It comes from Boise that Mr. DeLamar named Joe Hawkin as the most suitable man to succeed him as World's Fair Commissioner. We shouldn't wonder.

Blackfoot can furnish a capital good man for World's Fair Commissioner, but we don't know that the Blackfoot man would accept the appointment. The Governor has never scattered many appointments broadcast from Bingham, but we can tell him if he misses this opportunity, he will regret it in 1893 when the Fair is in full operation.

Rev. J. Wesley Hill, of Ogden, got himself in trouble in Massachusetts by meddling in politics. No matter for him. Good Advice. [Muncie Herald.]

Some men think that if they can only get into politics their future is fully settled and that life for them ever after will be one round of pleasure and contentment. Let no young man, for a moment, think that such is the easy way of the politician.

We always did like to gnaw a tender "spare rib." But it has been a good many years since we worked with a "rib" of this kind, and even then we never heard a "crack." An Alexandria physician was called to attend a young woman. On examination he found a rib fractured, and the young woman blushingly admitted that her sweetheart had given her a tight squeeze a few nights prior and that she felt something crack, but didn't know what it was.

It pays to have a specialty. Miss Carrie Sumner, of Holyoke, Mass., when at Smith college made a specialty of Greek, and so far surpassed in that study that she quickly obtained a fine situation in a Pennsylvania school to teach Greek only, with short hours, good pay, and from her thorough knowledge of the branch, little weariness or care.

ONE WOMAN.

Let the curtain fall Over her pall- That is all. She had no glorious name; Here was the humblest fame To live in solitude. Unwrit, and there do good, As women do.

High kicking is not so popular in dancing as it used to be, but there are lots of girls who can outkick the best men in the business. Women, you know, are better dancers than men anyway, and they know how to encourage flexibility of the muscles better.

Girls kick differently from men. Men will run and spring up into the air with a hitch, and then kick their foot upward while they are in the air. That isn't a kick at all. Watch a girl, and you will see her raise her skirts to her knee and stand squarely with both feet on the ground.

What Bernhardt Has Earned. What are the earnings of a theatrical star? A French contemporary asks, and points out in the case of Mme. Sarah Bernhardt the "takings" of a quarter of a century have amounted to 6,516,000 francs, to which, after her return from her present tour in America, another 2,000,000 francs may confidently be added.

Then came the first American tour, whence she returned with a clear profit of 800,000 francs, and henceforth the flow of the hundred thousands has never ceased. Considering that poor Cornelle in his old age has not the wherewithal to buy a pair of shoes, one may well be surprised at the progress of civilization as expressed in the fortunes paid to a great actress.

It is very much the custom of thrifty housekeepers, when moving from town into the country home for the season, to carry along a goodly supply of silk covered divan pillows borrowed from the lounges of the town house. When these pillows are incased in delicately tinted silk the hard, double wear of winter and summer is apt to shortly render them unfit for use.
