WHY COLDS ARE DANGEROUS.
You are often told to "beware of a cold", but why? We will tell you: Every cold weakens the lungs, lowers the vitality and paves the way for the more serious diseases. People who contract pneumonia first take cold. The longer a cold hangs on, the greater the danger, especially from the germ diseases, as cold prepares the system for the reception and development of the germs of consumption, diphtheria, scarlet fever and whooping cough. The quicker you get rid of your cold, the less danger of contracting one of these diseases. Chamberlain's Cough Remedy has a great reputation as a cure for colds and can be depended upon. It is pleasant to take.

The Woolsack.
The woolsack is the big red bag, without back or arms, on which the lord chancellor sits when presiding over the deliberations of the house of lords. Its origin is curious. An act was passed in Elizabeth's reign prohibiting the exportation of wool, and to keep this source of national wealth in their lordships' minds the kindergarten notion of making them sit on wool bags was tried. Nowadays, when a new chancellor is appointed he is said to be appointed to the woolsack and to sit on the woolsack.

The Inspired Compositor.
"The doctor felt the patient's pulse and declared that there was no hope."
—Boston Evening Transcript.

Santa Not Enemy Alien.
Of what nationality is Santa Claus? A friend asks. Of almost every nationality, we would say. If you mean to ask the derivation of the name, it is a corrupted form of the Holland Dutch name for St. Nicholas and has no "enemy alien" taint. The saint himself was a native of Patara in the province of Lycia, Asia Minor, and was bishop of Myra in the same province.

Queer Find at Pompeii.
A soap-boiler's shop was among the things discovered in the excavation at Pompeii several years ago. The city was buried beneath volcanic ashes A. D. 79. It is said that the soap found in the shop had not lost all efficiency, although it had lain under the ashes more than 1,800 years. Soap making was quite a business in a number of the Roman cities at the time that Pompeii was destroyed.

Eldridge's Double Service Work Shoes
These shoes are built to meet the demand of the farmer, miner, and herder for shoes that will give extra service without being too heavy and clumsy. They are made of extra plump, healthy hides, especially tanned to make the leather proof against the acids of manure, at the same time leaving the leather soft and pliable.
They are made on a comfortable and good looking last, chocolate brown color, Goodyear welt, half bellows tongue, double leather soles. They will easily outwear two pairs of ordinary work shoes, \$6.50 and the price, postage paid, is only \$6.50.
If a lighter weight shoe is preferred, send for our wonderful outdoor shoe, at the same low price, made of tan California calf, genuine Munson army last, single oak leather sole, C, D, and E widths.
Either shoe is absolutely guaranteed to give satisfaction. Send for a pair on approval. Be sure to state size wanted and give name of this paper.
