Dr. John C. H. Wu, former field director of the Brunswick Townsite Company, was in town on Saturday. The called to conduct an informal visit to all the old friends and relatives of the townsite company.

There were four feet north and south and nine feet east and west. The block was rectangular in shape being 8920 feet long from north to south and 300 feet east and west. One block has been set apart for school purposes and one fractional block, derelict land, was turned over to the board of regents.

A number of brethren from Grangeville and vicinity arrived in town Saturday evening and were inaugurated, or founded, by your Worthy townsman the Rev. J. S. Rhoades. The place has been selected as a park. There can be no more beautiful place for picnics and other kinds of outdoor recreation.
