Patriotism Keynote of Platform of Body Created to Squelch Disloyalists

Boise—The One Hundred Percent American club of Idaho is something new in the political firmament. It has been launched to fight the Non-partisan league, holding that many of the leaders of the league are dishonest and disloyal. A. C. Townley and Arthur LeSeuer are named in the platform.

For its first officers the One Hundred Percent American club of Idaho has chosen H. B. Bowers of Meridian, president; M. I. Church of Boise, secretary; Joe Perrault of Boise treasurer; David Farmer of Ada county, vice president. The executive committee is composed of W. R. Mitchell of Parma, A. J. Cramblett of Gooding county, George M. Evans of Ada county, John Julian of Ustick and Frank J. Clayton of Boise.

Arrangements have been made to open headquarters in the Owyhee hotel in this city where President Powers will be in charge during the campaign. It is proposed to enlist the farmers in the organization as rapidly as possible for the purpose of making an aggressive fight for Americanism. It is claimed that there are now 800 members in Ada county, 600 in Gooding and 700 in Canyon.

Patriotism is made the foundation of the platform of the new organization and a call is issued to all loyal citizens of Idaho on the farms, in the mills, in the mines, in the towns to join in the movement.

In its war on the Non-partisan league it is proposed to fight organization with organization. There are no dues, fees or assessments of any kind in the One Hundred Percent American club of Idaho, but all members are invited to contribute what they can to the cause.

BIG ENROLLMENT AT UNIVERSITY OF IDAHO

ALL RECORDS FOR ATTENDANCE AT STATE SCHOOL ARE SHATTERED

AG COLLEGE IS TREBLED

Many Students Sign Up for Mine Department—Co-eds in Domestic Science, Music.

Moscow—Every department in the University of Idaho shows increased enrollment over last year and all previous years. This is especially true of the college of agriculture and the school of mines. But while these departments lead, there is marked increase in enrollment in every other department of the school, including those of domestic science and music.

The enrollment in the agricultural college is more than three times as large as last year, and a number more students are expected. This does not include the short course, which opens Monday for a term of five months.

The school of mines of which Dean F. A. Thomson is head, shows a record-breaking enrollment. The Coeur d'Alene mining district is sending a great many young men. The offer of Jerome J. Day to give scholarships in this school is having the effect of greatly increasing the attendance.

President Lindley, who is one of the busiest men in the northwest, and is only getting from four to six hours sleep out of twenty-four is well pleased with the outlook. He said:

"The enrollment is very encouraging. We will have all the students we can care for. We will not take more than can be accommodated well, for we would prefer to have 500 well cared for than 1000 crowded into the school and not given the proper accommodations. The outlook is indeed encouraging."

DOWN BOLSHIEVIKI TO KEEP SCHOOLS INTACT

STATE COLLEGES NO PLACE TO SPREAD THE DOCTRINES OF SOCIALISM.

MENACE TO THE FUTURE

Governor Appoints Board of Education and Educational Commissioner—Has Tremendous Power

Boise, Oct. 16.—What is regarded as one of the strongest arguments against the attempt that is being made to establish socialism and a bolshevik government in Idaho has been put forward with relation to the schools of Idaho. It is pointed out that if the attempts to fasten socialism on Idaho succeed, the state university, as well as all the other state educational institutions and the public schools of Idaho, will be invaded in the interests of the distribution of socialistic propaganda.

Governor Controls Schools.

The governor of the state appoints the members of the state board of education and it appoints the commissioner of education for Idaho. If the governor were inclined toward socialism he would appoint members to that board in harmony with his views, greatly to the detriment of the schools of the state and therefore to the state itself.

A number of leading women's organizations over the state who have no connection whatever with politics, are seriously concerned over this possibility. Although heretofore they have taken no interest in the present campaign they are now actively opposing all political instrumentalities that directly or indirectly lean toward socialism.

Women Up in Arms.

"This is more to us than politics," said one woman. "It goes to the very foundations of our schools and into all our homes."

"We simply must keep our schools

free from the dangerous doctrines of socialism and we must elect men to office who are in no way tainted with it and who are not under the influence of men in this state or any other state who are known to be socialistic."

A BEAUTIFUL WOMAN.

Do you know that a beautiful woman always has a good digestion? If your digestion is faulty, eat lightly of meats, and take an occasional dose of Chamberlain's Tablets to strengthen your digestion. (Adv.)

PACK SUPPLIES TO THE HUMP

Seven Thousand Pounds Weekly Being Taken to Mining District.

Large quantities of supplies are being packed from Grangeville to the Buffalo Hump mining district, according to Mackey Williams, of Mount Idaho, who is operating a pack train of thirty mules from Grangeville to the hump making one round trip a week. Already four trips have been made, and Mr. Williams said he expected to make at least two more. Seven thousand pounds are carried each week.

Most of the supplies are going to the Union Jack property, which is being operated by Elder & Rudolph. The property belongs to Joe Pelikan of Spokane, but is in charge of Elder & Rudolph, who recently took over the property, and expect to work it all winter. Eight men now are at work at the Union Jack.

The supplies that Mr. Williams is packing to the south slope of the hump are for George J. Bancroft, who has mining properties on Crooked creek.

ONE DELIVERY DAILY.

Beginning next Wednesday, but one delivery daily will be made over each route by the Grangeville stores, in compliance with government request for conservation of energy. The request was issued through M. L. Ayers, director of commercial economy.

DENNY SELLS SMILE BOOKS.

At the solicitation of the associate director of the commission on training camp activities at Washington, D. C., Doc Denny has reconsidered his resignation as local salesman for Smileage books. He will soon have a new supply of Smileage books, to be sold for the benefit of soldiers.

HOUSE CONSERVATION

A house that is well preserved looks good even if it not the latest style of a house. It is far easier and cheaper to keep a house in constant good repair condition than to let it run down and then repair it all at one time. Parts subject to rot will do so very quickly if exposed to the elements. A leaky roof, if not attended to promptly, will cause expensive damage to the ceilings, walls and floors. A house that is simply let alone will not only run down and look dilapidated, but will go to ruin in a comparatively short time. Inspect your house from wall to roof. If you will
