

THE IDAHO NEWS.

BLACKFOOT, SATURDAY, DEC. 23 1888.

There has been some agitation in the American press, especially in the railroad journals, of the nuisance of card playing in sleepers. The Railway Age has called upon the railroad to combine to put down or limit a practice which adds to the discomfort of the large majority of the traveling public.

In looking over the events of the year 1888 now so near its close, one will hardly note happenings sufficiently bold and startling to make it materially different from the common place years of the world's history. No great wars have been waged; no earthquakes have made the earth tremble; no tidal waves have swept over the coasts, no great pestilences have come at noonday, but on the contrary, men have lived, men have died; seed time harvest came and went and the earth revolved on its axis bringing day time and night time as in other more marked and distinctive years.

NEWS GLEANINGS.

Kate Adams, the first passenger steamer on the Mississippi river burned a few days ago and thirty-five lives were lost. The burning took place just below Memphis. A spark among the cotton bales was the cause.

The steamer, John H. Hanna running on the Ouachita river in Louisiana burned Christmas eve and eighty-six out of one hundred person aboard perished. The boat was loaded with 1900 bales of cotton.

The Idaho Legislature "excurted" to Salt Lake City after adjournment for the holidays and had a splendid good time.

St. Louis raised a \$10,000 fund for a Christmas tree for the poor children and it is estimated that 15,000 children were given presents. The tree was in the exhibition building.

Cincinnati had a Christmas fire which consumed \$350,000 worth of property.

The National Wool Growers Association will hold a called meeting in Washington, January 10th.

Reports from Washington say Utah has no show of Statehood this session of Congress.

The Methodist of Salt Lake City have built a \$15,000 school house.

After January 1st, New York will dispose of her criminals by electricity instead of hanging.

A Central Pacific passenger train was held up Christmas eve by road agents who got away with the express booty. This happened in California.

Gen. Greely, of the signal service, names January 20 to 30 as the coldest days of the winter.

Congressman O'Ferral has been announced as a Democratic candidate for governor of Virginia next fall.

About eight weeks remain for Congress to wind up the business of its session after reassembling in January. If less talk and more work be not the order of the day the public printer will not be overburdened with printing new laws for the incoming administration.

Bishop Talbot in New York.

The following is from a paper printed in Buffalo, New York, of recent date. It speaks for itself.

"An earnest, smooth-faced, handsome man was introduced to the congregation of Trinity church yesterday morning, as the Bishop of Idaho and

Wyoming. Dr. Lobball said the bishop was not on a begging tour, but what he had to say should be remembered with reference to a collection to be taken up next month.

Without ado or circumlocution the bishop pitched right in, and told his hearers what work a "Far West" bishop has to do. He amusingly said that he sometimes felt sorry for bishops in the eastern states, who had such small dioceses to look after as large in area as New York, all of New England and three or four southern states thrown in, and there is some spur to a man in his work when he has to ride 1,500 miles from one point to another. Some of

THE BISHOP'S STORIES

Were very entertaining. enlisting the earnest attention of every person even to the smallest child. He related that on one occasion he went to a mining town in which nearly all the public building were saloons or rather an unpromising place to hold meetings. He went into the street; his clerical gab betrayed him, and almost every man he tried to meet slipped into a saloon. So the bishop finally decided to follow one man into a saloon, and did so. The proprietor received him courteously and called out: "Boys stay your game for awhile; drop your chips, the parson wants to speak to you."

Introductions followed, the bishop stated that he desired to hold services. He was immediately promised that

THE BEST SALOON

In the place should be open for him. That night the room was packed, and after the meeting resolutions were passed that led to the building of a church, of a parsonage, and pledging of a handsome salary to a regular minister.

On another occasion the bishop asked a saloon keeper, in a town where a minister had never been seen, for a Mr. Robinson, says the saloon keeper. "Why I busted bronchos for him for years." He then offered the bishop a broncho, and rode with him to a ranch three miles away, found "Billy," and then started to "round up the boys for a meeting in the evening."

