**A SONORA FOR CHRISTMAS**

A month ago most of us were planning to limit our Christmas giving to the least that we could "get by" with; today we feel like celebrating Christmas as we never did before.

We feel like celebrating it by making the presents we give more worth while than ever so that in years to come wife or husband will point to it with pride and say, "That's what I got the Christmas after the war was won"

There isn't a better present than a SONORA. It will please day after day and year after year; there is no other satisfaction like that of having such a fine musical instrument as the Sonora in the home.

The Sonora is a remarkable instrument so accurately and perfectly does it reproduce both the human voice and the most delicate shades of tone color as to defy detection from the original voice or instrument.

The SONORA is a talking machine with all the scratching and screeching eliminated. It brings to your home, not an imitation of the great voices or instrumental music of the master, but the REAL music itself. It is a perfect reproducing machine with the "mechanics" left out.

We want you hear it and judge for yourself. This is your invitation to come to our store at any time and hear the latest records. There will be no obligation to buy. We want Gem county people to hear and know the SONORA. We will gladly demonstrate it. Plenty of easy comfortable rockers in which to rest while enjoying a real musical treat.

**Her Xmas Present**

The giving of a life insurance policy to a wife as a Christmas present is both sensible and sound in economic principle. Many presents are quickly perishable, many are only glittering baubles, but a life insurance policy that provides a lifelong income for the wife is of lifelong endurance. A policy of that character is a retainer of the home and the fireside circle. Without it, Christmas joys, and indeed a mother's hopes and plans for the happiness and the education of her children, may perish when the father goes.

Therefore, whatever else of usual Christmas giving is done by the father, he should give, as his choicest offering, not only that which assures the continuance of Christmas joys, but also that which will make certain the wellbeing of mother and children through all the coming years.

The old reliable Mutual Life Insurance Co. of New York is selling income policies, which provides a stated monthly income for those left behind when the head of the household is taken away.
