There were five linemen in the party and a son of the injured man was sent to town to notify Dr. Schuyler and have him ready to attend the injured man upon his arrival.

Mr. Weltzheimer was brought to the hotel, where the doctor soon reduced the fracture and placed the injured member in a fracture box. The limb was badly swollen and the patient was suffering intensely when he arrived. The sharp point of the broken bone had lacerated the flesh and he was suffering considerably from shock. LOCAL MINING NEWS

Rich Gulch

O. W. Chamberlain, who has been working at the Rich Gulch for some time, hit his hand with a hammer one day last week. He covered up the wound with Newskin, thus keeping all the infection in. The consequence was a case of blood poisoning which kept him at the hotel under Dr. Schuyler's care for several days.

The Banner

Manager Peter Steele went to Boise this week to take over the brick obtained in the recent mill run. He returned Tuesday night. The brick was a mighty nice one, weighing in the neighborhood of 700 ounces. Returns from the deposit will be in in about a week. The concentrates will be held until a carload is ready for shipment.

Work is going on at the 200 level and some very good ore is being taken out. The ledge appears to be about six feet wide all through, and the future will determine the extent of it.

Work will probably be started today on the Sullivan ore. Probably about fifty or sixty tons will be run through the mill for Mr. Sullivan.

Suit Filed in District Court

The Western Loan and Savings Company of Salt Lake City has entered suit in the District Court against W. D. and Clara A. Wagner and Harry E. Barker for recovery of a loan. The company in question entered the Idaho field energetically some three years ago, and has been doing a large building and loan business in southern Idaho ever since. They appointed representatives in most of the larger Idaho towns and sold a great number of their certificates, both on the building and loan plans. Defendants in the present suit live at King Hill and gave a prior lien to the company on their property for the sum of \$2536.97, in which sum the plaintiffs claim judgment, with interest from August of last year. The property in question is in Owyhee County.

According to the Nampa Record, Asa Baldwin, the Wennersten magnate, spent Monday in Boise. Asa will recover.

Another gang of linemen were passengers on yesterday's incoming stage, replacing those who returned after the accident to their foreman.

THEY DO SAY

That Jim Daly wouldn't sell his bobs Saturday. Wonder why?

That Lute Gardner stopped hauling flour and potatoes Sunday long enough to enjoy the bobbing with the other kids.

That they got in a good one on Lawyer Williams Saturday night. It appears that Silver's limb of the law wanted to get a bob sled. He went into Mike Rock's to borrow one. Ole Bachelor offered to loan him his, an offer gratefully accepted until P. C. discovered the loan involved the use of one of the big freighter bobs.

That John Connors is squealing about that rheumatism again. Better go on a bread and water diet, John, and attend church.

A dance was held at Grand View, Wednesday evening, Nov. 29 and another at the Woodmen Hall in the lower end of the valley, Thursday evening Nov. 30. From what we can learn the larger crowd attended the one in the Woodmen Hall, probably due to the fact that it was held Thanksgiving night.

Mrs. Droby and three daughters spent Thanksgiving holidays with the former's parents, Mr. and Mrs. Graham at Crane Falls, Idaho.

Empowered To Do Anything

The certificate of incorporation of the Southern Idaho Light, Heat and Power Company was filed in Owyhee County this week.

This is the big concern that it is rumored will eventually become a light, heat and power trust. The concern is incorporated at Portland, Maine, and the capital stock is twenty million dollars, twelve and a half millions in common and seven and a half preferred stock. Clarence E. Eaton of Portland, Maine, is credited with 13 shares, ten other people from the same town are incorporators with one share apiece and the articles state that there are 125 thousand shares of common and 75 thousand shares of preferred unsubsribed and unissued. The filing in Silver City was made at the request of Richards and Haga, the Boise attorneys.

The powers of the new company are very broad, giving opportunity to do almost anything except a banking or trust business, which is expressly forbidden. The articles cover the manufacture of electric current for light, heat and power purposes; the acquirement and sale of water rights; to build reservoirs and dams, erect power plants, operate pole lines, build municipal water and gas and garbage reduction plants, acquire real estate, issue and guarantee bonds and other things too numerous to mention.

The newly organized company has acquired the Swan Falls power properties, which were recently transferred to the Kuhn interests. It is evident that the organization is a sort of holding company for a big merger.

There were twelve passengers on the incoming stage last night. Dave Brumbaugh wore a smile all evening.

L. N. Hess, Boise manager of the Bell Telephone Co., was one of the twelve apostles arriving on yesterday's stage.

Dr. Heer came in from DeLamar this morning to try the Harder case and goes back this evening.

Mr. Bonnell was registered at the Idanha Hotel in Boise on Monday.

Mr. and Mrs. Gus Rood were made happy at six o'clock this morning when an eleven pound girlie arrived to grace their home. Dr. Farrer of DeLamar officiated. All doing nicely.

Andrew Honza of Grand View will prove up on his water rights on December 20.

Attorney T. A. Walters of Jackson & Walters, the Caldwell attorneys, arrived last night. He comes to make final probate of the Harder estate.
