Washington advices encourage the belief that statehood for Idaho is not far off. In that event we shall have a general election for state officers within 90 days after admission. It looks now that all of this will be done before June 1st.

The decision in the Test Oath case means speedy statehood for Idaho, and statehood means an early election, and the first election under state government means a hot campaign. No local issues will be raised at the coming election; it will be a straight fight from the shoulder, democrat against republican and republican against democrat. The first election will settle the mooted question—Whether Idaho is republican or democratic because both parties will put forth their entire strength to a man, and the party winning will pull down the scales.

That was a frightful calamity that befel the household of Sec'y Tracy, of the Navy, Monday morning when his house in Washington City burned and his wife, daughter, and servant perished. The Secretary himself and one daughter and grand daughter made narrow escapes but more or less injured and bruised. The fire broke out between 6 and 7 o'clock a. m., before the family awoke, and before alarm could be given escape was cut off. The sympathy of the nation is with the Secretary in his losses so sudden and shocking.

Your Taste and My Taste.

You like the spring—beautiful spring,
And flowery mead and glade—
I like the winter—rough old winter,
That builds the snow blockade.

You like the city—beautiful city,
Brilliant with electric light—
I like the town—sleepy old town
Where "tallow-dips" drive away night.

You like horses—fast trotting horses,
That trot to time and rule—
But I like that slow going animal
His cousin—the long eared mule.

You like dogs—hunting dogs,
The out-side dogs in a fight—
But give me a cat—an old tom cat
That yawls loudest at night.

You like cattle on a thousand hills,
And sheep without blemish or mote—
But give me that quiet little animal
Denominated— William goat.

You like oysters—delicious bivalves,
Whether steamed, fried or in stew—
And since I've come to think 'bout it
I believe I like oysters too.
