Motorists are Watching Tires This Year As Never Before

They are learning that outward appearances don't make a tire—that some tires never live up to their guarantee—

And they're learning that other tires have stamina built into them.

They're learning why Goodrich sent 42 Test Cars over 1,000,000 miles, last year just wearing out tires. Goodrich, always a lap ahead of the field, determined to know definitely whether Goodrich Tires were as good as they thought they were.

They found them better. But those Goodrich experts learned things about tires that they had never known before—things that they have now embodied into the tires on our shelves. Goodrich is watching tires—and the improvements you have made you can get only in Goodrich Road Test-ed Tires.

Save for a Purpose

During the past year and a half, you saved to win the war. There was a purpose back of your thrift and saving.

You learned that you can save, even under trying conditions. It will be easier to save from now on, and we suggest that you continue the habit of thrift.

Have a purpose for saving—more bonds, a cash capital for investment in business, for opportunity, to carry forward some plan. We invite Savings Accounts with a purpose behind them.
