 Treasurer and Ex-Officio Tax Collector in and for Pioneer Irrigation District.

**In the Probate Court**

County of Ada, State of Idaho. In the Matter of the Estate of Lydia A. Moore, deceased.  
 Order to Show Cause Why Order of Sale of Real Estate Should Not be Made.

William C. Dunbar, the Administrator of the Estate of Lydia A. Moore, deceased, having filed his petition herein praying for an order of sale of the real estate of said decedent, for the purposes set forth:

It is therefore ordered, by the said Court, that all persons interested in the estate of said decedent appear before the said probate court on Thursday, the 19th day of December, 1918, at 10 o'clock in the forenoon of said day, at the court room of said probate court, at the county court house in the county of Ada, to show cause why an order should not be granted to the said administrator to sell so much of the real estate of the said decedent as shall be necessary.

And that a copy of this order be published at least once a week for not less than four consecutive weeks in the Meridian Times, a newspaper printed and published in said Ada County, Idaho, and that said publication be completed at least five days prior to said 19th day of December, 1918.

Dated November 14, 1918.  
**R. H. DUNLAP,**  
 Probate Judge.

**Unlike Topsy— Swift & Company Has Not "Jest Grown"**

Swift & Company, in fifty years of well ordered growth, has become one of the great national services because it has learned to do something for the American people which they needed to have done for them, in the way in which they preferred to have it done.

It has met each successive demand, in the changing conditions of national life, by getting good meat to increasing millions effectively, efficiently, economically, and expeditiously.

The Swift & Company packing plants, refrigerator cars, car routes, branch houses, organization, and personnel of today are the practical solutions, born of practical experience, to the food problems of half a century.

Because of all these elements working in correlation and unison, Swift & Company is able to supply more and better meat to more people than would have been possible otherwise, at a net profit per pound of meat so low (a fraction of a cent) that the consumer price is practically unaffected.

Strip away any portion of this vast, smooth-running human machine, and you make a large part of the meat supply uncertain, lose the benefit of half a century of fruitful experience, and scatter the intelligent energies of men who have devoted a life work toward meeting the needs of a nation in one vital field.

The booklet of preceding chapters in this story of the packing industry will be mailed on request to Swift & Company, Union Stock Yards, Chicago, Illinois.
