MRS. G. A. WARDEN,

#### Letter to My Pupils

My Dear Little People: Every day I keep hoping to see you, everyone of you back in school again, for your desks are very lonely without you, and I feel so myself. But when we pass the flags for our singing, we lay one on every desk, so I want you who are at home to know that we think of you, and if any of you are sick, hurry and get well and come back to good hard work, for we have much of it to do, and many children are here every day and working hard, and we are also sewing many different kinds of pretty cards. Next Friday afternoon, Dec. 6, is our Feast Day. We have lots of goodies on hand and 25 little folks who have not missed school or been tardy. So you hurry up as soon as you can, for I hope you are too smart for the old Flu to catch you, and I'm hungry to shake hands with all my flock in our old-time, many-time fashion.

Ever true, Your Teacher,

#### Bolsheviki

Editor Index: Owing to the word Bolsheviki coming into general use I would like to place before your readers the correct pronunciation of the same. Most users of the word sound the "P", calling it Bol-she-viki. The "P" is silent and should be pronounced Bo-she-vek, with the accent on the second syllable. I think the world in general would be benefited if the letters were all silent. The original meaning of the word is majority. We have a large following of the latter meaning, which is rule or ruin, and Roosevelt, Penrose, Lodge, Smoot and their like constitute the leaders in America. The boys have gone over there and fought, and many died, now they want to slip out from under and make them pay for what should have been paid as the war progressed.

A Quiney girl returned from a dance recently at about 3 a. m. and could not be awakened for work. The alarm clock had no effect, nor did repeated calls from members of the family. Her little brother tooted the reveille, but the girl was no soldier. Finally "The Star-Spangled Banner" was played, and to that the patriotic girl immediately responded.—Boston Globe.

### TEXAS PHYSICIAN DECLARES TANALAC IS WITHOUT EQUAL

Says It's Best Reconstructive Tonic To Be Had For Building Up Influenza Patients.

Says It's Best Reconstructive Tonic To Be Had For Building Up Influenza Patients.

The following letter from Dr. J. W. Sandlin one of the most prominent physicians of Southern Texas, was recently received at the Tanlac office and gives indisputable evidence as to the value of Tanlac as a reconstructive tonic for persons who are recuperating from the after effects of Spanish Influenza. His letter follows:

Humble, Texas, Nov. 5, 1918.

"Dear Sir—Just a few lines in reference to Tanlac. I have found your preparation to be a wonderful reconstructive tonic, and in my opinion it has no equal in its class. I have found it to be the best tonic to be had to build up my patients who have had Spanish Influenza. I have treated within the past month about fourteen hundred cases, and have never been able to get sufficient Tanlac to supply our people.

"Yours very truly,  
(Signed) Dr. J. W. Sandlin."

Dr. Sandlin not only enjoys a very large practice as a physician, but he is also a man of wide influence and ranks as a leading citizen of the enterprising little city of Humble, Texas.

As a practicing physician of sixteen years experience Dr. Sandlin was quick to recognize the superior tonic properties of Tanlac over other remedies and unhesitatingly and voluntarily gave Tanlac his unqualified indorsement.
