The Man and the Machine
 Mr. Alexander T. Brown, inventor of the Smith Premier Typewriter, is unquestionably the foremost writing machine expert of the world. Besides, he is a practical and successful business man. He built the first
Smith Premier Typewriter
 not only for handsome and speedy work, but to endure under the severest demands of actual business. The Smith Premier is free from the weaknesses of eccentric, impractical construction, and to-day embodies the latest demonstrated improvements of this typewriter expert. Mr. Brown, as Vice-President of this Company, will continue to devote his entire time and inventive genius to maintain the Smith Premier where it now stands as the
World's Best Typewriter
 Send to-day for our little book explaining exactly why the Smith Premier is best.

DEAD SEA SALTNES.
 Caused by Atmospheric Transportation of Saline Product.
 It has generally been supposed that the saltiness of the waters of the Dead Sea is due to the soil and rocks. It is now thought, however, that this explanation is inadequate, and that the most important cause is the atmospheric transportation of salt from the Mediterranean sea. According to a writer in Harper's Weekly, the supposition is that the winds blowing from the Mediterranean would bring rain charged with salt. In proof of this it is stated that the proportion of chloride to bromine is the same in the Dead Sea that it is in the Mediterranean.
 Deadliest Poison Known.
 Cyanide of potassium and hydrocyanic or prussic acid are considered by most people to be about the most poisonous of known substances. This is an error. They are the most rapidly acting of all poisons, but not the most potent. One drop of pure prussic acid placed in the eye of a large dog will kill it within two seconds and such a dose will kill a man. But there is an alkaloid in acetonitrile, called pseudocoumarin, one three-hundredth part of a grain of which will kill a moderate-sized animal. This is the deadliest poison known, being 300 times as toxic as prussic acid.
 Sale of Victims' Clothing.
 A prison sale is held annually in Paris. The articles offered for sale are the clothes of murderers and the instruments with which crimes have been committed. The effects which have belonged to deceased prisoners. Articles which have been taken to the prefecture of police and have not been claimed, also sold. The proceeds go to the Paris almshouse. Unclaimed articles are usually bought by ordinary people, but the articles which have belonged to criminals, especially those of the notorious, are bought at high prices.
 Proof of Severe Weather.
 In opening a Keene, N. H., street in January to get at a frozen water pipe something like two feet of earth was first removed, and then this over a foot of dry sand was exposed out as easily as it would be in summer time. Beneath this sand a different soil was found, and this lower stratum was frozen to a depth of over five feet from the surface. A layer of dry sand a foot or more in thickness underneath a heavy crust of ice is usually a sufficient protection from frost.

Cash Given Away to Users of LION COFFEE
 We are going to be more liberal than ever in 1904 to users of *Lion Coffee*. Not only will the Lion-Heads, cut from the packages, be good, as heretofore, for the valuable premiums we have always given our customers, but
In Addition to the Regular Free Premiums
 the same Lion-Heads will entitle you to estimates in our \$50,000.00 Grand Prize Contests, which will make some of our patrons rich men and women. You can send in as many estimates as desired. There will be
TWO GREAT CONTESTS
 The first contest will be on the July 4th attendance at the St. Louis World's Fair; the second relates to Total Vote For President to be cast Nov. 8, 1904. \$20,000.00 will be distributed in each of these contests, making \$40,000.00 on the two, and, to make it still more interesting, in addition to this amount, we will give a
Grand First Prize of \$5,000.00
 to the one who is nearest correct on both contests, and thus your estimates have two opportunities of winning a big cash prize.
Five Lion-Heads cut from Lion Coffee Packages and a 2 cent stamp entitle you (in addition to the regular free premiums) to one vote in either contest:
Printed blanks to vote on found in every Lion Coffee Package. The 2 cent stamp covers the expense of our acknowledgment to you that your estimate is recorded.

Snake venom.
 A very exciting and interesting story of a man who survived—mode of survival—of a snake-bite—a new Australian discovery—can be confidently recommended.
 It is the collection of a substance that, like rubber, is valued by the grain. A pound of it is sold to be worth \$25,000. It is an active demand by chemists. It is obtained from three species—the cobra, the brown adder and the tiger snake. The reptiles must be crushed, uninfused. Tiger snakes are the best for they carry the most venom.
