The United States through the most severe trials the government has ever experienced. With our European allies fully satisfied with his ability to handle the situation and the leading papers of the nation putting their trust in him, he has the backing of the civilized world. In commenting on the recent peace note of Germany and her offer to accept Wilson's terms the big newspapers show their faith in the president. Some of the editorials from these papers on this subject are here reproduced:

Louisville Courier Journal—The man in the White House must draft the program of civilization in its future dealings with the despoilers that he and his colleagues of the allied governments will permit the Hun to retire to his bloody lair still a belligerent is unthinkable.

Oklahoma City Oklahoman—The German answer to President Wilson is not a surrender. It is a move to avoid surrender.

Tacoma Ledger—Now is the critical

time when every American citizen owes it to his country to show by his patience a supreme confidence in the sincerity of purpose that will actuate the decision of our president.

St. Louis Republic—Who knows whether the German reply is a sham or an honest step toward peace? Nobody in America has the means for knowing equal to those which the president and his advisers enjoy. He may be trusted to detect the fraud and administer a sufficient rebuff if there is fraud.

Birmingham Age Herald—The note seems to be an amazing confession of weakness. It must be acknowledged as a sweeping diplomatic victory for President Wilson.

of this district and invite them to cooperate with the committee for the success of the

Republican State, Congressional, Legislative and County Tickets

An office has been opened in Moscow and Republicans of this district are invited to call there and consult with those in charge as to the best methods of conducting the campaign.

The time before election is short. We must get busy. Every voter who is desirous of saving Idaho from the fate that befell North Dakota, should awaken to the danger that threatens us and begin work at once.

Write, telephone, telegraph or call upon this committee for assistance if it is needed in your county, town or precinct.