The bishop asked him if he could sing. "Sing!" says the man; may I ask how you came to ask that question, why, bishop,

I AM A DAISY

On the sing; can play the melodeon and fiddle; why, I am an artist. The bishop laughed, asked him to try and get up some music for the evening. The result was that the bishop found a dozen men assembled ready to sing some Moody and Sankey hymns, and never had had he heard better music. There a permanent flourishing church was founded.

Bishop Talbot said that even these rough men of the mining camps are anxious for churches and schools, provided that the right men are sent; they will not offer a permanent salary to any other minister till they have a chance to

"SIZE HIM UP"

But if they find he fills the bill, then they will stand by him. But they want a "regular hustler."

We wish we could give more space to one of the most eloquent sermons that has been heard in Buffalo for years—a sermon bold, unique, straight out, every word of which told. It is a very significant fact that before the bishop addressed the children at Sunday school in the afternoon he was waited upon by a committee of boys appointed by the choir-boys who asked him to preach a good, long sermon. He complied by telling some most fascinating stories of his experience with the people of Idaho and Wyoming. In the evening he preached to a large congregation at the church of the Ascension.

WELL DIGGER.

C. H. Hines, practical Well-digger. Removing old Curbing a specialty. Work in this line respectfully solicited.

Notice is hereby given that Jesse Anson, of Blackfoot, Idaho has filed notice of intention to make final proof on his desert land claim No. 566, for lot 1, section 31, Township 2 south of range 26 east, before the Register and Receiver at Blackfoot, Idaho, on Monday the 11th day of February, 1889. He names the following witnesses to prove his complete irrigation and reclamation of said land: Perry J. Anson, George Kimmel, Wm. Mester Lars Johnson, all of Blackfoot, Idaho. FRANK W. BEANE, Register.

DR. L. GALITZKI !!

A Distinguished German

Eye, Ear and Catarrh Surgeon, FROM CHICAGO,

Will make our town a visit and can be professionally consulted at the

Commercial Hotel

Friday, December 28, From 9 a m to 8 p m

on diseases of the Eye and Ear, AND CATARRH OF THE NOSE AND THROAT !!

The doctor has treated hundreds of Montana people and all those troubled with the above diseases, desiring to get well adapted Alaska Crystal Spectacles or Eye-glasses are cordially invited to one day, it will be to your interest to make use of this rare opportunity and call on the doctor in time. Remember the doctor is a specialist and has therefore much experience and is confident of being able to help you. Those having been given up as hopeless are especially invited to call. There is no need of being gas to consult an eye doctor. Such diseases as iritis, keratitis, granulated lids, cataract, cross-eye, and all the other eye diseases so numerous to mention, can easily and permanently be cured if they are afflicted with them will consult a specialist who treats nothing else but the eye, and who naturally has a great experience. Cross-eyes can be made straight either by an operation or by using glasses for some time. If any one is your family afflicted with cross-eye do not let it go on, thinking it will be outgrown, as that is utterly erroneous and surely will lead to entire blindness of the cross-eye. But consult right now and hear what he says.

Dr Galitzki is Agent for Montana for the Celebrated Alaska Crystal Spectacles of which he carries with him a Large Stock suitable for all different Visual effects.

The advantage of the Alaska crystal spectacles is that the lenses are pure white, have highly polished surfaces, never tire the eyes, but just preserve and strengthen the eyes so that cases are recorded where people were able to do without them the rest of their lives, after using them for some time. They are acromatic, i. e., do not make rainbow colors. They will enable the wearer to use them for hours by lamp light and yet the eyes will not get strained. The lenses will cure Presbyopia or old sight, Hypermetropia or far sight, Myopia or near sightedness, Color and Snow blindness and floating spots. The doctor has the finest and most delicate instruments to properly test the eyes and those who never before were able to get properly adapted glasses, and those who are suffering with eye trouble and those who desire to preserve the eyes up to old age should not miss this opportunity and make use of the doctors visit and consult with him before it is too late. He has a large stock of what a blessing well adapted glasses are. Often people are wondering why they have to change their glasses so often, or why their eyes tire after using them a little while. Now, the eyes of these people are not mates, that is one is stronger than the other; in fact, statistics have shown that this abnormality exists in 55 per cent. of the human race. You can find out easily for yourself whether your eyes are mates or not. Take your eye and your left eye and compare whether the vision of both eyes is alike; if not you need glasses containing lenses which compensate for each eye. When this is done you will be able to use your glasses for hours without tiring your eyes. Ladies who are usually or constantly suffer with headache, neuralgia, dizziness, etc., should know that the cause of this unpleasantness is due to defective vision of the eyes. If you have a Hypermetropia. It is like this, the eyes of such persons being not perfect, have to overstrain the muscles of the eyes, which constant strain the constitution cannot stand. But if the eyes would be put in a state of rest, they would not have to strain themselves as well as the constitution.

