Influenza Under Control

An epidemic of influenza which has threatened Cottonwood for the second time the past ten days has been checked by local physicians and all of the cases reported to the local doctors with the exception of one have been in the mildest form. Patients effected with the disease are now all on their way to recovery. There is no cause for alarm and in a few days the malady will again be exterminated in Cottonwood.

Better Banking Service for Farmers

A vast fund, now aggregating a thousand million dollars, has been assembled by act of congress to stand back of the farming and business interests of the country.

This fund is the Federal Reserve Banking System, of which we are a member, and it enables us better than ever before to supply our farmers with the credit and currency they need for producing crops and to protect them against disorganized markets.

If you are not linked up with this system as one of our depositors come in and let us tell you how it helps you.
