

THE REPORT.

AN INDEPENDENT WEEKLY.

J. M. WOLBERT, Editor.

Subscription \$1.50 per Year

Entered in the Postoffice at Cottonwood Idaho, as Second-class matter.

FRIDAY, MARCH 22, 1901.

Look out for THE PRAIRIE CHRONICLE in the near future—next week if the new material arrives in time. THE CHRONICLE will be an up to date paper in every respect.

Carnegie is making quite a number of library gifts lately. We wonder what it means. Is he really so philanthropic, or has he some ulterior object in bringing himself before the people in this manner?

With this issue of the Report our editorial management and ownership of the same ceases. We ask all who are indebted on subscription or ads, to promptly call on Rustemeyer & Wimer and settle up by cash or good notes. All subscriptions and the advertisements for the month of March are due the new management.

J. M. WOLBERT.

Why doesn't someone bring in several cords of wood and have them in town to sell? We noticed a number of people inquiring for wood this week and there was none to be had for love or money. Why, even ye editor had to pay a man CASH for wood, when we ought to have been able to get it on subscription, and we have made up our mind that this state of affairs must be remedied. Just think of it! A newspaper man paying CASH for wood!

Cold cash as well as enthusiasm is needed to enable the chamber of commerce to attract eastern Washington's share of homeseekers to the Inland Empire. The two great wants of this country are more people and more capital. The men who are now coming west are bringing the money in their pockets; that's the very combination of more capital which is of the most value to Spokane.—Chronicle.

Our needs and ideas exactly, Mr. Chronicle Man.

"I do not violate any confidence when I state," said David B. Hill at a St. Patrick's Day banquet in New York city, "that in an interview which I had in Washington last September with ex President Harrison, one of our greatest lawyers and statesmen, whose recent death the country is now lamenting, discussed some constitutional question not now necessary to mention, and a reference having been made to the South African struggle he suddenly turned to me, and with much feeling and impressiveness, said: 'Governor Hill, I am an American and my sympathies are with the Boers. I can not help it.'"

"It was an impromptu expression of patriotic sentiment, creditable alike to his head and his heart, which I shall always remember."

STATE NEWS.

The Blue Jacket mine is now sinking on the 800-foot level with \$25 values.

The Clearwater county bill has not yet been acted upon. The time limit ends tomorrow.

An expert Mr. Danby, of Spokane, is now in Lewiston looking over his company's newly acquired oil fields.

Grangeville has nominated the following trustees for the ensuing term: Geo. K. Reed, Dr. S. E. Bibb, S. E. Sherwin and W. W. Brown.

A hold up occurred last Tuesday near White Bird. The victims were Clyde White and Frank Smith. They were robbed of \$160 by three unknown highwaymen.

Col. Danford, of Lewiston, has engaged the services of Jack Hammond and will install him as foreman over the development work about to commence on the Idaho Chief group on Salmon river.

The 10 year old son of W. E. McCready, of St. Idaho, accidentally shot himself with a rifle last Tuesday. He was climbing over a fence when the gun caught somewhere and exploded, the bullet entering his abdomen. His recovery is despaired of.

The Review of Saturday morning contains a long article declaring that the "Rev. Chas. McLean," who is in Spokane, claiming to be the leader "Schlatter," is a rank fraud. The Review bases its judgment on the fact that the gentle-

man in question is in the habit of telling conflicting stories, which "Schlatter" denies.

Lewiston, March 19.—The Commercial club elected the following officers at the annual election to-night: President, E. H. Liddy; vice president, E. P. Dorris and J. W. Poe; treasurer, George H. Kester; governing board, A. H. Alford, R. C. Beach, O. A. Kjos, S. L. McFarland and B. F. Morris.

Moscow, March 19.—Leases for lands above Palouse to the amount of 1050 acres for oil exploration have been sent to Auditor Larson for record by the lessee, E. M. Newcomb, who is reported to be acting for Spokane men.

The parties leasing are Albert Howell, F. C. McLaw, Albert Colburn, J. H. Herfeld, Edmund Bradley, Francis M. Adair and David Notman.

The leases are given for two years but the work of exploration must be begun within one year. Even if no discovery is made within two years of the lease, it can be continued one year upon the payment of 50 cents an acre to the owner. If oil, gas, coal, artesian water or minerals be discovered the lease provides that the owner shall be given 10 per cent of the product of the well or works. The leases provide for a continuance for 50 years if mineral is found.

Plats of the amended definite location of the Camas Prairie extension of the Northern Pacific have been received at the land office, having been approved at the general land office. The plat shows the line to be eighteen and one-half miles in length, extending from Stites to the mouth of Three Mile creek, thence up said creek to the prairie. The end of the survey is in section 9, township 30 north, 3 east, at a point one and one-half miles from Grangeville and two miles northeast of Mt. Idaho, on the land of M. Cambridge. The map shows that in securing the grade a loop of seven miles is made to gain a half mile and a second loop of two and one-half miles to gain a half mile is made. The prairie level is reached at a point near the reservation line. The plat was approved February 25, 1901.—Tribune.

Clearwater News.

Farmers are making preparation for their first crop of the 20th century.

Clearwater is having some very nice weather at present.

The health of our town and vicinity is very good.

County surveyor, H. H. Pogue, has moved from here to Grangeville to reside.

There was preaching here last Saturday and Sunday by Rev. C. R. Chase.

Come to the Clearwater if you want to live in a good lively wide-awake town.

Farmers sometimes in planning work for the season do not make sufficient allowance for wet weather, and other unavoidable causes of delay. The safe plan is to hedge against such contingencies by commencing early and keeping steadily at it as long as conditions will permit, and beginning again as soon as you can.

