

THE OAKLEY EAGLE

VOLUME 10.

OAKLEY, CASSIA COUNTY, IDAHO, THURSDAY, MAY 17, 1906.

NUMBER 9

The Brass Band.

We call attention to the call for a brass band meeting and practice at the Academy building on Saturday evening this week. It is the purpose as we understand, to organize the band and to effect such arrangements as will permanently establish this very necessary organization in our midst. Those that attended the Academy concert recently were very much pleased with the excellent showing made by the band, and it seems to be the general feeling that this organization must live and that it must stand as a monument to the energy and progressiveness of the town. It gives tone and life to the community and we simply CANNOT AFFORD TO GET ALONG WITHOUT IT. The Fourth of July will soon be here and we had just as well try to get along without gunpowder and firecrackers as to get along without a brass band. Let other features of a celebration be ever so good, if there are no inspiring strains from a brass band, the celebration falls flat, and all energy is to a large degree wasted.

It is perhaps in order to suggest to the "Dads" that it is about time to appoint committees and arrange for the celebration of Independence day, and in the same connection to state that from our point of view it would be entirely proper and appropriate that they lend some encouragement to the band. They are to look after the village, and the village needs, yea, by universal voice, DEMANDS A BRASS BAND. Think it over, Fathers:

We believe that a brass band could in a large measure be self sustaining if properly managed. That it would give excellent musical training to our boys gratis, and would make every man, woman and child in town glad they are alive. Isn't that worth something? Well, I guess. A brass band is not only a luxury but a necessity to a community that desires to prosper. We have splendid talent here and can make a first class band if we only will. We have thought for some time that we could not maintain a good band because we had no leader. It now develops that we have two or three who are capable of leading, so let us not hang to that old and flimsy excuse any longer, but let us get together, organize and have a band that will reflect credit upon our community and give us prestige among our neighbors.

MUST OBEY

SPRAYING LAW.

State Horticultural Inspector A. F. Hitt has been requested by the state board to enforce the spraying law to the letter. He has sent out notices to people who have trees that need spraying, after having made a personal inspection. These notices require the owners to spray their trees without delay. If the instruction is not followed the owner will have to answer in court.

The first case was tried yesterday in the county court. John Johnston was the defendant. He was found guilty of not complying with the spraying law, was fined \$25 and must pay the costs.

It is understood that another case will be brought tomorrow. Mr. Hitt will play no favorites and will see that the law is enforced.—Capital News.

In view of the above order of

the state land board of horticulture. It will be necessary for the fruit growers of district No. 10 which includes Cassia, Blaine, and Lincoln Co's to keep in line and get down to business. I find that a great many are just where they were last year at this time. Now if these parties are made an example of don't blame the inspector. If the fruit growers of Dist. No. 10, will unite in fighting the fruit pests good will result. The first spraying for the Codlin moth should be done just after the petal of the blossom has fallen and the blossom has a brownish appearance; care should be taken to fill the calyx or blossom end of the apple or pear before the same closes. When to spray is of just as much importance as how to spray or what to spray with. Remember that thoroughness will determine results. I shall request every orchard in my dis-

PERRINE AND THE CAPITALISTS

TURN THEIR EYES THIS WAY.

The following extract taken from the Deseret News, gives the forecast of some of the good things that are coming our way:

"W. T. Jack has taken a ninety-day option on eight marble and onyx claims, owned by John Fairchild and Gade Roberts, east of Basin settlement. The consideration was \$10,000. Mr. Jack is securing this property for a syndicate with a view to establishing extensive marble and onyx works, and other manufactories. Mr. Herman L. Hartenstein of Constantine, Michigan, is expected out early in June to make selection of quarries and sites for some large factories, which, it is thought, will either be located in Basin or Willow Creek, 14 miles north of Oakley. The Basin properties contain 160 acres of as fine quality and as large variety of colored marble and onyx as can be found in the west.

Mr. I. B. Perrine of Blue Lakes, who has done so much for the development of southern Idaho, is the "moving cause" in this new enterprise."

That the factories mentioned above will be built is beyond the question of a doubt. That these factories will require rail facilities for transportation is evident; that the road-electric or dummy, will be built is practically settled: That our part of the county is on the very verge of an era of great prosperity is known by a few, and will soon be realized by all. Whoop it up, whoop it up, whoop it up: What's the matter with Oakley, Basin, marion, and all these other good old settlements? They're all right. We once thought so, but now we know it.

tract infested with codlin moth to be sprayed for eradication of the same. I also advise the banding of trees to catch all larvae that may have escaped the poison. Refer to your bulletin and use remedy No. 2 or No. 3, mix and use according to directions. Inquire of your inspector for any information that you may need as he will be pleased to assist in anyway possible. Wishing every fruit grower success in keeping up Idaho's good name in fruit growing.

Yours Respectfully,
John Adams,
Horticultural Inspector, Dist No. 10, Oakley, Idaho.

STATE GEMLETS.

Joseph Lang and Orson Chase, the former a miner fifty years of age and the latter a fifteen year old boy were drowned in the Payette river at the Gartz dam on Wednesday last. They were attempting to cross the river in a row boat about 150 feet above the dam where the current was very swift, and were engulfed in the turbulent waters.

