THE CAMPAIGN.

The campaign in Idaho this year is probably the most important in the history of the state. The question is not as to whom shall be elected, but runs to a change of our government. The campaign should be one of education, but there is every indication that it will degenerate into one of abuse. For months there has been waged a campaign of misrepresentation by exaggeration. It will take work to offset the evil effects that have already accrued. But if misfortune is to be averted, that work must be done. The Liberty Loan campaign is all but over in this county. Only the closing up remains, and involves personal work with a few men rather than a general appeal to the public. In view of this fact, indulgence in a little political discussion can not disturb the campaign.

Beginning with next week, the Press will take an active part in the campaign. It will not be a maligning part, nor one actuated by prejudice or hate. It will be one where an attempt will be made to reason things out, to the end that the greatest good may come to the greatest number.

Mother: Now, father, don't get discouraged over your rheumatism! I have heard that Dr. Wilson can cure it. And besides, you remember how I was cured of my appendicitis and Mary of her constipation by a Chiropractor.

Father: Yes, I remember; and I have heard of the success Dr. Wilson has been having with cases worse than mine, so I will see what he can do for me. In his advertisements he says that examinations are free. I am going to be examined today and start with the adjustments.

SUGAR SHORTAGE HITS SPAIN AND PORTUGAL

In Spain and Portugal sugar prices are soaring. Both countries have been seriously affected by the short beet sugar crop in Europe and the lack of ocean tonnage to move stocks of cane sugar isolated in far away ports.

Granulated sugar, home grown, was being sold in Barcelona, Spain, during the early summer at 19 cents a pound. The price of brown sugar in Lisbon, Portugal, fixed by governmental order, was \$1.04 to \$1.12 a pound. By comparison the price of beet sugar in Sweden is 14 cents a pound.

ALIAS SUMMONS.

In the District Court of the Fifth Judicial District of the State of Idaho, in and for the County of Power.

Fred Creasey, plaintiff, vs. Glenn Creasey, defendant.

The State of Idaho sends greeting to Glenn Creasey, the above named defendant.

You are hereby notified that a complaint has been filed against you in the district court of the Fifth Judicial District of the State of Idaho, in and for the county of Power, and that you are hereby directed to appear and answer said complaint within thirty days of the service of this summons if served within said judicial district and within forty days if served elsewhere, and you are further notified that this action is brought to dissolve the bonds of matrimony existing between the said plaintiff and defendant and that the property described in said complaint be declared to be the sole and separate property of the said plaintiff, and that title thereof be quieted in the said plaintiff, and you are further notified that unless you so appear and answer said complaint within the time specified the plaintiff will take judgment against you as prayed for in said complaint.

Witness my hand and the seal of the said District Court, this 9th day of October, A. D. 1918.

(Seal.) PAUL BULFINCH, Clerk of the District Court. By L. B. Hauschildt, Deputy. O. R. Baum, Attorney for Plaintiff, residing at American Falls, Idaho 10-11, 18, 25; 11-8, 15.

To the People of the Fifth Judicial District of the State of Idaho:

I have been nominated as a candidate for district judge of the Fifth Judicial District, comprising the counties of Bannock, Bear Lake, Franklin, Oneida and Power. I have served as judge of this district for the past four years. At the time I began my duties the dockets of the court in the various counties were so crowded and congested, many of the cases having been upon the docket for a long time, that it was impossible for two men to do the work. I claim that in the past three years of my services that I did the work of two men and did twice as much work as any man should do. By starting court early in the morning and holding until late at night I not only relieved the congestion to an appreciable degree, but by intelligent management of the court affairs I saved the people of this district many thousands of dollars, and I would ask that you in-

quire of the county officials of your county, who are familiar with the court work, as to whether my statement is true or not. The population of this judicial district is more than 100,000, and there are more than 20,000 voters scattered over a wide area, so that if I had nothing else to do it would be impossible for me to meet but a small per centage of the voters between now and election day. Any person acting as judge of such a large district for four years necessarily creates enemies, as certain litigants, both civil and criminal, are dissatisfied with the rulings of the judge, and many of these look forward to election day as the time they can get even for their grievances, but I trust the voter will remember that when I passed upon a case that I heard both sides of it, but you will be only told one side. I shall rely upon my four years' record as judge of this district to secure my reelection.

Respectfully submitted,
J. J. GUHEEN.

Just a Few Things to Ponder Over

If it is good sense to expend THOUSANDS OF DOLLARS to protect a \$250 piano from the elements, would it not be advisable in a greater degree to expend a small part of that amount in the protection of the machinery and implements that made possible the purchase of the piano.

You would strain a tendon chasing a \$200 BILL if you found one floating around your premises. Of course you would—anybody would. Why then leave a \$300 BINDER, a \$1000 THRESHING MACHINE, A \$100 PLOW or a \$150 MOWER in the field or the furrow to rot, rust and deteriorate in preference to expending \$100 for material for their protection?

While this is fresh in your mind look over your own place and see if this applies to you. Get the habit of viewing your machinery as if it were MONEY instead of something inanimate. IT IS MONEY, it cost REAL MONEY and would take real money to replace. Give this stuff a REAL CHANCE, the same square deal you gave the piano.
