**Ayer's Sarsaparilla**

"Several years ago, my blood was in bad condition, my system all run down, and my general health very much impaired. My hands were covered with large sores, discharging all the time. I had no strength nor energy and my feelings were miserable in the extreme. At last, I commenced taking Ayer's Sarsaparilla and soon noticed a change for the better. My appetite returned and with it, renewed strength. Encouraged by these results, I kept on taking the Sarsaparilla, till I had used six bottles, and my health was restored."—A. A. TOWNS, Prop. Harris House, Thompson, N. Dak.

### Children's Day Celebration.

Children's Day was celebrated by the members of the Baptist Sunday school, Sunday evening last. The church was beautiful with floral decorations and an overflowing audience greeted the little folks in their varied programme of songs and recitations.  
Blackfoot always does itself honor when called upon to give encouragement to the little ones in their school efforts before the public, and the officers, teachers, and pupils of this school will have occasion to remember with satisfaction the crowded audience and respectful attention given them in appreciation of the rendition of their annual celebration.

### Mailing a Stamp.

How many people know how to mail a stamp in a letter? Nine people out of ten stick it so carefully down that the recipient always loses his temper and generally the stamp in his effort to release it. It is really more exasperating than when the sender forgets altogether the stamp he should have enclosed, for then, at least, it is not wasted. Even the most extravagant of us seldom have souls above saving a stamp, for it is, strangely, far dearer to us than the two cents it represents. The tenth person sends it loose, which is well enough, providing it does not slip out unseen and vanish, as these totally depraved small things have a habit of doing. The proper way is a simple one. Cut with a sharp penknife two parallel slits at the top of your letter and slip in your stamps, which will thus travel as safely as if in a special paper case. Perhaps you have been in a country village where money orders and postal notes are unknown, and for some reason it becomes necessary to send change in a letter. Cut a piece of light cardboard the size of the envelope, and from this cut circular pieces the size of your coins. Insert the coins and paste a slip of paper across one or both sides.—Demorest's Magazine.

Where are you going, my pretty maid?  
"Up to the drug store," she said.  
What do you need at the drug store, pray?  
A package of Tea I need to-day.  
Is that what makes your skin so white?  
Certainly, sir, for I take it each night.  
Now maiden fair, what may this be?  
Why, silly fellow, of course, PARKS' TEA.

Some people are constantly troubled with pimples and boils, especially about the face and neck. The best remedy is a thorough course of Ayer's Sarsaparilla, which expels all humors through the proper channels, and so makes the skin become soft, healthy, and fair.  
The new Chicago canal is to cost about \$20,000,000. When it is completed it will discharge from Lake Michigan into the Illinois river 10,000 cubic feet of water per second, which is about 5 per cent. of the volume flowing through the Niagara river. Mr. Cockburn, of Toronto, has called the attention of the Canadian Government to this fact, and intimates that it is a subject worthy of the attention of the hydraulic engineers of the Dominion. The ill consequences, if any, are of a very remote character. In case Chicago should conclude hereafter to cut a huge waterway straight to the Mississippi river, she might desire to use water enough to affect to a damaging extent the level of the Great Lakes. Who knows whether such a thing may not yet be done.—Advocate.

### I Knewed Them Eyes wuz Ellen's.

They driv a kerriage to the door  
An' out of it a lady got.  
All dressed in silks and furbelows,  
An' walked right up to whur I sot.  
Ses she, "I come from Obedstown,  
I'm huntin' fer a Cap'n Brown."  
I looked, and when her face I see,  
Thinks I, "No, marn, you kaint fool me."  
I knowed them eyes wuz Ellen's.

My darter, married twenty years  
An' gone to live in Idayho;  
She'd growed an' changed, but then, law me!  
Queer ef a mother wouldn't know—  
Her hair was teched a bit with gray  
An' mebbe she wan't quite so gay;  
A leetle stoutier in her size,  
Yit, as I looked in them blue eyes,  
I knowed them eyes wuz Ellen's.

An' so I ris right up at once  
An' grabbed her close and hilt her tarts;  
An' she sez, "Mar!" an' I sez "Nell!"  
An' then we hugged with all our might;  
For time might ketch me on some things,  
Consid'rin' all the change it brings;  
But when I looked I knowed her shore—  
I seen my baby's eyes once more—  
I knowed them eyes wuz Ellen's.

"For fifteen years, I was a great sufferer from indigestion in its worst forms.