Our town and community is enjoying right good health now, no one dangerously sick about here.

If the farm is getting too rich to raise small grain, rent it. That will fix it in short order.

A number of Clearwater boys have gone into the poultry business.

The average woman who is a wife and mother, with a home to take care of, cannot engage in profitable work outside of her home without detriment to her domestic interests. If she attempts it either the machinery of the home itself, the wisest training of her child or children, or her own mental growth or physical strength will suffer. There are exceptions, but superlatively clever women are rare—about as rare as superlatively clever men.—Edward Bok, in the March Ladies Home Journal.

Remarkable Cure of Rheumatism.

From Vindicator, Rutherfordton, N. C.

The editor of the Vindicator has had occasion to test the efficacy of Chamberlain's Pain Balm twice with the most remarkable results in each case. First, with rheumatism in the right shoulder from which he suffered excruciating pain for ten days, which was relieved with two applications of Pain Balm, rubbing the parts afflicted and realizing instant benefit and entire relief in a very short time. Second, in rheumatism in thigh joint, almost prostrating him with severe pain, which was relieved by two applications, rubbing with the liniment on retiring at night, and getting up free from pain. For sale by all druggists.

GENERAL NEWS.

The convict mutiny at Leavenworth, Kansas, has been suppressed.

Male students numbering 339 and 337 women students were arrested last Tuesday in St. Petersburg, Russia, for riot.

General Botva has refused to accept the British terms of peace and negotiations between the two powers have again been broken off.

The situation in China is growing more critical every day and it is not amiss to look for war between the powers there in the near future.

The Great Western has announced an immigration rate of \$10 from Kansas City to St. Paul for Tuesdays, March 19 and 26 and April 9 and 23.

Transports containing troops for Manila will leave San Francisco as follows: Hancock, March 25; Buford, April 1; Kilpatrick, April 5; Logan, April 15.

A snow storm raged over nearly the entire Missouri valley the early part of the week, taking in the states of Iowa, Nebraska, South Dakota, Wyoming and Kansas.

"By the first of next June Dawson City will be connected with the outside world by direct telegraphic communication and that city of the mines will be a truly modern community with all the advantages of the twentieth century," says J. J. Hartman, postmaster of Dawson City.

It is expected that a protocol extending the time for ratifying the reciprocity treaty between the United States and the Argentine Republic will be signed at an early day. This treaty was one of those pending before the senate when it adjourned. The period for ratification runs until next May.

If the view of the administration is supported by the next congress, the president will obtain discretionary authority to acquire either the Nicaragua or the Panama canal route. On this account the stock of the Panama canal has risen since the adjournment of congress. Several prominent members of the senate foreign relations committee cordially favor the idea of empowering the president to choose the route he thinks the more advantageous, although the bill which passed the house and was pending before the senate during the last session provided for the adoption of the Nicaragua project.

During the consideration by the senate, of the act providing for the administration of the Philippines the amendments requiring United States officials in the islands to take an oath to support the constitution of the United States and that such officials in their public acts shall be subject to the constitution, as far as applicable, were voted down the usual majority. Similar amendments designed to secure the Filipinos from the arbitrary acts of officials appointed as their rulers and to assure the natives of personal and political rights that their rulers could not disregard, were also defeated. Under the law as it now stands the Filipino people have no rights, whatever of person, property or civil conditions except such as the appointees of the president may see fit to accord them.

Boise, March 19.—Governor Hunt again used his veto liberally today. It fell on four measures. One of these was a bill to amend the charter of the Boise independent school district. The governor holds the measure unconstitutional in that it extends special privileges not embraced in the original charter. His contention is that there can be no amendment of a special charter excepting such as are in harmony with the general law of the state. Other bills killed were: A bill amending the charter of Lewiston enlarging the powers of the police magistrate; the pharmacy measure and the bill giving incorporated towns the power to bond for a greater percentage of their assessed valuation. The bill giving larger powers to trustees of incorporated towns was signed.

St. Paul, March 19.—For the first time since the homeseekers' excursions began in February the first day's movement of the week necessitated the sending out of all the coast trains in two sections. All four trains were filled and the late trains today brought enough passengers west bound to insure two sections, if not three, for each of the Northern Pacific and Great Northern trains tomorrow.

Today's west bound homeseekers travel was above the standard. The trains carried about 1000 homeseekers, a majority of them being destined for Washington.

Advices received tonight indicate that at least four extra trains will be required to carry off tomorrow morning's accumulation of intending settlers.

On Tuesday next the railroads anticipate an unusually large movement, owing to the specially low rates in effect on that date from the south and east. "It would not surprise me," said a passenger official yesterday, "if it would be necessary to provide transportation facilities for 5000 persons in the next week's movement. A good deal will depend upon the weather, but the season of spring is fast approaching and the homeseekers are impatient to get into the west. Low rates will bring out many travelers who have waited for them and a great rush will result."—S R

WINTER HOMES IN VINELAND

Are enjoyed by scores of ranchers and miners. They make garden homes here for their families because of the excellent schools, churches, mild and healthful climate, good roads the year round, near neighbors, social advantages, pure cheap water, and all the rest that go to make life worth living. The fine gardens and orchards and poultry on the two to ten-acre tracts make a good living for the families. The ranchers and miners keep up their business on the hills and in the mountains and make their money there. Is this plan of living worth your investigation? Write a postal card for our new illustrated pamphlet, Or, better, come and see for yourself.

LEWISTON WATER AND POWER COMPANY.
Clarkston Wn. Lewiston Idaho.

NOTICE FOR PUBLICATION.

Department of the Interior, Land Office at Lewiston, Idaho, March 14, 1901.
