KENDRICK GAZETTE

Ralph B. Knepper, Publisher

Entered as second-class matter 1892 at Kendrick, Idaho, under the Act of Congress of March, 1879.

There is every prospect for a big wheat yield this season. With two short crops in the past two years it would be no more than reasonable to suppose that the 1919 crop will be a bumper. With the present fixed price for grain the chances are very favorable that the farmers will experience a very prosperous harvest season.

The past year marked the death or consolidation of 1,954 papers. Their demise was occasioned by the high cost of paper and other material, scarcity of competent help and increase in wages.

With Wilson and Taft, two of the greatest American statesmen, backing the League of Nations, the chances are greatly in favor of the League being formed, in spite of the partisan opposition of the Senate. It is generally believed that public sentiment is strongly in favor of the League of Nations and this being the case the partisan members of the senate will quite likely glean carefully the hand writing on the wall before they cast their final vote against the will of "the folks back home." Wilson and Taft are united in fighting for a principle. Narrow partisan issues do not enter into the matter with them. They believe the formation of the League of Nations is the culmination of all that the United States has fought for in the World War and are using their united efforts to make America a part of the League. It is safe to say that they will just about have their own way about it.

Big Bear Ridge

Too late for last week.

Otto H. Gladden who enlisted in the Naval Aviation Corps, December 6, 1917, returned home Saturday. He is the first from this precinct to return from overseas. He received his training at San Diego, Cal., was sent to Killingholme, England, where he was stationed when the armistice was signed, returning to New York in December. He was one of the first volunteers from this place, to do his utmost in helping make the world safe for Democracy. His many friends are pleased to see him in their midst, and his patriotism will always be remembered.

A. J. Aas received a letter from his son, Ingvald, stating he had arrived safely in France, and he would soon be leaving for the U. S. A. this being his third trip overseas.

James S. Nelson spent last week in Moscow visiting his daughter, Miss Stella and son Alfred, who are attending college there. He also attended the extension meetings at the U. of I.

Mr. and Mrs. Chas. Bowers of Avon were visiting at the A. Galloway home last week.

Rev. A. Holbeck left for Spokane Monday to attend a conference meeting.

Mrs. Ole Lien entertained the Lutheran Ladies' Aid Modnay afternoon.

Mr. and Mrs. Hans Sneve were given a pleasant surprise Wednesday the 19th, when a large number of relatives came in to spend the day with them. The occasion was in honor of their 30th wedding anniversary.

A sumptuous dinner was served by the guests. Everyone went away wishing them many more such happy events.

Misses Emma and Neva Nelson entertained about twenty young people Monday evening. It was given as a farewell party in honor of their brother, Hartwick and Joseph Berg who departed for their homes near Conrad, Montana, Tuesday. Music, singing and games afforded everyone a good time.

A dainty lunch was served about midnight. That everyone enjoyed themselves was shown by the wee sma' hours of the morning when they were homeward bound.

The Girls' Sewing Club held their annual business meeting at the home of Misses Clara and Anna Lien Friday afternoon. Officers were elected for the ensuing year and various plans were discussed and decided upon.

METHODIST CHURCH

Young People's Service 6:30 p. m.
Preaching 7:30 p. m. Subject: "Who passing through the valley of Ba-ca made it a well."
by Rev. J. C. Gregrog.

Come to The Tractor School

And Learn How to Get Better Service Out of Your Tractor

If you have none, come anyway, if you are interested in power farming.

Who Teaches and What is Taught

The school is to be conducted by practical tractor men who have had long experience in handling farm tractors. They will give lectures on many subjects of interest to tractor owners and those interested power farming. Some of the points that will be brought up are: What takes place inside of an engine when it is in operation; why it is necessary to follow certain instructions laid down by the manufacturers of a tractor; the symptoms of a tractor or engine which indicate trouble; how to prevent this trouble; how to look for causes of trouble and not overlook them. Many other subjects you will want to hear about will be discussed at this school.

The school is free to anybody interested in power farming. All the material necessary for the school work will be furnished.

There will be nothing offered for sale at this school, nor will there be any selling talks. The school is conducted simply for the benefit of those interested in power farming in order that they may have a better knowledge of what a tractor can do and how to get the best possible service from it.

All the lectures will be illustrated with charts and diagrams. These have been prepared with the idea of making them as clear and easily understood as possible. In addition to this an opportunity will be given all who come to ask questions on any points in which they are interested. Demonstrations will be made from tractors and engines themselves and special attention will be given to instructions in repairs and adjustments.

In order that every man who attends this school shall be able to take away with him everything that is taught in the school, a book containing all the subjects taught in the school will be given away to each person who attends. This book can be referred to after you have returned to your home.

The School will be conducted at the store of the
