**SAYS COLD WEATHER BRINGS RETURN OF INFLUENZA**

Public Must Be Careful To Avoid a Second Epidemic. Easier to Prevent Than Cure. What to Do.

"Encouraging reports of the fewer cases of Influenza in this vicinity"

**Uncle Sam**  
was raised on corn—says Bobby and his running strong. EAT—

Champion corn flakes

should not allow us to relax our vigilance or to become careless in the belief that the danger is all over," says a well known authority. With the coming of cold weather there is apt to be a return of this frightful epidemic and its seriousness will depend on the extent of the precautions taken by the public, to prevent infection.

When the air is full of influenza germs, you may be constantly breathing them into your nose and throat. But their danger may be avoided and

you may make yourself practically immune to infection if you destroy the germ before it actually begins work in your blood.

During the recent serious epidemic which hit Moscow so hard, most successful results were obtained by many through the simple breathing into the nose, throat and lungs of the medicated air of oil of Hyomei. Probably no better, safer or more sensible precaution against Influenza, Grippe, Coughs, Colds, Bronchitis or Catarrh of the nose and throat could be em-

ployed than to go now to the nearest drug store and get a complete Hyomei outfit consisting of a bottle of the pure Oil of Hyomei and a little vestpocket hard rubber inhaling device into which a few drops of the oil are poured.

Carry this inhaler with you during the day and each half hour or so put it in your mouth and draw deep breaths of its pure healing germicidal air into the passages of your nose, throat and lungs to destroy any germs that may have found lodgment

there. This simple precaution may save you a serious illness and the loss of several weeks work. It is pleasant to use and not at all expensive as the inhaler will last a lifetime and further supplies of the Oil of Hyomei can be had at any drug store for a few cents.

Hundreds of people in this vicinity used Hyomei in this way during the recent crisis and avoided danger. They should not neglect it now for the danger is by no means over. For sale by R. Hodgins.

**THE ECONOMY BAKING POWDER CALUMET**

Calumet possesses the farthest-reaching baking powder economy. It is the *most* economical leavening agent. It saves in *more* ways — and makes *more important* savings than most other baking powders.

*You save when you buy it.* The price is moderate — it leaves you money over the cost of high-priced brands for purchase of *other* articles. Costs but little more than cheap powders — far more *valuable* in quality.

*You save when you use it.* Possesses *twice* the ordinary raising force — you use only *half* as much as is ordinarily required.

*You save materials it is used with.* Calumet never fails with any kind of recipe or with any kind of flour — *always* produces perfectly raised, delicious bakings.

*You'll notice a great difference when you use Calumet.* It produces light, sweet, wholesome, flaky bakings. You'll notice with some of the cheaper brands the bakings are soggy, heavy, dark in color and sometimes have a bitter taste.

Used by leading chefs and domestic scientists, and by more housewives than any other brand. Made in the world's largest and finest baking powder plant.

Best by test. A trial proves it.

**GRINDING, ROLLING AND CHOPPING**

**FREE**

To introduce our new chop mill and first class work, we will mill free of charge, 10 sacks of any one lot.
