc. Location ten miles south of Salmon, immediately on the river. Everything mentioned goes with the place. For further particulars call at The Recorder office, Salmon, Idaho.

No Mystery in Meat

Some things are so simple that they have to be explained again and again. When things are obvious, people keep looking for mysteries behind them.

So it is with the packing business. The mere size of Swift & Company confuses many. Because their imaginations are not geared up to scale, they believe there must be magic in it somewhere—some weird power.

Swift & Company is just like any other manufacturing business run by human beings like yourself; it takes in raw material on the one hand and turns out a finished product on the other.

Swift & Company keeps down the "spread," or the expense absorbed between raw and finished material, to as low a figure as possible. (If it didn't it would be put out of business by others who do.)

How much Swift & Company pays for the raw material, and how much it gets for the finished product, depends upon conditions which Swift & Company does not control.

It depends entirely upon how much people want the finished product, and how much raw material there is available to make it from.

The profits of Swift & Company amount to less than one cent per pound on all meats and by-products—less than one-fourth of a cent on beef.

Swift & Company, U.S.A.
