#### ROSS FORK.

The social event of the season was the party given by Mr. and Mrs. Deltz on last Saturday evening in honor of Mr. Charles R. Hauke and Miss Lillian Marie Parus, whose engagement was thus announced to the public. Mr. Hauke is a son of Second Assistant Commissioner Hauke, is a graduate of the civil engineering course of the Virginia University and is employed as a junior engineer on the irrigation project here and has a bright future before him. His intended bride is a western lady and for the past two years has been the Agency stenographer. The wedding will take place early in the coming year.

The Idaho Academy base ball team came up last Saturday afternoon to play the Sagebrush nine and went home wiser than when they came. The score was 6 to 5 in favor of the home team. Until the fifth inning the Pocatello boys did not succeed in getting a single man over the plate. After that they began to play the umpire and did fairly well, as the local boys found it difficult to play against a shifting foul line where balls were fair for the Academy and "foul" in the same place for the locals. With a little more team work our boys will be ready to take on several games with surrounding clubs. The boys do not like it very well because Superintendent Estep has forbidden Sunday games on the reservation, but they will play such games with other clubs away from the reservation.

The Utah-Idaho Sugar Company's man is here this week drilling sugar beets on the land under contract with this company. Over 100 acres will be put out to beets this season by the Indians. The sugar company and the Agency people have exercised great care in making these contracts and it is hoped that the harvest will not disappoint either party. Only the best Indian farmers have been selected

to plant and they have been held down to an acreage that they can handle successfully while gaining the necessary experience to make it a greater success next year. It is expected that next year the acreage will be three or four times as large as this and in time that beet culture will be the leading industry on irrigable lands of the reservation. Superintendent Estep says that beet growing is a favorite work with the Indian farmers on other reservations and he sees no reason why it should not prove to be the same with this reservation and he is going to try very hard to make it a success.

Allotting Agent Sams and his crew are working on upper Ross Fork creek at the present time. He expects to finish in that vicinity early next week and move his camp to the old Fort Hall on Lincoln creek and work in that place for a month or more.

The Easter exercises at the Indian Boarding School on Sunday night were attended by a large audience of parents and friends of the pupils who were delightfully entertained with an excellent two-hour program appropriate to the day.

The friends of Mr. Ray Parrett are sorry to learn that he is to go to Sherman Institute, Riverside, California, but pleased to know that he leaves only to accept a handsome promotion. He will be the Commandant of Cadets at that crack school after May 1.

#### SHANNON'S COURSE OF LECTURES.

Prof. Shannon of St. Louis, a member of the American Purify Federation began a two days course of lectures in this city Thursday. He lectured to high school boys and girls at the chapel hour. Then he gave helpful addresses to the young men of the high school and the boys of the graded classes. Friday evening he will give his popular lecture on Sour Grapes at the Methodist church. Friday afternoon at 3:15 he will give his lecture "The Girl and Her Mother." This is a lecture that all the girls over 14, and mothers of the city should hear. Friday at 8 p. m. he will give his lecture, "Present Day Problems," to everybody. At the close of this lecture, he will give his lecture to Men.
