Speaks on Question of Socialism.

E. G. Miller of Boise addressed a medium sized audience on the question of socialism at the Modern Woodmen's hall last Sunday evening. He is a very interesting talker. He will deliver an address on the same subject at the corner of Fourth and Main street this evening and at Clarkston Hall tomorrow evening.

Frightened by Dogs.

A team belonging to the Star Dray Co. was hitched near the Tribune office yesterday morning. A young boy came down the street herding a pack of dogs from his horse and the howling canines ran under the dray team frightening them so that they ran away. The driver caught the horse's bits but was unable to hold them. After a run of two blocks they came in contact with one of Mathew's drays and fell. Nothing was damaged.

Electrolytic Copper Company Meets.

F. B. Platt and H. C. Tracy of St. Paul and D. D. Ferrell and Dr. J. H. Phillips and wife of Preston, Maine, came in on the train yesterday afternoon to attend a meeting of the stock holders of the Electrolytic Copper Mining company, which will be held tomorrow afternoon. At this meeting the company will elect directors and officers for the ensuing year. The claims owned by this corporation are located 18 miles above Innaha on the Oregon side of the Snake river. They show a good test of copper, gold and silver. Little has been said of this property through the papers but at the same time regular stock has been selling at 50 cents. Col. Frank Burke of this city has been actively engaged in the work of the company. As soon as the steamer Innaha is in commission it will make a special trip up the Snake river to accommodate the stock holders, directors and officers of the Electrolytic company.

Buys Fruit on Potlatch.

Will Fenders of the firm of Fenders & Williams, has been on the big Potlatch the first of the week making arrangements to secure a supply of small fruit after the Lewiston valley product is all gone. He expects to handle a large amount of strawberries and cherries.

Small Boys Defeated at Kendrick.

The small boys of Lewiston went to Kendrick Saturday and crossed bats with a ball team on the diamond at that place. The boys complain that it was a team much their seniors. The game was called at 10 o'clock and it was a foot race from the beginning to end. The score stood 28 to 32 in favor of Kendrick hard hitters.

School Bonds Sold.

Last Saturday the directors of Independent school district met and considered the bids for the \$35,000 bonds sold for the purpose of erecting a high school building. They found that the offer of L. S. Roberts of Spokane, for Rudolph, Kleybolte & Co., of Chicago, to be the best bid and their proposition was accepted. This will give the board \$35,525 for their use on the new structure. The money will be paid as soon as the bonds are ready and work will be begun immediately in order to furnish rooms for recitations this fall.

Sewers Will Not Flow.

The city authorities have more questions than the water question to bother them. The rains Sunday night settled the water question but it did not make the sewers work. For the last week there has been a force of men working on the sewers. At the time of the drouth the sewer lines filled up and the high water in Clearwater stopped the overflow at the mouth of the sewer main and the entire system was blocked. The fire

company's hose have been attached to the hydrants located near the Malloy & Lydon barn and several attempts have been made to flood the mains.
