By Dr. Israel Bram.

"This term (Cathartic Plend) which I deem fit to apply to people to whom cathartics are just as indispensable as morphine, alcohol, and cocaine are to their respective addicts. . . . Like all drug fiends, the dose of the cathartic in most instances must be constantly increased to keep pace with the deterioration of the bowel mucosa and the normal reflex which becomes obtunded by degrees. Sooner or later the time arrives when the poor mortal has tried out all available drugs, even to maximum dosage, to inspire his worn-out bowels, which have been whipped out of commission and may be compared to a lifeless hose pipe." (Medical Review, St. Louis.)

If you want your bowels to become as lifeless and functionless as a "hose pipe," continue to take cathartics—physics. These are truly like drugs—the more you take, the more you will have to take—one kind today and another kind tomorrow, until you have run through the list of cathartics, i. e., physics.

The best CURE for constipation and costiveness is Chiropractic adjustments. Rather than taking the life out of your bowels, adjustments will put more life into them, making them functionate properly. See Dr. Geo. A. Wilson, Chiropractor, Phone 7-W, Wones Bldg., and he will show you why Chiropractic is "Nature's Way to Health." Consultations free.

William Hohenzollern is reported to be seriously ill at his retreat in Holland.