Those having gold glasses in which the lenses don't fit can have their eyes examined and other lenses rest.

HE TREATS CATARRH.

No matter of how long standing your catarrh should be, the doctor will speedily give you relief and cure the catarrh permanently with the most delicate instruments used in medicine and with other appliances, and effectively medicate the Pharynx. A few treatments will show you that your catarrh can be cured, when if chronic and of several years standing.

Symptoms of Catarrh.

In nearly all cases where catarrh has existed in the head and upper part of the throat for any length of time, the patient has around his patient lives in a district like that around Chicago, where a great majority of the people are subject to catarrhal affections—it extends to the windpipe and into the lungs, which convey the air into the lungs. These tubes then swell and cause an oppressive sense of fullness about the throat. They become filled with mucus, and the patient cannot breathe freely, but suffers frequently from shortness of breath.

In many cases there is a sound of crackling and wheezing inside the chest. At this stage of the disease the breathing is usually more rapid than when in health. The patient has also hot flashes over his body. The pain which accompanies this condition is of a dull character, felt in the chest, behind the breast bone, or under the shoulder-blade. The pain may come on at intervals, especially when the patient is at rest, and is usually most troublesome in the morning on arising or going to bed at night, and may be the first evidence of the disease extending into the lungs.

Very often there are fits of coughing induced by the tough mucus so violent as to cause vomiting. Later on the mucus that is raised is found to contain small particles, yellow matter, indicating that the small tubes in the lungs are now affected. With this there are often streaks of blood mixed with the mucus. In some cases the patient becomes very pale, has fever, and expectorates before any cough appears.

Occasionally small masses of cheesy substances are spit up, which, when pressed between the fingers, emit a bad odor. In other cases particles of a hard, chalky nature are spit up. The raising of cheesy or chalky lumps indicates serious mischief at work in the lungs.

Deafness, hardening and all diseases of the ear promptly at a permanently cured. Charges extremely low and within the reach of all.

At the Commercial Hotel, Friday December 28th from 9 a. m. till 8 p. m. Remember one day only.

JOB PRINTING PROMPTLY DONE AT THE NEWS OFFICE

Dress the Hair

With Ayer's Hair Vigor. Its cleanliness, beneficial effects on the scalp, and lasting perfume commend it for universal toilet use. It keeps the hair soft and silken, preserves its color, prevents it from falling, and, if the hair has become weak or thin, promotes a new growth.

"To restore the original color of my hair, which had turned prematurely gray, I used Ayer's Hair Vigor with entire success. I cheerfully testify to the

Efficacy

of this preparation."—Mrs. P. H. Davidson, Alexandria, La.

"I was afflicted some three years with scalp disease. My hair was falling out and what remained turned gray. I was induced to try Ayer's Hair Vigor, and in a few weeks the disease in my scalp disappeared and my hair resumed its original color."—(Rev. J. S. Sims, Pastor U. B. Church, St. Bernice, Ind.

"A few years ago I suffered the entire loss of my hair from the effects of tetter. I hoped that after a time nature would repair the loss, but I waited in vain. Many remedies were suggested, none, however, with such proof of merit as Ayer's Hair Vigor, and I began to use it. The result was all I could have desired. A growth of hair soon came out all over my head, and grew to be as soft and heavy as I ever had, and of a natural color, and finally set."—J. H. Pratt, Spofford, Texas.

Ayer's Hair Vigor,

PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. Sold by Druggists and Perfumers.