Idaho is to have another magazine. It will be published by

Lee C. Henderson at Weiser and will be devoted to descriptive matter of Idaho, her resources, possibilities development and will give a brief review of important events that contribute to the development of various sections of the state.

The following committee from Twin Falls are investigating the county division proposition:—E. E. Chamberlain, M. J. Sweeney, W. P. Guthrie, S. T. Hamilton, F. D. Kimball, C. D. Thomas, E. H. Rettig, J. L. Hansen, H. T. West, J. McMillan. The committee will visit every precinct of the county, get public sentiment, and report to Twin Falls people. Plans for campaign will then be formulated.

Judge Price of the district court has decided that the Twin Falls Land and Water Company must pay taxes on its canal system so

Just Give us a Tip.

The publisher of the average newspaper is generally not only willing but glad to publish any thing in the shape of news that he can get hold of, and the more he gets the better it suits him and his patrons. Yet some people think they're slighted because they do not come under his observation, but which he would just as cheerfully publish whether it concerned friend or enemy, did he only know it. The moral of the above is, when you know anything that will make your home paper more newsy and readable just give us a tip and see how quick we will jump for it.—Ex.

How to Build up a Town.

Praise it.
Improve it.
Talk about it.
Write about it.
Trade at home.
Be public spirited.
Take a home pride in it.
Tell of its business resources.
Tell of its natural advantages.
Trade and induce others to trade here.

When strangers come to town use them well.

Don't call your best friends frauds and imposters.

Support the local institutions that benefit your town.

Look ahead of yourself when all the town is to be considered.

Don't forget you live off the people here, and you should help others as they help you.

Don't advertise in the local paper "to help the proprietor," but to help yourself.

Let's get together and keep things moving, hustling all the time; cheerfully keeping a stiff upper lip, waiting for the good time coming for the old town. Let us try it. Do it now.—Exchange.

1 CENT IS ALL IT WILL COST YOU
to write for our big FREE BICYCLE catalogue showing the most complete line of high-grade BICYCLES, TIRES and SUPPLIES at PRICES BELOW any other manufacturer or dealer in the world.

DO NOT BUY A BICYCLE from anyone, or on any kind of terms, until you have received our complete Free Catalogues illustrating and describing every kind of high-grade and low-grade bicycles, old patterns and latest models, and learn of our remarkable LOW PRICES and wonderful new offers made possible by selling from factory direct to rider with no middlemen's profits.

WE SHIP ON APPROVAL without a cent deposit, pay the Freight and allow 10 Days Free Trial and make other liberal terms which no other house in the world will do. You will learn everything and get much valuable information by simply writing us a postal.

We need a **Rider Agent** in every town and can offer an opportunity to make money to suitable young men who apply at once.

\$8.50 PUNCTURE-PROOF TIRES ONLY \$4.80 PER PAIR

Regular Price \$8.50 per pair.
To introduce We will sell You a Sample Pair for Only \$4.80

NAILS, TACKS OR GLASS WON'T LET OUT THE AIR (CASH WITH ORDER \$4.50)
NO MORE TROUBLE FROM PUNCTURES.
Result of 15 years experience in tire making. No danger from THORNS, CACTUS, PINS, NAILS, TACKS OR GLASS. Serious punctures, like intentional knife cuts, can be vulcanized like any other tire.
Two Hundred Thousand pairs now in actual use. Over Seventy-five Thousand pairs sold last year.

DESCRIPTION: Made in all sizes. It is lively and easy riding, very durable and lined inside with a special quality of rubber, which never becomes porous and which closes up small punctures without allowing the air to escape. We have hundreds of letters from satisfied customers stating that their tires have only been pumped up once or twice in a whole season. They weigh no more than an ordinary tire, the puncture resisting qualities being given by several layers of thin, specially prepared fabric on the tread. That "Holding Back" sensation commonly felt when riding on asphalt or soft roads is overcome by the patent "Basket Weave" tread which prevents all air from being squeezed out between the tire and the road thus overcoming all suction. The regular price of these tires is \$8.50 per pair, but for advertising purposes we are making a special factory price to the rider of only \$4.80 per pair. All orders shipped same day letter is received. We ship C.O.D. on approval. You do not pay a cent until you have examined and found them strictly as represented.

We will allow a cash discount of 5 per cent (thereby making the price \$4.56 per pair) if you send FULL CASH WITH ORDER and enclose this advertisement. We will also send one nickel plated brass hand pump and two Sampson metal puncture closers on full paid orders (these metal puncture closers to be used in case of intentional knife cuts or heavy gashes). Tires to be returned at OUR expense if for any reason they are not satisfactory on examination. We are perfectly reliable and money sent to us is as safe as in a bank. Ask your Postmaster, Banker, Express or Freight Agent or the Editor of this paper about us. If you order a pair of these tires, you will find that they will ride easier, run faster, wear better, last longer and look finer than any tire you have ever used or seen at any price. We know that you will be so well pleased that when you want a bicycle you will give us your order. We want you to send us a small trial order at once, hence this remarkable tire offer.

COASTER-BRAKES, everything in the bicycle line are sold by us at half the usual prices charged by dealers and repair men. Write for our big SUNDRY catalogue.

DO NOT WAIT but write us a postal today. **DO NOT THINK OF BUYING** a bicycle or a pair of tires from anyone until you know the new and wonderful offers we are making. It only costs a postal to learn everything. Write it NOW.
