During the illness of Axel Swanson, night miller at the Kendrick Flour mill, Oscar Raby has had care of the mill at night, while his father keeps it running during the day time. This is a very responsible position for a boy as young as Oscar, but he is getting away with it in good shape.

The cold days and nights for the past two weeks have been very favorable for the ice harvest. The local icemen are putting up ten inch ice this week and it is of extremely good quality. Last winter was too warm here for putting up ice but the exceptionally cold weather lately has been just right for those who have ice houses.

Jeff Buckles of Lewiston arrived in Kendrick the first of the week to look after business matters.

The Kendrick Hardware Co., is making a set of four dust collectors to be installed in the local flour mill. They are made of galvanized iron, are about six feet in diameter at the base and approximately twelve feet high and shaped like a funnel. It is a job that ordinarily would have to be sent away, as the average small town would not carry the equipment necessary to construct flour mill dust collectors.

Armenian Relief Drive.

The drive for the purpose of raising funds to relieve the distress of three million Armenians and Syrians in Asia, will be started Sunday, January 12. John Waide has been appointed to take charge of the work in Kendrick precinct. The quota for this precinct is \$215, which amount should be easily raised. It is estimated that at least one million Armenians and Syrians in Turkey have perished during the past two years from massacre, deportation, exposure, starvation and disease. Three million are now homeless and are in dire distress. Four hundred thousand of those in need are orphans. Little children scarcely able to feed themselves live absolutely alone in deserted homes. Seventy-five thousand children under twelve years of age are starving in Syria and the Lebanon alone. Sufferers in the Lebanon district recently were dying at the rate of 1,000 a day.

Every dollar contributed goes for relief, none for expenses. It is said that three dollars a month will save a child and five dollars a month will save its mother.

What are you going to do to relieve their distress?

Ring out the ban,
Ring in some glee—
The "flu" is fleeing,
Let it flee.

Madison Lumber and Mill Co.

WARNING

Again the time is here when those pesky "Bargain" sale catalogues are thrust among us and senders fondly imagine they are seeing a chance to work the accumulation of "Dead Stock" of their past years business.

Don't be "taken in" by their sweet pleadings, for if you want to buy furniture during January and February, you can buy it from the Kendrick Furniture Company at the same price, or less, and you won't be put to the bother of placing your order while the roads are good, and then waiting to haul it home when we have nineteen and three quarters inches of mud and rocks to drag it thru.

Don't wait, buy it now, and take it with you.

Heed the warning, lest it be too late.
